Independent Auditor's Report

To the Shareholders of Empire Company Limited

We have audited the accompanying consolidated financial statements of Empire Company Limited, which comprise the consolidated balance sheets as at May 6, 2017 and May 7, 2016 and the consolidated statements of earnings (loss), comprehensive income (loss), changes in shareholders' equity, and cash flows for the 52-week period ended May 6, 2017 and the 53-week period ended May 7, 2016, and the related notes, which comprise a summary of significant accounting policies and other explanatory information.

Management's responsibility for the consolidated financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of Empire Company Limited as at May 6, 2017 and May 7, 2016 and its financial performance and its cash flows for the 52-week period ended May 6, 2017 and the 53-week period ended May 7, 2016 in accordance with International Financial Reporting Standards.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

1. Reporting entity

Empire Company Limited (“Empire” or the “Company”) is a Canadian company whose key businesses are food retailing and related real estate. The Company is incorporated in Canada and the address of its registered office of business is 115 King Street, Stellarton, Nova Scotia, B0K 1S0, Canada. The consolidated financial statements for the period ended May 6, 2017 include the accounts of Empire, all subsidiary companies, including 100 percent owned Sobeys Inc. (“Sobeys”), and certain enterprises considered structured entities (“SEs”), where control is achieved on a basis other than through ownership of a majority of voting rights. Investments in which the Company has significant influence and its joint ventures are accounted for using the equity method. As at May 6, 2017 the Company’s business operations were conducted through its two reportable segments: Food retailing and Investments and other operations, as further described in Note 26, Segmented Information. The Company’s Food retailing business is affected by seasonality and the timing of holidays. Retail sales are traditionally higher in the Company’s first quarter. The Company’s fiscal year ends on the first Saturday in May. As a result, the fiscal year is usually 52 weeks but results in a duration of 53 weeks every five to six years. The years ended May 6, 2017 and May 7, 2016 were 52 and 53 weeks respectively.

2. Basis of preparation

Statement of compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS” or “GAAP”) as issued by the International Accounting Standards Board (“IASB”).

The consolidated financial statements were authorized for issue by the Board of Directors on June 28, 2017.

Basis of measurement

The consolidated financial statements are prepared on the historical cost basis, except the following assets and liabilities which are stated at their fair value: financial instruments (including derivatives) at fair value through profit and loss (“FVTPL”), financial instruments classified as available for sale and cash settled stock-based compensation plans. Assets held for sale are stated at the lower of their carrying amount and fair value less costs to sell.

Use of estimates and judgments

The preparation of the consolidated financial statements requires management to make judgments, estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. The use of estimates, judgments and assumptions are interrelated. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The Company has applied judgment in its assessment of the appropriateness of consolidation of SEs, the appropriateness of equity accounting for its investments in associates and joint ventures, the classification of leases and financial instruments, the level of componentization of property and equipment, the determination of cash generating units, the identification of indicators of impairment for property and equipment, investment property, intangible assets and goodwill, the recognition and measurement of assets acquired and liabilities assumed, and the recognition of provisions.

Estimates, judgments and assumptions that could have a significant impact on the amounts recognized in the consolidated financial statements are summarized below. Estimates are based on management’s best knowledge of current events and actions the Company may undertake in the future. Actual results could differ from these estimates.

(a) Inventories

Inventories are valued at the lower of cost and estimated net realizable value. Significant estimation or judgment is required in the determination of (i) estimated inventory provisions associated with vendor allowances and internal charges; (ii) estimated inventory provisions due to spoilage and shrinkage occurring between the last physical inventory count and the balance sheet dates; and (iii) inventories valued at retail and adjusted to cost.

(b) Impairment

Management assesses impairment of non-financial assets such as investments in associates and joint ventures, goodwill, intangible assets, property and equipment, and investment property. In assessing impairment, management estimates the recoverable amount of each asset or cash-generating unit ("CGU") based on expected future cash flows. When measuring expected future cash flows, management makes assumptions about future growth of profits which relate to future events and circumstances. Actual results could vary from these estimated future cash flows. Estimation uncertainty relates to assumptions about future operating results and the application of an appropriate discount rate. Impairment losses and reversals are disclosed in the consolidated financial statements in Notes 9, 10, 11, and 12.

Goodwill is subject to impairment testing on an annual basis. The Company performed its annual assessment of goodwill impairment during its third quarter. However, if indicators of impairment are present, the Company will review goodwill for impairment when such indicators arise. In addition, at each reporting period, the Company reviews whether there are indicators that the recoverable amount of long-lived assets may be less than their carrying amount.

Goodwill and long-lived assets were reviewed for impairment by determining the recoverable amount of each CGU or groups of CGUs to which the goodwill or long-lived assets relate. Management estimated the recoverable amount of the CGUs based on the higher of value-in-use ("VIU") and fair value less costs of disposal ("FVLCD"). The VIU calculations are based on expected future cash flows. When measuring expected future cash flows, management makes key assumptions about future growth of profits which relate to future events and circumstances. Estimation uncertainty relates to assumptions about future operating results and the application of an appropriate discount rate. Actual results could vary from these estimates which may cause significant adjustments to the Company's goodwill or long-lived assets in subsequent reporting periods.

(c) Employee future benefits

Accounting for the costs of defined benefit pension plans and other post-employment benefits requires the use of a number of assumptions. Pension obligations are based on current market conditions and actuarial determined data such as medical cost trends, mortality rates, and future salary increases. A sensitivity analysis and more detail of key assumptions used in measuring the pension and post-employment benefit obligations are disclosed in Note 17.

(d) Income taxes

Assumptions are applied when management assesses the timing and reversal of temporary differences and estimates the Company's future earnings to determine the recognition of current and deferred income taxes. Judgments are also made by management when interpreting the tax rules in jurisdictions where the Company operates. Note 13 details the current and deferred income tax expense and deferred tax assets and liabilities.

(e) Business acquisitions

For business acquisitions, the Company applies judgment on the recognition and measurement of assets acquired and liabilities assumed, and estimates are utilized to calculate and measure such adjustments. In measuring the fair value of an acquiree's assets and liabilities management uses estimates about future cash flows and discount rates. Any measurement changes after initial recognition would affect the measurement of goodwill.

(f) Provisions

Estimates and assumptions are used to calculate provisions when the Company estimates the expected future cash flows relating to the obligation and applies an appropriate discount rate.

(g) Supply agreements

The Company has various long-term supply agreements for products, some of which contain minimum volume purchases. Significant estimation and judgment is required in the determination of (i) future operating results; and (ii) forecasted purchase volumes. When measuring whether a provision is required based on the expected future cash flows associated with fulfilling the contract, management makes assumptions which relate to future events and circumstances. Actual results could vary from these estimated future cash flows.

3. Summary of significant accounting policies

(a) Basis of consolidation

The financial statements for the Company include the accounts of the Company and all of its subsidiary undertakings up to the reporting date. Subsidiaries, including SEs, are all entities the Company controls. All subsidiaries have a reporting date within six weeks of the Company's reporting date. Where necessary, adjustments have been made to reflect transactions between the reporting dates of the Company and its subsidiaries.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

Control exists when the Company has existing rights that give it the current ability to direct the activities that significantly affect the entity's returns. The Company reassesses control on an ongoing basis.

SEs are entities controlled by the Company which were designed so that voting or similar rights are not the dominant factor in deciding who controls the entity. SEs are consolidated if, based on an evaluation of the substance of its relationship with the Company, the Company concludes that it controls the SE. SEs controlled by the Company were established under terms that impose strict limitations on the decision making powers of the SEs management and that results in the Company receiving the majority of the benefits related to the SEs operations and net assets, being exposed to the majority of risks incident to the SEs activities, and retaining the majority of the residual or ownership risks related to the SEs or their assets.

All intercompany transactions, balances, income and expenses are eliminated in preparing the consolidated financial statements.

Earnings or losses and other comprehensive income of subsidiaries acquired or disposed of during the period are recognized from the effective date of acquisition, or up to the effective date of disposal, as applicable.

Non-controlling interest represents the portion of a subsidiary's earnings and losses and net assets that is not held by the Company. If losses in a subsidiary applicable to a non-controlling interest exceed the non-controlling interest in the subsidiary's equity, the excess is allocated to the non-controlling interest except to the extent that the majority has a binding obligation and is able to cover the losses.

(b) Business acquisitions

Business acquisitions are accounted for by applying the acquisition method. The acquisition method involves the recognition of the acquiree's identifiable assets and liabilities, including contingent liabilities, regardless of whether they were recorded in the financial statements prior to acquisition. The acquiree's identifiable assets, liabilities, and contingent liabilities that meet the conditions for recognition under IFRS 3, "Business Combinations", are recognized at their fair value at the acquisition date, except for: (i) deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements which are recognized and measured in accordance with International Accounting Standard ("IAS") 12, "Income Taxes", and IAS 19, "Employee Benefits", respectively; and (ii) assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5, "Non-current Assets Held for Sale and Discontinued Operations", which are measured and recognized at fair value less costs to sell. Goodwill arising on acquisition is recognized as an asset and represents the excess of acquisition cost over the fair value of the Company's share of the identifiable net assets of the acquiree at the date of the acquisition. Any excess of identifiable net assets over the acquisition cost is recognized in net earnings or loss immediately after acquisition. Transaction costs related to the acquisition are expensed as they are incurred.

(c) Foreign currency translation

Assets and liabilities of foreign operations with a different functional currency than the Company are translated at exchange rates in effect at each reporting period end date. The revenues and expenses are translated at average exchange rates for the period. Cumulative gains and losses on translation are shown in accumulated other comprehensive income or loss.

Monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the foreign currency exchange rate in effect at each reporting period end date. Non-monetary items are translated at the historical exchange rate at the date of transaction. Exchange gains or losses arising from the translation of these balances denominated in foreign currencies are recognized in operating income or loss. Revenues and expenses denominated in foreign currencies are translated into Canadian dollars at the average foreign currency exchange rate for the period.

(d) Cash and cash equivalents

Cash and cash equivalents are defined as cash and guaranteed investments with a maturity less than 90 days at date of acquisition.

(e) Inventories

Warehouse inventories are valued at the lower of cost and net realizable value with cost being determined on a weighted average cost basis. Retail inventories are valued at the lower of cost and net realizable value. Cost is determined using a weighted average cost using either the standard cost method or retail method. The retail method uses the anticipated selling price less normal profit margins, on a weighted average cost basis. The cost of inventories is comprised of directly attributable costs and includes the purchase price plus other costs incurred in bringing the inventories to their present location and condition, such as freight. The cost is reduced by the value of rebates and allowances received from vendors. The Company estimates net realizable value as the amount that inventories are expected to be sold taking into consideration fluctuations of retail price due to seasonality less estimated costs necessary to make the sale. Inventories are written down to net realizable value when the cost of inventories is not estimated to be recoverable due to obsolescence, damage or permanent declines in selling prices. When circumstances that previously caused inventories to be written down below cost no longer exist or when there is clear evidence of an increase in retail selling price, the amount of the write-down previously recorded is reversed. Costs that do not contribute to bringing inventories to their present location and condition, such as storage and administrative overheads, are specifically excluded from the cost of inventories and are expensed in the period incurred.

(f) Income taxes

Tax expense recognized in net earnings or loss comprises the sum of deferred income tax and current income tax not recognized in other comprehensive income or loss.

Current income tax assets and liabilities are comprised of claims from, or obligations to, fiscal authorities relating to the current or prior reporting periods, that are unpaid at the reporting date. Current tax is payable on taxable earnings, which differs from net earnings or loss in the consolidated financial statements. The calculation of current income tax is based on tax rates and tax laws that have been enacted or substantively enacted at the end of the reporting period.

Deferred income taxes are calculated using the asset and liability method on temporary differences between the carrying amounts of assets and liabilities and their related tax bases. However, deferred tax is not provided on the initial recognition of goodwill or on the initial recognition of an asset or liability unless the related transaction is a business acquisition or affects tax or accounting profit. The deferred tax assets and liabilities have been measured using substantively enacted tax rates that will be in effect when the amounts are expected to settle. Deferred tax assets are only recognized to the extent that it is probable that they will be able to be utilized against future taxable income. The assessment of the probability of future taxable income in which deferred tax assets can be utilized is based on the Company's latest approved forecast, which is adjusted for significant non-taxable income and expenses and specific limits to the use of any unused tax loss or credit. If a positive forecast of taxable income indicates the probable use of a deferred tax asset, especially when it can be used without a time limit, that deferred tax asset is usually recognized in full. The recognition of deferred tax assets that are subject to certain legal or economic limits or uncertainties are assessed individually by management based on the specific facts and circumstances.

Deferred tax assets and liabilities are offset only when the Company has a right and intention to offset current tax assets and liabilities from the same taxation authority. Changes in deferred tax assets or liabilities are recognized as a component of income or expense in net earnings or loss, except where they relate to items that are recognized in other comprehensive income or loss (such as the unrealized gains and losses on cash flow hedges) or directly in equity.

(g) Assets held for sale

Certain property and equipment have been listed for sale and reclassified as assets held for sale on the consolidated balance sheets. These assets are expected to be sold within a twelve month period. Assets held for sale are valued at the lower of carrying value and fair value less costs to sell.

(h) Investments in associates

Associates are those entities over which the Company is able to exert significant influence but which it does not control and which are not interests in a joint venture. Control is reassessed on an ongoing basis. Investments in associates are initially recognized at cost and subsequently accounted for using the equity method.

Acquired investments in associates are also subject to the acquisition method as explained above. However, any goodwill or fair value adjustment attributable to the Company's share in the associate is included in the amount recognized as investments in associates.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

All subsequent changes to the Company's share of interest in the equity of the associate are recognized in the carrying amount of the investment. Changes resulting from the earnings or losses generated by the associate are reported within share of earnings from investments, at equity on the Company's consolidated statements of earnings or loss. These changes include subsequent depreciation, amortization or impairment of the fair value adjustments of assets and liabilities.

Changes resulting from earnings of the associate or items recognized directly in the associate's equity are recognized in earnings or losses or equity of the Company, as applicable. However, when the Company's share of losses in an associate equals or exceeds its interest in the associate, including any unsecured receivables, the Company does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports earnings, the Company resumes recognizing its share of those earnings only after its share of the earnings exceeds the accumulated share of losses that had previously not been recognized.

Unrealized gains and losses on transactions between the Company and its associates are eliminated to the extent of the Company's interest in those entities. Where unrealized losses are eliminated, the underlying asset is also tested for impairment losses from a Company perspective.

At each reporting period end date, the Company assesses whether there are any indicators of impairment in its investment in associates. For investments in publicly traded entities, carrying value of the investment is compared to the current market value of the investment based on its quoted price at the balance sheet date. For entities which are not publicly traded, value-in-use of the investment is determined by estimating the Company's share of the present value of the estimated cash flows expected to be generated by the investee. If impaired, the carrying value of the Company's investment is written down to its estimated recoverable amount, being the higher of fair value less cost to sell and value-in-use.

In the process of measuring future cash flows, management makes assumptions about future growth of profits. These assumptions relate to future events and circumstances. The actual results may vary and may cause significant adjustments to the Company's investments in associates in the subsequent financial years.

Each of the associates identified by the Company has a reporting year end of December 31. For purposes of the Company's consolidated year end financial statements, each of the associates' results are included based on financial statements prepared as at March 31, with any changes occurring between March 31 and the Company's year end that would materially affect the results being taken into account.

(i) Investments in joint ventures

Investments in joint ventures are joint arrangements whereby the Company and the other parties to the arrangements have joint control and therefore have rights to the net assets of the arrangement. Investments in joint ventures are initially recognized at cost and subsequently accounted for using the equity method.

(j) Financial instruments

Financial instruments are recognized on the consolidated balance sheets when the Company becomes a party to the contractual provisions of a financial instrument. The Company is required to initially recognize all of its financial assets and liabilities, including derivatives and embedded derivatives in certain contracts, at fair value. Loans and receivables, held to maturity financial assets and other financial liabilities are subsequently measured at amortized cost. Derivatives and non-financial derivatives must be recorded at fair value on the consolidated balance sheets unless they are exempt from derivative treatment based upon expected purchase, sale or usage requirements.

The Company classifies financial assets and liabilities according to their characteristics and management's choices and intentions related thereto for the purpose of ongoing measurements. Classification choices for financial assets include: i) FVTPL - measured at fair value with changes in fair value recorded in net earnings or loss; ii) held to maturity - recorded at amortized cost with gains and losses recognized in net earnings or loss in the period that the asset is derecognized or impaired; iii) available for sale - measured at fair value with changes in fair value recognized in other comprehensive income or loss for the current period until realized through disposal or impairment; and iv) loans and receivables - recorded at amortized cost with gains and losses recognized in net earnings or loss in the period that the asset is no longer recognized or impaired. Classification choices for financial liabilities include: i) FVTPL - measured at fair value with changes in fair value recorded in net earnings or loss and ii) other liabilities - measured at amortized cost with gains and losses recognized in net earnings or loss in the period that the liability is derecognized.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

The Company's financial assets and liabilities are generally classified and measured as follows:

| Asset/Liability | Classification | Measurement |
|---|-----------------------|--------------------|
| Cash and cash equivalents | Loans and receivables | Amortized cost |
| Receivables | Loans and receivables | Amortized cost |
| Loans and other receivables | Loans and receivables | Amortized cost |
| Investments | Available for sale | Fair value |
| Derivative financial assets and liabilities | FVTPL | Fair value |
| Non-derivative other assets | FVTPL | Fair value |
| Accounts payable and accrued liabilities | Other liabilities | Amortized cost |
| Long-term debt | Other liabilities | Amortized cost |

All financial assets are reviewed for impairment at each reporting date, except those classified as FVTPL. Loans and receivables are reviewed for past due balances from independent accounts and based on an evaluation of recoverability net of security assigned for franchisee or affiliate locations.

Transaction costs other than those related to financial instruments classified as FVTPL, which are expensed as incurred, are added to or deducted from the fair value of the financial asset or financial liability, as appropriate, on initial recognition and amortized using the effective interest method.

Fair value determination is classified within a three-level hierarchy, based on observability of significant inputs, as follows: Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; or Level 3 - unobservable inputs for the asset or liability. Inputs into the determination of the fair value require management judgment or estimation.

If different levels of inputs are used to measure a financial instrument's fair value, the classification within the hierarchy is based on the lowest level of input that is significant to the fair value measurement. Changes to valuation methods may result in transfers into or out of an investment's assigned level.

A financial asset is derecognized when the contractual rights to the cash flows from the financial asset expire or if the Company transfers the financial asset to another party without retaining control or substantially all the risks and rewards of ownership of the financial asset. A financial liability is derecognized when its contractual obligations are discharged, cancelled or expire.

(k) Hedges

The Company has cash flow hedges which are used to manage exposure to fluctuations in foreign currency exchange and energy prices. For cash flow hedges, the effective portion of the change in fair value of the hedging item is recorded in other comprehensive income or loss. To the extent the change in fair value of the derivative does not completely offset the change in fair value of the hedged item, the ineffective portion of the hedging relationship is recorded in net earnings or loss. Amounts accumulated in other comprehensive income or loss are reclassified to net earnings or loss when the hedged item is recognized in net earnings or loss. When a hedging instrument in a cash flow hedge expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss in accumulated other comprehensive income or loss relating to the hedge is carried forward until the hedged item is recognized in net earnings or loss. When the hedged item ceases to exist as a result of its expiry or sale, or if an anticipated transaction is no longer expected to occur, the cumulative gain or loss in accumulated other comprehensive income or loss is immediately reclassified to net earnings or loss.

Financial derivatives assigned as part of a cash flow hedging relationship are classified as either an other asset or other long-term liability as required based on their fair value determination.

Significant derivatives include the following:

(1) Foreign currency forward contracts and foreign currency swaps for the primary purpose of limiting exposure to exchange rate fluctuations relating to the purchase of goods or expenditures denominated in foreign currencies. Certain of these contracts are designated as hedging instruments for accounting purposes. Accordingly, the effective portion of the change in the fair value of the contracts is accumulated in other comprehensive income or loss until the variability in cash flows being hedged is recognized in earnings or loss in future accounting periods.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

(2) Electricity forward contracts for the primary purpose of limiting exposure to fluctuations in the market prices of electricity. These contracts are designated as hedging instruments for accounting purposes. Accordingly, the effective portion of the change in fair value of the contracts is accumulated in other comprehensive income or loss until the variability in cash flows being hedged is recognized in earnings or loss in future accounting periods.

(l) Property and equipment

Owner-occupied land, buildings, equipment, leasehold improvements, and assets under construction are carried at acquisition cost less accumulated depreciation and impairment losses.

Buildings that are leasehold property are also included in property and equipment if they are classified as a finance lease. Such assets are depreciated over their expected useful lives (determined by reference to comparable owned assets) or over the term of the lease, if shorter.

When significant parts of property and equipment have different useful lives, they are accounted for as separate components. Depreciation is recorded on a straight-line basis from the time the asset is available or when assets under construction become available for use over the estimated useful lives of the assets as follows:

| | |
|------------------------|---------------------------------------|
| Buildings | 10 - 40 years |
| Equipment | 3 - 20 years |
| Leasehold improvements | Lesser of lease term and 7 - 20 years |

Depreciation has been included within selling and administrative expenses in the consolidated statements of earnings (loss). Material residual value estimates and estimates of useful life are reviewed and updated as required, or annually at a minimum.

Gains or losses arising on the disposal of property and equipment are determined as the difference between the disposal proceeds and the carrying amount of the assets and are recognized in net earnings or loss within other income (loss). If the sale is to a Company's investment, at equity, a portion of the gain or loss is deferred and reduces the carrying value of the investment.

(m) Investment property

Investment properties are properties which are held either to earn rental income or for capital appreciation or for both, rather than for the principal purpose of the Company's operating activities. Investment properties are accounted for using the cost model. The depreciation policies for investment property are consistent with those described for property and equipment.

Any gain or loss arising from the sale of an investment property is immediately recognized in net earnings or loss, unless the sale is to an investment, at equity, in which case a portion of the gain or loss is deferred and would reduce the carrying value of the Company's investment. Rental income and operating expenses from investment property are reported within other income (loss) and selling and administrative expenses, respectively, in the consolidated statements of earnings (loss).

(n) Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

(i) The Company as lessor

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

(ii) The Company as lessee

Assets held under finance leases are initially recognized as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated balance sheets as a finance lease obligation in long-term debt.

Lease payments are apportioned between finance charges and reduction of the lease obligation to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized in net earnings or loss immediately. Contingent rentals are recognized as expenses in the periods in which they are incurred.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

Lease allowances and incentives are recognized as other long-term liabilities. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis over the term of the lease.

Real estate lease expense is amortized on a straight-line basis over the entire term of the lease.

(iii) Sale and leaseback transactions

A sale and leaseback transaction involves the sale of an asset and the leasing back of the same asset. If a sale and leaseback transaction results in a finance lease for the Company, any excess of sales proceeds over the carrying amount is recognized as deferred revenue and amortized over the term of the new lease. Any profit or loss in a sale and leaseback transaction resulting in an operating lease that is transacted at fair value is recognized immediately. If the sale price is above fair value, the excess over fair value is deferred and amortized over the term of the new lease.

(o) Intangibles

Intangibles arise on the purchase of a new business, existing franchises, software, and the acquisition of pharmacy prescription files. They are accounted for using the cost model whereby capitalized costs are amortized on a straight-line basis over their estimated useful lives, as these assets are considered finite. Useful lives are reviewed annually and intangibles are subject to impairment testing. The following useful lives are applied:

| | |
|------------------------------|-----------------------------------|
| Deferred purchase agreements | 5 - 10 years |
| Franchise rights/agreements | 10 years |
| Lease rights | 5 - 10 years |
| Off market leases | Lesser of lease term and 40 years |
| Prescription files | 15 years |
| Software | 3 - 7 years |
| Other | 5 - 10 years |

Amortization has been included within selling and administrative expenses in the consolidated statements of earnings (loss). Subsequent expenditures made by the Company relating to intangible assets that do not meet the capitalization criteria are expensed in the period incurred.

Included in intangibles are brand names, loyalty programs, and private labels, the majority of which have indefinite useful lives. Intangibles with indefinite useful lives are measured at cost less any accumulated impairment losses. These intangibles are tested for impairment on an annual basis or more frequently if there are indicators that intangibles may be impaired.

(p) Goodwill

Goodwill represents the excess of the purchase price of the business acquired over the fair value of the underlying net tangible and intangible assets acquired at the date of acquisition.

(q) Impairment of non-financial assets

Goodwill and indefinite life intangibles are reviewed for impairment at least annually by assessing the recoverable amount of each CGU or groups of CGUs to which the goodwill or indefinite life intangible relates. The recoverable amount is the higher of FVLCD and VIU. When the recoverable amount of the CGU(s) is less than the carrying amount, an impairment loss is recognized immediately in net earnings or loss. Impairment losses related to goodwill cannot be reversed.

Long-lived tangible and intangible assets are reviewed each reporting period for impairment when events or changes in circumstances indicate that the carrying value of the assets may not be recoverable. If such an indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). The recoverable amount is the higher of FVLCD and VIU. Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the CGU(s) to which the asset belongs. The Company has determined a CGU to be primarily an individual store. Corporate assets such as head offices and distribution centres do not individually generate separate cash inflows and are therefore aggregated for testing with the stores they service. When the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to the recoverable amount. An impairment loss is recognized immediately in selling and administrative expenses in the consolidated statements of earnings (loss).

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

Where an impairment loss subsequently reverses, other than related to goodwill, the carrying amount of the asset (or CGU) is increased to the revised estimate, but is limited to the carrying amount that would have been determined if no impairment loss had been recognized in prior years. A reversal of impairment loss is recognized immediately in net earnings or loss.

(r) Customer loyalty programs

The AIR MILES[®] loyalty program is used by the Company. AIR MILES[®] are earned by Sobeys customers based on purchases in stores. The Company pays a per point fee under the terms of the agreement with AIR MILES[®].

(s) Provisions

Provisions are recognized when there is a present legal or constructive obligation as a result of a past event, for which it is probable that a transfer of economic benefits will be required to settle the obligation, and where a reliable estimate can be made of the amount of the obligation. Provisions are discounted using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the liability, if material. Where discounting is used, the increase in the provision due to passage of time (“unwinding of the discount”) is recognized within finance costs, net in the consolidated statements of earnings (loss).

(t) Borrowing costs

Borrowing costs are primarily comprised of interest on the Company’s debts. Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as a component of the cost of the asset to which it is related. All other borrowing costs are expensed in the period in which they are incurred and are reported within finance costs.

(u) Deferred revenue

Deferred revenue consists of long-term supplier purchase agreements and gains on sale and leaseback transactions relating to certain finance leases. Deferred revenue is included in other long-term liabilities and is taken into income on a straight-line basis over the term of the related agreements.

(v) Employee benefits

(i) Short-term employment benefits

Short-term employee benefits include wages, salaries, compensated absences, profit-sharing and bonuses expected to be settled within 12 months from the end of the reporting period. Short-term employee benefits are measured on an undiscounted basis and are recorded as selling and administrative expenses as the related service is provided.

(ii) Post-employment benefits

The cost of the Company’s pension benefits for defined contribution plans are expensed at the time active employees are compensated. The cost of defined benefit pension plans and other benefit plans is accrued based on actuarial valuations, which are determined using the projected unit credit method pro-rated on service and management’s best estimate of salary escalation, and retirement ages.

The liability recognized on the consolidated balance sheets for defined benefit plans is the present value of the defined benefit obligation at the reporting date less the fair market value of plan assets. Current market values are used to value benefit plan assets. The obligation related to employee future benefits is measured using current market interest rates, assuming a portfolio of Corporate AA bonds with terms to maturity that, on average, match the terms of the obligation.

Re-measurements, comprising of actuarial gains and losses and the return on plan assets (excluding amounts in net interest), are recognized immediately on the consolidated balance sheets with a corresponding charge to retained earnings through other comprehensive income or loss in the period in which they occur. Re-measurements are not reclassified to net earnings or loss in subsequent periods.

Past service costs are recognized in net earnings or loss on the earlier of the date of the plan amendment or curtailment, and the date that the Company recognizes restructuring-related costs.

Service cost on the net defined benefit liability, comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements, is included in selling and administrative expenses. Net interest expense on the net defined benefit liability is included in finance costs, net.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

(iii) Termination benefits

Termination benefits are recognized as an expense at the earlier of when the Company recognizes related restructuring costs and when the Company can no longer withdraw the offer of those benefits.

(w) Revenue recognition

Sales are recognized at the point-of-sale. Sales include revenues from customers through corporate stores operated by the Company and consolidated SEs, and revenue from sales to non-SE franchised stores, affiliated stores and independent accounts. Revenue received from non-SE franchised stores, affiliated stores and independent accounts is mainly derived from the sale of product. The Company also collects franchise fees under two types of arrangements. Franchise fees contractually due based on the dollar value of product shipped are recorded as revenue when the product is shipped. Franchise fees contractually due based on the franchisee's retail sales are recorded as revenue weekly upon invoicing based on the franchisee's retail sales.

(x) Vendor allowances

The Company receives allowances from certain vendors whose products are purchased for resale. Included in these vendor programs are allowances for volume purchases, exclusivity allowances, listing fees, and other allowances. The Company recognizes these allowances as a reduction of cost of sales and related inventories. Certain allowances are contingent on the Company achieving minimum purchase levels and these allowances are recognized when it is probable that the minimum purchase level will be met, and the amount of allowance can be estimated.

(y) Interest and dividend income

Interest income and expenses are reported on an accrual basis using the effective interest method. Dividend income is recognized when the right to receive payment has been established.

(z) Earnings per share

Basic earnings per share is calculated by dividing the earnings available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share is calculated by adjusting the weighted average number of common shares outstanding for the dilutive effect of employee stock options and performance share units. When a loss is recorded, the weighted average number of shares used for the purpose of basic and diluted loss per share is equal, as the impact of all potential common shares would be anti-dilutive.

(aa) Stock-based compensation

The Company operates both equity and cash settled stock-based compensation plans for certain employees.

All goods and services received in exchange for the grant of any stock-based payments are measured at their fair values. Where employees are rewarded using stock-based payments, the fair values of employees' services are determined indirectly by reference to the fair value of the equity instruments granted (Note 27).

(bb) Changes to accounting policies adopted during fiscal 2017

(i) Presentation of financial statements

In December 2014, the IASB amended IAS 1, "Presentation of Financial Statements", providing clarifying guidance on materiality and aggregation, the presentation of subtotals, the structure of financial statements and the disclosure of accounting policies. The amendments became effective during the first quarter of fiscal 2017 and had no material impact on the Company's consolidated financial statements.

(ii) Income taxes

In November 2016, the IFRS Interpretations Committee (“IFRIC”) issued its agenda decision addressing the expected manner of recovery of an intangible asset with an indefinite useful life for the purposes of measuring deferred tax in accordance with IAS 12, “Income Taxes”. IFRIC noted that an intangible asset with an indefinite useful life does not mean infinite life, nor does it mean the expected manner of recovery of the carrying amount would result solely through sale. Therefore, in applying IAS 12, an entity must determine its expected manner of recovery of the carrying value of the intangible asset with an indefinite life and should reflect the tax consequences that follow from that expected manner of recovery. Previously, Empire measured deferred taxes on temporary differences arising from indefinite life intangible assets using capital gains rates on the basis that the assets will be recovered through its disposition. As a result of the IFRIC agenda decision, the Company has changed its accounting policy to measure deferred taxes at the income tax rate applicable to ordinary taxable income expected to apply in the years in which the temporary differences are expected to be recovered or settled. The Company adopted this change on a retrospective basis as an accounting policy change in accordance with IAS 8, “Accounting Policies, Changes to Accounting Estimates and Errors” and the impact on the consolidated financial statements for the 52 weeks ended May 6, 2017 was an increase to deferred tax liabilities of \$33.6 (2016 - \$33.6), an increase to retained earnings of \$2.9 (2016 - \$2.9), with a corresponding adjustment to goodwill of \$36.5 (2016 - \$36.5).

(cc) Future standards

(i) Statement of cash flows

In January 2016, the IASB issued Disclosure Initiative Amendments to IAS 7, “Statement of Cash Flows”. These amendments require entities to provide additional disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including changes arising from cash and non-cash-flow changes. These amendments are effective for annual periods beginning on or after January 1, 2017. The implementation of these amendments will occur in fiscal 2018 and is not expected to have a significant impact on current disclosures of the Company.

(ii) Financial instruments

In July 2014, the IASB issued IFRS 9, “Financial Instruments”, which replaces IAS 39, “Financial Instruments: Recognition and Measurement”. IFRS 9 provides guidance on the classification and measurement of financial assets and financial liabilities, IFRS 9 further establishes an expected credit loss impairment model where it is no longer necessary for a triggering event to have occurred before credit losses are recognized. IFRS 9 also introduces a new hedge accounting model that aligns with corresponding risk management activities. The standard is effective for annual periods beginning on or after January 1, 2018 and is to be applied retrospectively, with the exception of the hedging component which is applied prospectively. IFRS 9 allows for early adoption, but the Company does not intend to do so at this time.

(iii) Revenue

In May 2014, the IASB issued IFRS 15, “Revenue from Contracts with Customers”. IFRS 15 replaces IAS 18, “Revenue”, IAS 11, “Construction Contracts”, and some revenue related Interpretations. IFRS 15 establishes a new control-based revenue recognition model and provides a comprehensive framework for recognition, measurement and disclosure of revenue from contracts with customers, excluding contracts within the scope of the standards on leases, insurance contracts and financial instruments. The new standard is effective for annual periods beginning on or after January 1, 2018 and is to be applied retrospectively. The standard allows for early adoption, but the Company does not intend to do so at this time.

In April 2016, the IASB published clarifications to IFRS 15 which addresses three topics (identifying performance obligations, principle versus agent considerations and licensing) as well as providing some transition relief for modified and completed contracts. The implementation timelines for these clarifications are consistent with IFRS 15.

(iv) Leases

In January 2016, the IASB issued IFRS 16, “Leases”, which replaces IAS 17, “Leases” and related interpretations. IFRS 16 introduces a balance sheet recognition and measurement model for lessees, eliminating the distinction between operating and finance leases. Lessors will continue to classify leases as operating and finance leases. The standard is effective for annual periods beginning on or after January 1, 2019. IFRS 16 allows for early adoption for companies that apply IFRS 15 “Revenue from Contracts with Customers”, but the Company does not intend to early adopt IFRS 16. For leases where the Company is the lessee it has the option of adopting a full retrospective approach or a modified retrospective approach with various optional practical expedients available.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

The Company expects the adoption of IFRS 16 will have a significant impact on its consolidated financial statements. New assets and liabilities will be recognized for the Company's operating property and equipment leases. Additional changes due to the nature and timing of expenses related to the operating leases will be incurred as the Company will recognize depreciation for right-of-use assets and finance expense on lease liabilities replacing straight-line lease expense. No significant impacts are expected where the Company is a lessor or sublessor.

The Company is currently evaluating the impact of these standards on its consolidated financial statements. The Company will disclose additional information including transition methods and estimated qualitative financial impacts during fiscal 2018.

4. Inventories

The cost of inventories recognized as an expense during the year was \$18,099.0 (2016 - \$18,661.2). The Company recorded \$3.5 (2016 - \$1.2) as an expense for the write-down of inventories below cost to net realizable value for inventories on hand as at May 6, 2017. There were no reversals of inventories written down previously (2016 - \$ nil).

5. Loans and other receivables

| | May 6, 2017 | May 7, 2016 |
|---------------------------------|--------------------|--------------------|
| Loans receivable | \$ 64.8 | \$ 76.6 |
| Notes receivable and other | 42.8 | 43.3 |
| | 107.6 | 119.9 |
| Less amount due within one year | 25.5 | 26.4 |
| | \$ 82.1 | \$ 93.5 |

Loans receivable represent long-term financing to certain retail associates. These loans are primarily secured by inventory, fixtures and equipment; bear various interest rates, and have repayment terms up to 10 years. The carrying amount of the loans receivable approximates fair value based on the variable interest rates charged on the loans.

Included in notes receivable and other as at May 6, 2017, is \$13.2 (2016 - \$14.5) due from a third party related to equipment sales.

Loans receivable from officers and employees of \$ nil (2016 - \$0.5) under the Company's share purchase plan were classified as notes receivable and other. Loan repayments resulted in a corresponding decrease in notes receivable and other. The loans were non-interest bearing and non-recourse. The outstanding loan balance at May 7, 2016 was secured by 20,810 Non-Voting Class A shares. The market value of the shares was \$0.4.

6. Assets held for sale

On June 29, 2016, Sobeys and its wholly-owned subsidiaries closed an agreement with Crombie Real Estate Investment Trust ("Crombie REIT"), an entity in which the Company has a 41.5 percent ownership, to sell and leaseback a portfolio of 19 retail properties and a 50 percent interest in each of its three automated distribution centres, as well as the sale of two parcels of development land which were previously owned by Empire. Assets related to this transaction of \$358.0 were included in assets held for sale as at May 7, 2016 (Note 28).

During fiscal 2017, Sobeys sold 13 properties and leased back four from third parties. Total proceeds from these transactions were \$66.9, resulting in a pre-tax gain of \$4.5 which has been recognized in the consolidated statements of earnings (loss).

During fiscal 2016, Sobeys sold nine properties and leased back six and also sold equipment. All properties, excluding one, and equipment were classified as assets held for sale. Total proceeds from these transactions were \$115.7, resulting in a pre-tax gain of \$23.3 which has been recognized in the consolidated statements of earnings (loss).

As at May 6, 2017, assets held for sale relates to land, buildings and equipment expected to be sold in the next twelve months.

Empire Company Limited
Notes to the Consolidated Financial Statements

7. Investments, at equity

| | May 6, 2017 | May 7, 2016 |
|--|--------------------|--------------------|
| Investment in associates | | |
| Crombie REIT | \$ 459.1 | \$ 366.8 |
| Canadian real estate partnerships | 143.0 | 148.5 |
| U.S. real estate partnerships | 36.8 | 50.2 |
| Investment in joint ventures | | |
| Canadian Digital Cinema Partnership ("CDCP") | 9.5 | 9.4 |
| Total | \$ 648.4 | \$ 574.9 |

The fair values of the investments based on a stock exchange are as follows:

| | May 6, 2017 | May 7, 2016 |
|--------------|--------------------|--------------------|
| Crombie REIT | \$ 883.6 | \$ 786.0 |

The Canadian and U.S. real estate partnerships and CDCP are not publicly listed on a stock exchange and hence published price quotes are not available.

The Company owns 61,008,700 Class B LP units and attached special voting units of Crombie REIT, along with 909,090 REIT units, representing a 41.5% (2016 - 41.5%) economic and voting interest in Crombie REIT.

Crombie REIT has instituted a distribution reinvestment plan ("DRIP") whereby Canadian resident REIT unitholders may elect to have their distributions automatically reinvested in additional REIT units. The Company has enrolled in the DRIP to maintain its economic and voting interest in Crombie REIT.

The Company's carrying value of its investment in Crombie REIT is as follows:

| | May 6, 2017 | May 7, 2016 |
|--|--------------------|--------------------|
| Balance, beginning of year | \$ 366.8 | \$ 365.6 |
| Equity earnings | 41.5 | 38.9 |
| Share of comprehensive income | 0.7 | 1.4 |
| Distributions, net of DRIP | (42.8) | (42.3) |
| Deferral of gains on sale of property | (2.2) | (4.0) |
| Reversal of deferred gain on sale of property to unrelated party | 1.7 | 7.2 |
| Interest acquired in Crombie REIT | 93.4 | - |
| Balance, end of year | \$ 459.1 | \$ 366.8 |

The Company's carrying value of its investment in Canadian real estate partnerships is as follows:

| | May 6, 2017 | May 7, 2016 |
|-----------------------------|--------------------|--------------------|
| Balance, beginning of year | \$ 148.5 | \$ 143.4 |
| Equity earnings | 28.2 | 38.5 |
| Distributions | (33.7) | (35.6) |
| Investment | - | 2.2 |
| Balance, end of year | \$ 143.0 | \$ 148.5 |

Empire Company Limited
Notes to the Consolidated Financial Statements

Finance leases

The Company has various property leases for store locations classified as finance leases with a net carrying value of \$11.3 as at May 6, 2017 (2016 - \$5.0). These leases are included in buildings.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

The Company has equipment leases classified as finance leases with a net carrying value of \$15.8 as at May 6, 2017 (2016 - \$30.8). These leases are included in equipment.

Assets under construction

During the year, the Company capitalized borrowing costs of \$2.2 (2016 - \$1.9) on indebtedness related to property and equipment under construction. The Company used a capitalization rate of 4.8 percent (2016 - 4.2 percent).

Security

As at May 6, 2017, the net carrying value of property pledged as security for borrowings is \$62.2 (2016 - \$67.5).

Impairment of property and equipment

The Company performed the impairment test for property and equipment and determined recoverable amounts based on VIU calculations using cash flow projections from the Company's latest internal forecasts. Key assumptions used in determining VIU include discount rates, growth rates, and expected changes in cash flows. Management estimates discount rates using pre-tax rates that reflect current market assessments of the time value of money and risks specific to the CGUs. Forecasts are projected beyond three years based on long-term growth rates ranging from 3.0 to 5.0 percent. Discount rates are calculated on a pre-tax basis and range from 7.0 to 10.0 percent.

Impairment losses of \$19.0 and reversals of \$0.4 were recorded during the year ended May 6, 2017 (2016 - \$168.4 and \$2.2). During fiscal 2016, an impairment loss of \$148.6 was recorded for property and equipment in the Sobeys West operating segment and was recognized within impairment of goodwill and long-lived assets in the consolidated statements of earnings (loss).

All impairment losses and reversals relate to the food retailing segment.

10. Investment property

Investment property is primarily comprised of commercial properties owned by the Company held for income generating purposes, rather than for the principal purpose of the Company's operating activities.

| | May 6, 2017 | May 7, 2016 |
|---|--------------------|--------------------|
| Cost | | |
| Opening balance | \$ 91.4 | \$ 115.1 |
| Additions | 0.2 | 7.9 |
| Transfers | 29.5 | (26.3) |
| Disposals and write downs | (2.1) | (5.3) |
| Closing balance | \$ 119.0 | \$ 91.4 |
| Accumulated depreciation and impairment losses | | |
| Opening balance | \$ 8.5 | \$ 10.9 |
| Depreciation | 0.7 | 0.6 |
| Impairment expense | 2.3 | - |
| Transfers | 5.0 | (3.2) |
| Disposals and write downs | (0.5) | 0.2 |
| Closing balance | \$ 16.0 | \$ 8.5 |
| Net carrying value | \$ 103.0 | \$ 82.9 |
| Fair value | \$ 145.7 | \$ 114.6 |

The fair value of investment property is classified as Level 3 on the fair value hierarchy. The fair value represents the price that would be received to sell the assets in an orderly transaction between market participants at the measurement date.

An external, independent valuation company, having appropriate recognized professional qualifications and experience assisted in determining the fair value of investment property at May 6, 2017 and May 7, 2016. Additions to investment property through acquisition are transacted at fair value and therefore carrying value equals fair value at the time of acquisition. Properties reclassified from property and equipment are valued for disclosure purposes using comparable market information or the use of an external independent valuation company.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

Rental income from investment property included in the consolidated statements of earnings (loss) amounted to \$3.6 for the year ended May 6, 2017 (2016 - \$4.6).

Direct operating expenses (including repairs and maintenance but excluding depreciation expense) arising from investment property that generated rental income amounted to \$2.3 for the year ended May 6, 2017 (2016 - \$2.3). Direct operating expenses (including repairs and maintenance but excluding depreciation expense) arising from non-income producing investment property amounted to \$1.0 for the year ended May 6, 2017 (2016 - \$1.0). All direct operating expenses for investment properties are included in selling and administrative expenses on the consolidated statements of earnings (loss).

Impairment of investment property follows the same methodology as property and equipment (Note 3(q)). Impairment losses of \$2.3 and reversals of \$ nil were recorded during the year ended May 6, 2017 (2016 - \$ nil and \$ nil).

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

In addition to development costs capitalized related to software, the Company included in selling and administrative expenses \$3.4 of research and development costs (2016 - \$7.5).

Impairment of intangibles follows the same methodology as property and equipment (Note 3(q)). For the year ended May 6, 2017, impairment losses of \$ nil (2016 - \$ nil) and reversals of \$0.4 were recorded (2016 - \$ nil).

Included in other intangibles at May 6, 2017 are liquor licenses of \$7.8 (2016 - \$4.1). These licenses have options to renew and it is the Company's intention to renew these licenses at each renewal date indefinitely. Therefore, there is no limit to which cash inflows will be generated at each store location for which the license is valid, and these assets are considered to have indefinite useful lives. Also included in other intangibles as at May 6, 2017 and May 7, 2016 are the following amounts with indefinite useful lives: Loyalty programs - \$11.4 (2016 - \$11.4) and Private labels - \$59.5 (2016 - \$59.5). The Company has also determined that Brand names with a net carrying value of \$172.8 (2016 - \$172.8) have indefinite useful lives. All intangibles with indefinite useful lives relate to the food retailing segment. Impairment of these intangibles is assessed at least annually on the same basis as goodwill (Note 12).

12. Goodwill

| | May 6, 2017 | May 7, 2016 |
|--------------------------------------|--------------------|--------------------|
| Opening balance | \$ 998.7 | \$ 3,835.7 |
| Additions from business acquisitions | 5.8 | 39.8 |
| Impairments | (0.9) | (2,878.5) |
| Other adjustments | (0.2) | 1.7 |
| Closing balance | \$ 1,003.4 | \$ 998.7 |

Goodwill arising from business acquisitions is allocated at the lowest level within the organization at which it is monitored by management to make business decisions and should not be larger than an operating segment before aggregation. Therefore, goodwill has been allocated to the following five food retailing operating segments:

| | May 6, 2017 | May 7, 2016 |
|----------|--------------------|--------------------|
| Atlantic | \$ 193.8 | \$ 193.8 |
| Lawtons | 17.1 | 17.1 |
| Ontario | 172.6 | 172.2 |
| Quebec | 617.5 | 615.6 |
| West | 2.4 | - |
| Total | \$ 1,003.4 | \$ 998.7 |

Impairment of goodwill

Goodwill arising on business acquisitions is not amortized but is reviewed for impairment on an annual basis, or more frequently, if indicators that goodwill may be impaired exist. The Company's annual review of goodwill was performed during the third quarter of fiscal 2017, and resulted in an impairment of \$0.9 being recorded (2016 - \$2,878.5). In performing the review, the Company determined the recoverable amount of the CGU to which goodwill relates based on FVLCD. The key assumptions used by management to determine the fair value of the CGU includes industry earnings multiples in a range from 7.0 to 12.5 and is classified as Level 2 on the fair value hierarchy.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

During fiscal 2016, management determined there were indicators of impairment in the West business unit as a result of the significant operational challenges the Company has experienced under the Safeway banner, the outcome of the property and equipment impairment test (Note 9), and the overall challenging economic climate mainly in the Alberta and Saskatchewan markets. For its impairment reviews, management determined the recoverable amount of the CGUs based on VIU calculations which require the use of certain key assumptions. VIU was calculated from cash flow projections for five years using financial data from the Company's most up-to-date internal forecasts and budgets that were formally approved by management. Given the risks related to expected variations in the cash flows and the uncertainty the Company is experiencing in the West business unit the present value of the expected future cash flows used in the VIU calculation reflects the weighted average of the most probable outcomes. Cash flows beyond the five-year period are extrapolated using the estimated growth rates for the retail grocery industry in the particular market and the long-term economic growth of the country. Management estimates its pre-tax discount rate based on the current market assessment of the time value of money and the risks specific to the CGU. The pre-tax discount rate used ranged from 12.5 percent to 16.5 percent which is derived from the Company's post-tax weighted average cost of capital. The post-tax discount rate used was 10.0 percent. The Company's operating margins are based on past performance and management's expectations for the future. Growth rates used to estimate future performance are generally consistent with forecasts included in industry reports in the relevant market and is in line with market data. The Company has assumed a 3.0 percent annual growth rate for its operating cash flows. A terminal growth rate of 3.0 percent was used to project cash flow beyond five years, which is consistent with forecasts included in industry reports.

13. Income taxes

Income tax expense (recovery) varies from the amount that would be computed by applying the combined federal and provincial statutory tax rate as a result of the following:

| | May 6, 2017 | May 7, 2016 |
|--|-------------|--------------|
| Earnings (loss) before income taxes | \$ 215.0 | \$ (2,555.9) |
| Effective combined statutory income tax rate | 27.0% | 26.6% |
| Income tax expense (recovery) according to combined statutory income tax rate | 58.1 | (679.9) |
| Income taxes resulting from: | | |
| Non-deductible items | 1.3 | 7.3 |
| Impairments of goodwill and long-lived assets | - | 239.5 |
| Non-taxable items | (4.0) | (3.1) |
| Change in tax rates and rate differential | (1.8) | (3.8) |
| Change in tax legislation | (7.7) | - |
| Other | (3.4) | (1.3) |
| Total income tax expense (recovery), combined effective tax rate of 19.8% (2016 - 17.3%) | \$ 42.5 | \$ (441.3) |

Current year income tax expense (recovery) attributable to net earnings (loss) consists of:

| | May 6, 2017 | May 7, 2016 |
|---|-------------|-------------|
| Current tax expense | \$ 96.3 | \$ 104.2 |
| Deferred tax recovery: | | |
| Origination and reversal of temporary differences | (52.0) | (541.7) |
| Change in tax rates | (1.8) | (3.8) |
| Total | \$ 42.5 | \$ (441.3) |

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

Deferred taxes arising from temporary differences and unused tax losses can be summarized as follows:

| | Recognized in: | | | | |
|---|--------------------|--|--------------------------|-----------------|--------------------|
| | Opening Balance | Other Comprehensive Income and Equity | Business Acquisitions | Net Earnings | Closing Balance |

| Deferred tax assets | \$ 110.9 | \$ (4.3) | \$ - | \$ 539.6 | \$ 646.2 |
| Deferred tax liabilities | \$ (144.5) | \$ (2.8) | \$ (0.3) | \$ 5.9 | \$ (141.7) |

As at May 6, 2017, the Company had approximately \$615.0 of Canadian non-capital tax loss carry forwards, which expire between fiscal 2033 and 2037. The remaining deductible temporary differences do not expire under current income tax legislation. All deferred tax assets (including tax losses and other tax credits) have been recognized in the consolidated balance sheets as it is probable that future taxable income will be available to the company to utilize the benefits of those assets. The amount of deferred tax assets and deferred tax liabilities that are expected to be recovered or settled beyond the next 12 months is \$421.1.

Empire Company Limited
Notes to the Consolidated Financial Statements

| Provisions used | (10.2) | (4.9) | (2.6) | (64.7) | (55.2) | | (137.6) |
| Provisions reversed | (2.3) | (1.9) | (2.9) | (16.0) | (7.5) | | (30.6) |
| Change due to discounting | 1.3 | - | 1.5 | 4.2 | 2.5 | | 9.5 |
| Closing balance | \$ 29.9 | \$ 6.7 | \$ 49.0 | \$ 96.3 | \$ 12.0 | \$ | 193.9 |
| Current | \$ 13.5 | \$ 6.7 | \$ 2.6 | \$ 53.3 | \$ 12.0 | \$ | 88.1 |
| Non-current | 16.4 | - | 46.4 | 43.0 | - | | 105.8 |
| Total | \$ 29.9 | \$ 6.7 | \$ 49.0 | \$ 96.3 | \$ 12.0 | \$ | 193.9 |

Lease contracts

Lease contract provisions are recorded when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the obligations under the contract. The Company records onerous contract provisions for closed store locations where it has entered into a lease contract. The provision is measured at the lower of the expected cost to terminate the lease and the expected net cost of continuing the contract. The net cost is derived by considering both the lease payment and sublease income received. Once the store is closed, a liability is recorded to reflect the present value of the expected liability associated with any lease contract and other contractually obligated costs. Onerous contract provisions for planned store or distribution centre closures as part of the Company's rationalization activities are classified as restructuring provisions and are measured and recorded using the same methodology. Discounting of provisions resulting from lease contracts has been calculated using pre-tax discount rates ranging between 7.0 and 9.0 percent.

Legal costs

Legal provisions relate to claims of \$6.7 that are outstanding as at May 6, 2017 (2016 - \$7.7) that arose in the ordinary course of business.

Environmental costs

In accordance with legal and environmental policy requirements, the Company has recorded provisions for locations requiring environmental restoration. These provisions relate to decommissioning liabilities recorded for gas station locations owned by the Company and other sites where restoration will be incurred at the net present value of the estimated future remediation costs. Discounting of environmental related provisions has been calculated using pre-tax discount rates ranging between 4.0 and 6.0 percent.

Restructuring

Restructuring provisions include onerous leases and severance amounts related to the Company's initiatives to lower operating costs and improve financial performance, which include store network rationalization, distribution centre restructuring and the organizational realignment in the West. Discounting of restructuring related provisions has been calculated using a pre-tax discount rate of 7.0 percent.

Sales price adjustment

The Company disposed of certain manufacturing facilities in fiscal 2015 and as part of the asset purchase agreement, long-term supply agreements were entered into that contain minimum purchase volume requirements. Under the terms of this asset purchase agreement, should actual purchases for the calendar year ending 2016 differ from minimum volume requirements, the sales price is adjusted up or down based on a volume-driven formula. During the year ended May 6, 2017, the Company paid \$55.2 related to these long-term supply agreements where minimum purchase volume requirements for calendar 2016 were not met. Management continues to negotiate final settlement of these amounts. Discounting of the sales price adjustment provision has been calculated using a pre-tax discount rate of 7.0 percent.

15. Long-term debt

| | May 6, 2017 | May 7, 2016 |
|--|-------------------|-------------------|
| First mortgage loans, weighted average interest rate 5.13%, due 2021 - 2033 | \$ 13.3 | \$ 14.8 |
| Medium term notes, Series C, interest rate 7.16%, due February 26, 2018 | 100.0 | 100.0 |
| Medium term notes, Series D, interest rate 6.06%, due October 29, 2035 | 175.0 | 175.0 |
| Medium term notes, Series E, interest rate 5.79%, due October 6, 2036 | 125.0 | 125.0 |
| Medium term notes, Series F, interest rate 6.64%, due June 7, 2040 | 150.0 | 150.0 |
| Sinking fund debenture, weighted average interest rate 11.63%, due 2016 | - | 5.6 |
| Series 2013-1 Notes, interest rate 3.52%, due August 8, 2018 | 500.0 | 500.0 |
| Series 2013-2 Notes, interest rate 4.70%, due August 8, 2023 | 500.0 | 500.0 |
| Senior unsecured notes, floating interest rate tied to bankers' acceptance rate, due July 14, 2016 | - | 300.0 |
| Notes payable and other debt primarily at interest rates fluctuating with the prime rate | 139.0 | 159.6 |
| Credit facilities due November 4, 2020, floating interest rate tied to bankers' acceptance rates | 125.0 | 290.0 |
| | 1,827.3 | 2,320.0 |
| Unamortized transaction costs | (8.5) | (10.7) |
| Finance lease obligations, weighted average interest rate 5.12%, due 2017 - 2040 | 52.0 | 58.1 |
| | 1,870.8 | 2,367.4 |
| Less amount due within one year | 134.0 | 350.4 |
| | \$ 1,736.8 | \$ 2,017.0 |

First mortgage loans are secured by land, buildings, and specific charges on certain assets. Finance lease obligations are secured by the related finance lease asset. Medium term notes and Series 2013-1 and 2013-2 Notes are unsecured.

Sobeys completed a private placement of \$300.0 aggregate principal amount of floating rate senior unsecured notes in fiscal 2015 that matured on July 14, 2016 and were repaid.

On April 22, 2016, the Company extended the term of its \$250.0 credit facility to a maturity date of November 4, 2020. As of May 6, 2017, the outstanding amount of the credit facility was \$125.0 (2016 - \$90.0). Interest payable fluctuates with changes in the bankers' acceptance rate, Canadian prime rate, or the London Interbank Offered Rate ("LIBOR").

Pursuant to an agreement dated April 29, 2016, Sobeys amended and restated its revolving term credit facility ("RT Facility"). The principal amount was increased from \$450.0 to \$650.0 and Sobeys' previous non-revolving, amortizing term credit facility was fully repaid and cancelled. As of May 6, 2017, the outstanding amount of the RT Facility was \$ nil (2016 - \$200.0), and Sobeys issued \$46.3 in letters of credit against the RT Facility (2016 - \$54.5). Interest payable on the RT Facility fluctuates with changes in the bankers' acceptance rate, Canadian prime rate, or LIBOR, and the facility matures on November 4, 2020.

Principal debt retirement in each of the next five fiscal years is as follows:

| | | |
|------------|----|---------|
| 2018 | \$ | 118.2 |
| 2019 | | 512.6 |
| 2020 | | 23.1 |
| 2021 | | 133.4 |
| 2022 | | 6.5 |
| Thereafter | | 1,033.5 |

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

Finance lease liabilities

Finance lease liabilities are payable in each of the next five fiscal years as follows:

| | Future Minimum Lease Payments | Interest | Present Value of Minimum Lease Payments |
|--------------|----------------------------------|----------------|---|
| 2018 | \$ 18.3 | \$ 2.5 | \$ 15.8 |
| 2019 | 9.3 | 2.0 | 7.3 |
| 2020 | 7.8 | 1.6 | 6.2 |
| 2021 | 5.4 | 1.3 | 4.1 |
| 2022 | 3.7 | 1.1 | 2.6 |
| Thereafter | 21.9 | 5.9 | 16.0 |
| Total | \$ 66.4 | \$ 14.4 | \$ 52.0 |

During fiscal 2017 the Company increased its finance lease obligation by \$7.5 (2016 - \$3.7) with a similar increase in assets under finance leases. These additions are non-cash in nature, therefore have been excluded from the statements of cash flows.

16. Other long-term liabilities

| | May 6, 2017 | May 7, 2016 |
|---------------------------|-----------------|-----------------|
| Deferred lease obligation | \$ 127.2 | \$ 97.6 |
| Deferred revenue | 9.1 | 5.5 |
| Other | 5.4 | 5.6 |
| Total | \$ 141.7 | \$ 108.7 |

17. Employee future benefits

The Company has a number of defined contribution, defined benefit, and multi-employer plans providing pension and other post-retirement benefits to most of its employees.

Defined contribution pension plans

The contributions required by the employee and the employer are specified. The employee's pension depends on what level of retirement income (for example, annuity purchase) that can be achieved with the combined total of employee and employer contributions and investment income over the period of plan membership, and the annuity purchase rates at the time of the employee's retirement.

Defined benefit pension plans

The ultimate retirement benefit is defined by a formula that provides a unit of benefit for each year of service. Employee contributions, if required, pay for part of the cost of the benefit, and employer contributions fund the balance. The employer contributions are not specified or defined within the plan text, but are based on the result of actuarial valuations which determine the level of funding required to meet the total obligation as estimated at the time of the valuation.

The defined benefit plan typically exposes the Company to actuarial risks such as interest rate risk, mortality risk and salary risk.

Interest rate risk

The present value of the defined benefit liability is calculated using a discount rate that reflects the average yield, as at the measurement date, on high quality corporate bonds of similar duration to the plans' liabilities. A decrease in the market yield on high quality corporate bonds will increase the Company's defined benefit liability.

Mortality risk

The present value of the defined benefit plan is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salary of the plan participants. As such, an increase in the salary of plan participants will increase the plan's liability.

The Company uses either January 1 or December 31 as an actuarial valuation date and May 1 as a measurement date for accounting purposes, for its defined benefit pension plans.

| | <u>Most Recent Valuation Date</u> | <u>Next Required Valuation Date</u> |
|---------------------------------|-----------------------------------|-------------------------------------|
| Retirement Pension Plans | December 31, 2016 | December 31, 2019 |
| Senior Management Pension Plans | December 31, 2016 | December 31, 2019 |
| Other Benefit Plans | January 1, 2016 | January 1, 2019 |

Multi-employer plans

The Company participates in various multi-employer pension plans which are administered by independent boards of trustees generally consisting of an equal number of union and employer representatives. Approximately 17 percent of employees in the Company and of its franchisees and affiliates participate in these plans. Defined benefit multi-employer pension plans are accounted for as defined contribution plans as adequate information to account for the Company's participation in the plans is not available due to the size and number of contributing employers in the plans. The Company's responsibility to make contributions to these plans is limited by amounts established pursuant to its collective agreements. The contributions made by the Company to multi-employer plans are expensed as contributions are due.

During the year ended May 6, 2017, the Company recognized an expense of \$45.1 (2016 - \$44.4) in operating income (loss), which represents the contributions made in connection with multi-employer pension plans. During fiscal 2018, the Company expects to continue to make contributions into these multi-employer pension plans.

Other benefit plans

The Company also offers certain employee post-retirement and post-employment benefit plans which are not funded and include health care, life insurance, and dental benefits.

Defined contribution plans

The total expense, and cash contributions, for the Company's defined contribution plans was \$32.1 for the year ended May 6, 2017 (2016 - \$30.3).

Defined benefit plans

Information about the Company's defined benefit plans, in aggregate, is as follows:

| | <u>Pension Benefit Plans</u> | | <u>Other Benefit Plans</u> | |
|--|------------------------------|--------------------|----------------------------|--------------------|
| | <u>May 6, 2017</u> | <u>May 7, 2016</u> | <u>May 6, 2017</u> | <u>May 7, 2016</u> |
| Defined benefit obligation | | | | |
| Balance, beginning of year | \$ 871.2 | \$ 904.8 | \$ 152.6 | \$ 180.7 |
| Current service cost, net of employee contributions | 2.3 | 4.4 | 3.2 | 3.8 |
| Interest cost | 29.4 | 30.7 | 5.2 | 6.4 |
| Benefits paid | (57.7) | (59.7) | (5.2) | (6.8) |
| Past service costs - curtailments | 1.5 | (9.1) | - | (1.3) |
| Settlements | 1.0 | (2.2) | - | - |
| Termination benefits | 2.8 | - | - | - |
| Remeasurement - actuarial losses (gains) included in other comprehensive (loss) income | 39.8 | 2.3 | 8.5 | (30.2) |
| Balance, end of year | \$ 890.3 | \$ 871.2 | \$ 164.3 | \$ 152.6 |

| Actuarial (gain) loss - experience changes | (1.2) | 0.8 | (0.1) | (34.6) |
| Actuarial loss - demographic assumptions | 2.4 | - | - | - |
| Actuarial loss - financial assumptions | 38.6 | 1.5 | 8.6 | 4.4 |
| Remeasurement effects recognized in other comprehensive (loss) income | \$ (20.2) | \$ (20.1) | \$ (8.5) | \$ 30.2 |

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

The significant actuarial assumptions adopted in measuring the Company's accrued benefit obligations are as follows (weighted-average assumptions as of May 6, 2017):

| | Pension Benefit Plans | | Other Benefit Plans | |
|-------------------------------|------------------------------|--------------------|----------------------------|--------------------|
| | May 6, 2017 | May 7, 2016 | May 6, 2017 | May 7, 2016 |
| Discount rate | 3.25% | 3.50% | 3.25% | 3.50% |
| Rate of compensation increase | 3.50% | 3.50% | | |

For measurement purposes, a 5.75 percent fiscal 2017 annual rate of increase in the per capita cost of covered health care benefits was assumed (2016 - 6.00 percent). The cumulative rate expectation to 2020 and thereafter is 5.00 percent.

These assumptions were developed by management under consideration of expert advice provided by independent actuarial appraisers. These assumptions have led to the amounts determined as the Company's defined benefit obligations and should be regarded as management's best estimate. However, the actual outcome may vary. Estimation uncertainties exist especially in regard to medical cost trends, which may vary significantly in future appraisals of the Company's defined benefit and other benefit obligations.

The table below outlines the sensitivity of the fiscal 2017 key economic assumptions used in measuring the accrued benefit plan obligations and related expenses of the Company's pension and other benefit plans. The sensitivity of each key assumption has been calculated independently. Changes to more than one assumption simultaneously may amplify or reduce impact on the accrued benefit obligations or benefit plan expenses.

| | Pension Benefit Plans | | Other Benefit Plans | |
|---|------------------------------|-----------------------------------|----------------------------|-----------------------------------|
| | Benefit Obligations | Benefit Cost⁽¹⁾ | Benefit Obligations | Benefit Cost⁽¹⁾ |
| Discount rate ⁽²⁾ | 3.25% | 3.25% | 3.25% | 3.25% |
| Impact of: 1% increase | \$ (111.4) | \$ (3.5) | \$ (20.6) | \$ 0.2 |
| Impact of: 1% decrease | \$ 139.8 | \$ 2.1 | \$ 25.5 | \$ (0.4) |
| Growth rate of health care costs ⁽³⁾ | | | 5.75% | 5.75% |
| Impact of: 1% increase | | | \$ 19.2 | \$ 1.2 |
| Impact of: 1% decrease | | | \$ (15.9) | \$ (1.0) |

⁽¹⁾ Reflects the impact on the current service cost, interest cost, and net interest on defined benefit liability (asset).

⁽²⁾ Based on weighted average of discount rates related to all plans.

⁽³⁾ Gradually decreasing to 5.00 percent in 2020 and remaining at that level thereafter.

The asset mix of the defined benefit pension plans as at year end is as follows:

| | May 6, 2017 | May 7, 2016 |
|-----------------------|--------------------|--------------------|
| Canadian equity funds | 8.8% | 10.3% |
| Foreign equity funds | 11.7% | 8.6% |
| Fixed income funds | 79.2% | 80.9% |
| Net working capital | 0.3% | 0.2% |
| Total investments | 100.0% | 100.0% |

Within these securities are investments in Empire Non-Voting Class A shares. The pro-rata market value of these shares at year end is as follows:

| | May 6, 2017 | % of Plan Assets | May 7, 2016 | % of Plan Assets |
|--|--------------------|-------------------------|--------------------|-------------------------|
| Empire Company Limited Non-Voting Class A shares | \$ 8.9 | 1.3% | \$ 10.8 | 1.6% |

All of the securities are valued based on quoted prices (unadjusted) in active markets for identical assets or liabilities or based on inputs other than quoted prices in active markets that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

The actual return on plan assets was \$41.5 for the year ended May 6, 2017 (2016 - \$5.2).

Management's best estimate of contributions expected to be paid to the defined benefit pension plans during the annual period beginning on May 7, 2017 and ending on May 5, 2018 is \$23.3.

18. Capital stock

| Authorized | Number of Shares | |
|---|-------------------------|--------------------|
| | May 6, 2017 | May 7, 2016 |
| 2002 Preferred shares, par value of \$25 each, issuable in series | 991,980,000 | 991,980,000 |
| Non-Voting Class A shares, without par value | 768,105,849 | 768,105,849 |
| Class B common shares, without par value, voting | 122,400,000 | 122,400,000 |

| Issued and outstanding | Number of Shares | May 6, 2017 | May 7, 2016 |
|-------------------------------|-------------------------|--------------------|--------------------|
| Non-Voting Class A | 173,537,901 | \$ 2,037.8 | \$ 2,037.8 |
| Class B common | 98,138,079 | 7.3 | 7.3 |
| Shares held in trust | (555,409) | (10.7) | - |
| Total | | \$ 2,034.4 | \$ 2,045.1 |

Under certain circumstances, where an offer (as defined in the share conditions) is made to purchase Class B common shares, the holders of the Non-Voting Class A shares shall be entitled to receive a follow-up offer at the highest price per share paid, pursuant to such offer to purchase Class B common shares.

During fiscal 2017, the Company paid common dividends of \$111.3 (2016 - \$109.4) to its equity holders. This represents a payment of \$0.41 per share (2016 - \$0.40 per share) for common share holders.

During the second quarter of fiscal 2017, the Company established a trust fund to facilitate the purchase of Non-Voting Class A shares for the future settlement of vested units under the Company's equity settled stock-based compensation plans. Contributions to the trust fund and the Non-Voting Class A shares purchased are held by CST Trust Company as trustee. The trust fund is an SE and as such the accounts of the trust fund are included in the consolidated financial statements of the Company. During fiscal 2017, the trust fund purchased 555,409 Non-Voting Class A shares for \$10.7. These Non-Voting Class A shares have been recorded as a reduction to both capital stock and the weighted average number of common shares outstanding.

Share split

On September 28, 2015, the Company effected a three-for-one share split by delivering two additional shares for each share held by Non-Voting Class A and Class B shareholders of record as of the close of business on September 21, 2015. Non-Voting Class A shares commenced trading on a split basis as of September 29, 2015. All number of share and per share amounts have been restated in these consolidated financial statements to reflect the share split.

Normal course issuer bid

On March 12, 2015, the Company filed a notice of intent with the Toronto Stock Exchange ("TSX") to purchase for cancellation up to 1,788,584 Non-Voting Class A shares, or 5,365,752 Non-Voting Class A shares post-share split, representing approximately three percent of those outstanding. Purchases commenced on March 17, 2015, and terminated by March 16, 2016. During the second quarter of fiscal 2016, the Company purchased for cancellation 5,365,752 Non-Voting Class A shares which fulfilled the normal course issuer bid. The purchase price was \$148.1 of which \$64.8 of the purchase price was accounted for as a reduction to share capital and the remainder as a reduction to retained earnings.

On March 14, 2016, the Company filed a notice of intent with the TSX to purchase for cancellation up to 5,206,137 Non-Voting Class A shares, representing approximately three percent of those outstanding. Purchases were to commence on March 17, 2016, and terminate on March 16, 2017. Empire did not repurchase any Non-Voting Class A shares since the date of notice.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

19. Other income (loss)

| | May 6, 2017 | May 7, 2016 |
|---------------------------------------|----------------|------------------|
| Net gain (loss) on disposal of assets | \$ 23.0 | \$ (39.6) |
| Lease revenue from owned property | 26.9 | 31.7 |
| Dilution losses | (1.7) | (3.0) |
| Total | \$ 48.2 | \$ (10.9) |

During fiscal 2016 management recognized a loss on sale of \$70.9 related to disposed assets based on the sales price adjustment under the terms of the asset purchase agreement (Note 14).

20. Employee benefits expense

| | May 6, 2017 | May 7, 2016 |
|--|-------------------|-------------------|
| Wages, salaries and other short-term employment benefits | \$ 3,078.3 | \$ 3,058.0 |
| Post-employment benefits | 44.2 | 29.8 |
| Termination benefits | 14.9 | 3.6 |
| Total | \$ 3,137.4 | \$ 3,091.4 |

21. Finance costs, net

| | May 6, 2017 | May 7, 2016 |
|--|-----------------|-----------------|
| Finance income | | |
| Interest income from cash and cash equivalents | \$ 0.4 | \$ 1.4 |
| Fair value gains (losses) on forward contracts | 3.3 | (0.2) |
| Investment income | 1.2 | 1.2 |
| Accretion income on loans and other receivables | 1.2 | 0.7 |
| Total finance income | 6.1 | 3.1 |
| Finance costs | | |
| Interest expense on financial liabilities measured at amortized cost | 103.1 | 113.8 |
| Losses on cash flow hedges reclassified from other comprehensive (loss) income | - | 0.2 |
| Net pension finance costs | 11.5 | 12.4 |
| Accretion expense on provisions | 9.5 | 14.1 |
| Total finance costs | 124.1 | 140.5 |
| Finance costs, net | \$ 118.0 | \$ 137.4 |

22. Earnings per share

| | May 6, 2017 | May 7, 2016 |
|--|--------------------|--------------------|
| Weighted average number of shares - basic (Note 18) | 271,948,133 | 273,851,466 |
| Shares deemed to be issued for no consideration in respect of stock-based payments | 3,374 | 195,738 |
| Weighted average number of shares - diluted | 271,951,507 | 274,047,204 |

Due to the Company's reported net loss for the 53 weeks ended May 7, 2016, an equal weighted average number of shares was used for the purpose of basic and diluted loss per share, as the impact of all potential common shares would have been anti-dilutive.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

23. Business acquisitions

The Company acquires franchise and non-franchise stores, retail gas locations and prescription files. The results of these acquisitions have been included in the consolidated financial results of the Company since their acquisition dates, and were accounted for through the use of the acquisition method. Goodwill recorded on the acquisitions of franchise and non-franchise stores and retail gas locations relate to the acquired work force and customer base of the existing store location, along with the synergies expected from combining the efforts of the acquired stores with existing stores.

The following table represents the amounts of identifiable assets and liabilities from resulting acquisitions for the year ended May 6, 2017 and May 7, 2016:

| | May 6, 2017 | May 7, 2016 |
|--|-------------|-------------|
| Stores and retail gas locations | | |
| Receivables | \$ - | \$ 12.0 |
| Inventories | 7.0 | 17.5 |
| Property and equipment | 5.6 | 20.2 |
| Intangibles | 3.0 | 7.0 |
| Goodwill | 5.8 | 39.8 |
| Provisions | - | (0.5) |
| Other liabilities | - | (5.3) |
| | 21.4 | 90.7 |
| Prescription files | | |
| Intangibles | 0.5 | - |
| Cash consideration | \$ 21.9 | \$ 90.7 |

From the date of acquisition, the businesses acquired contributed sales of \$104.3 and net earnings of \$ nil for the year ended May 6, 2017.

Co-op Atlantic acquisition

On May 12, 2015 an agreement to purchase certain assets and assume select liabilities of Co-op Atlantic's food and fuel business for \$24.5 plus standard working capital adjustments and holdbacks was approved by Co-op Atlantic's member-owners. The agreement provides for the purchase of five full service grocery stores, five fuel stations (two co-located with grocery stores), other real estate assets, and other assets and select liabilities. On June 12, 2015, regulatory clearance was obtained from the Competition Bureau and the transaction closed effective June 21, 2015.

During fiscal 2016, management finalized the purchase price allocation related to the Co-op Atlantic acquisition. As a result, the consolidated balance sheet as at May 6, 2017 includes the following fair value of the identifiable assets acquired and liabilities assumed:

| | | |
|--|-----------|-------------|
| Receivables | \$ | 11.8 |
| Inventories | | 9.4 |
| Property and equipment | | 7.8 |
| Intangibles | | 0.9 |
| Provisions | | (0.5) |
| Other liabilities | | (4.8) |
| Total identifiable net assets | \$ | 24.6 |
| Excess consideration paid over identifiable net assets acquired allocated to goodwill | \$ | 16.8 |

The goodwill recognized is attributable mainly to the expected synergies from integration and the expected future growth potential in wholesale operations. Goodwill of \$12.6 is deductible for income tax purposes.

If the acquisition had occurred on May 3, 2015, management estimates that pro forma consolidated sales would have been \$24,637.2 and pro forma consolidated net loss would have been \$(2,113.5) for the 53 weeks ended May 7, 2016. In determining these amounts, management has assumed that the fair value adjustments that arose on the date of acquisition would have been the same if the acquisitions had occurred on May 3, 2015.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

Acquisition costs of \$0.6 relating to external legal and other costs were incurred during the 53 weeks ended May 7, 2016 and have been included in selling and administrative expenses in the consolidated statements of earnings (loss).

24. Guarantees, commitments and contingent liabilities

Guarantees

Franchisees and affiliates

Sobeys is party to a number of franchise and operating agreements as part of its business model. These agreements contain clauses which require the Company to provide support to franchisee and affiliate operators to offset or mitigate retail store losses, reduce store rental payments, minimize the impact of promotional pricing, and assist in covering other store related operating expenses. Not all of the financial support noted above will apply in each instance as the provisions of the agreements vary. The Company will continue to provide financial support pursuant to the franchise and operating agreements in future years.

Sobeys had a guarantee contract under the terms of which, should certain franchisees and affiliates be unable to fulfill their lease obligations, Sobeys would be required to fund the greater of \$7.0 or 9.9 percent (2016 - \$7.0 or 9.9 percent) of the authorized and outstanding obligation. During the year ended May 6, 2017, the guarantee contract expired.

Sobeys had guaranteed certain equipment leases of its franchisees and affiliates. Under the terms of the guarantee should franchisees and affiliates be unable to fulfill their equipment lease obligations, Sobeys would be required to fund the difference of the lease commitments up to a maximum of \$145.0 on a cumulative basis. During the year ended May 6, 2017, the guarantee contract expired.

During fiscal 2009, Sobeys entered into an additional credit enhancement contract in the form of a standby letter of credit for certain franchisees and affiliates for the purchase and installation of equipment. Under the terms of the contract, should franchisees and affiliates be unable to fulfill their lease obligations or provide an acceptable remedy, Sobeys would be required to fund the greater of \$6.0 or 10.0 percent (2016 - \$6.0 or 10.0 percent) of the authorized and outstanding obligation annually. Under the terms of the contract, Sobeys is required to provide a letter of credit in the amount of the outstanding guarantee, to be revisited each calendar year. This credit enhancement allows Sobeys to provide favourable financing terms to certain franchisees and affiliates. The contract terms have been reviewed and Sobeys determined that there were no material implications with respect to the consolidation of SEs. As at May 6, 2017, the amount of the guarantee was \$6.0 (2016 - \$6.0).

Other

At May 6, 2017, the Company was contingently liable for letters of credit issued in the aggregate amount of \$62.2 (2016 - \$66.6).

Sobeys, through its subsidiaries, has guaranteed the payment of obligations under certain commercial development agreements. As at May 6, 2017, Sobeys has guaranteed \$43.5 (2016 - \$43.5) in obligations related to these agreements.

Upon entering into the lease of its Mississauga distribution centre, in March 2000, Sobeys guaranteed to the landlord the performance, by SERCA Foodservice Inc., of all its obligations under the lease. The remaining term of the lease is three years with an aggregate obligation of \$10.4 (2016 - \$13.4). At the time of the sale of assets of SERCA Foodservice Inc. to Sysco Corp., the lease of the Mississauga distribution centre was assigned to and assumed by the purchaser, and Sysco Corp. agreed to indemnify and hold Sobeys harmless from any liability it may incur pursuant to its guarantee.

Commitments

Operating leases, as lessee

The Company leases various retail stores, distribution centres, offices, and equipment under non-cancellable operating leases. These leases have varying terms, escalation clauses, renewal options, and bases on which contingent rent is payable.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

The total net, future minimum rent payable under the Company's operating leases as of May 6, 2017 is approximately \$4,450.1. This reflects a gross lease obligation of \$5,330.5 reduced by expected sub-lease income of \$880.4. The net commitments over the next five fiscal years are:

| | Third Parties | | Related Parties | |
|------------|----------------------|------------------------|----------------------|------------------------|
| | Net Lease Obligation | Gross Lease Obligation | Net Lease Obligation | Gross Lease Obligation |
| 2018 | \$ 257.7 | \$ 359.6 | \$ 148.0 | \$ 148.0 |
| 2019 | 240.6 | 332.6 | 143.7 | 143.7 |
| 2020 | 222.5 | 308.1 | 142.5 | 142.5 |
| 2021 | 200.9 | 280.2 | 142.9 | 142.9 |
| 2022 | 176.7 | 248.7 | 142.7 | 142.7 |
| Thereafter | 986.3 | 1,435.9 | 1,645.6 | 1,645.6 |

The Company recorded \$566.1 (2016 - \$542.3) as an expense for minimum lease payments for the year ended May 6, 2017 in the consolidated statements of earnings (loss). The expense was offset by sub-lease income of \$104.9 (2016 - \$115.8), and a further \$13.1 (2016 - \$12.3) of expense was recognized for contingent rent.

Operating leases, as lessor

The Company also leases most investment properties under operating leases. These leases have varying terms, escalation clauses, renewal options and bases on which contingent rent is receivable.

Rental income for the year ended May 6, 2017 was \$26.2 (2016 - \$31.4) and was recognized within other income (loss) in the consolidated statements of earnings (loss). In addition, the Company recognized \$0.3 of contingent rent for the year ended May 6, 2017 (2016 - \$0.3).

The lease payments expected to be received over the next five fiscal years are:

| | Third Parties |
|------------|---------------|
| 2018 | \$ 20.6 |
| 2019 | 19.3 |
| 2020 | 17.2 |
| 2021 | 15.3 |
| 2022 | 14.1 |
| Thereafter | 95.6 |

Contingent liabilities

On June 21, 2005, Sobeys received a notice of reassessment from Canada Revenue Agency ("CRA") for fiscal years 1999 and 2000 related to Lumsden Brothers Limited, a wholesale subsidiary of Sobeys, and the Goods and Service Tax ("GST"). The reassessment related to GST on sales of tobacco products to status Indians. CRA asserts that Sobeys was obliged to collect GST on sales of tobacco products to status Indians. The total tax, interest and penalties in the reassessment was \$13.6 (2016 - \$13.6). Sobeys has reviewed this matter, has received legal advice, and believes it was not required to collect GST. During the second quarter of fiscal 2006, Sobeys filed a Notice of Objection with CRA. The matter is still under dispute and Sobeys has filed a Notice of Appeal with the Tax Court of Canada. Accordingly, Sobeys has not recorded in its statements of earnings (loss) any of the tax, interest or penalties in the notice of reassessment. Sobeys has deposited with CRA funds to cover the total tax, interest and penalties in the reassessment and has recorded this amount as an other long-term receivable from CRA pending resolution of the matter.

There are various claims and litigation, with which the Company is involved, arising out of the ordinary course of business operations. The Company's management does not consider the exposure to such litigation to be material, although this cannot be predicted with certainty.

In the ordinary course of business, the Company is subject to ongoing audits by tax authorities. While the Company believes that its tax filing positions are appropriate and supportable, from time to time certain matters are reviewed and challenged by the tax authorities.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

25. Financial instruments

Credit risk

Credit risk is the risk of an unexpected loss if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company's financial instruments that are exposed to concentrations of credit risk are primarily cash and cash equivalents, receivables, loans and other receivables, derivative contracts and guarantees.

The Company's maximum exposure to credit risk corresponds to the carrying amount for all cash and cash equivalents, loans and receivables, and guarantee contracts for franchisees and affiliates (Note 24).

The Company mitigates credit risk associated with its trade receivables, and loans receivables through established credit approvals, limits and a regular monitoring process. The Company generally considers the credit quality of its financial assets that are neither past due or impaired to be solid. The Company regularly monitors collection performance and pledged security for all of its receivables and loans and other receivables to ensure adequate payments are being received and adequate security is available. Pledged security can vary by agreement, but generally includes inventory, fixed assets including land and/or building, as well as personal guarantees. Credit risk is further mitigated due to the large number of customers and their dispersion across geographic areas. The Company only enters into derivative contracts with counterparties that are dual rated by recognized credit rating agencies and have a credit rating of "A" or better to minimize credit risk.

Receivables are substantially comprised of balances due from independent accounts, franchisee or affiliate locations as well as rebates and allowances from vendors. The due date of these amounts can vary by agreement but in general balances over 30 days are considered past due. The aging of the receivables is as follows:

| | May 6, 2017 | May 7, 2016 |
|--|--------------------|--------------------|
| 0 - 30 days | \$ 342.7 | \$ 410.7 |
| 31 - 90 days | 23.3 | 31.5 |
| Greater than 90 days | 75.2 | 73.1 |
| Total receivables before allowance for credit losses | 441.2 | 515.3 |
| Less: allowance for credit losses | (27.6) | (25.9) |
| Receivables | \$ 413.6 | \$ 489.4 |

Interest earned on past due accounts is recorded as a reduction to selling and administrative expenses in the consolidated statements of earnings (loss). Receivables are classified as current on the consolidated balance sheet as of May 6, 2017.

Allowance for credit losses is reviewed at each balance sheet date. An allowance is taken on receivables from independent accounts, as well as receivables, loans and other receivables from franchisee or affiliate locations and is recorded as a reduction to its respective receivable account on the consolidated balance sheets. The Company updates its estimate for credit losses based on past due balances from independent accounts and based on an evaluation of recoverability net of security assigned for franchisee or affiliate locations. Current and long-term receivables, loans and other receivables are reviewed on a regular basis and are written-off when collection is considered unlikely. The change in allowance for credit losses is recorded as selling and administrative expenses in the consolidated statements of earnings (loss) and is presented as follows:

| | May 6, 2017 | May 7, 2016 |
|------------------------------|--------------------|--------------------|
| Allowance, beginning of year | \$ 25.9 | \$ 21.8 |
| Provision for losses | 5.4 | 9.9 |
| Recoveries | (0.4) | (0.8) |
| Write-offs | (3.3) | (5.0) |
| Allowance, end of year | \$ 27.6 | \$ 25.9 |

Liquidity risk

Liquidity risk is the risk that the Company may not have cash available to satisfy financial liabilities as they come due. The Company actively maintains a committed credit facility to ensure that it has sufficient available funds to meet current and foreseeable future financial requirements at a reasonable cost.

The Company monitors capital markets and the related conditions, and monitors its cash flows in order to assist in optimizing its cash position and evaluate longer term cash and funding requirements. Market conditions allowing, the Company will access debt capital markets for various long-term debt maturities and as other liabilities come due or as assessed to be appropriate in order to minimize risk and optimize pricing.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

The following table summarizes the amount and the contractual maturities of both the interest and principal portion of significant financial liabilities on an undiscounted basis as at May 6, 2017:

| | 2018 | 2019 | 2020 | 2021 | 2022 | Thereafter | Total |
|--|-------------------|-----------------|-----------------|-----------------|----------------|-------------------|-------------------|
| Derivative financial liabilities | | | | | | | |
| Foreign currency swaps | \$ 2.4 | \$ 2.4 | \$ 12.9 | \$ - | \$ - | \$ - | 17.7 |
| Non-derivative financial liabilities | | | | | | | |
| Accounts payable and accrued liabilities | 2,230.2 | - | - | - | - | - | 2,230.2 |
| Long-term debt | 219.7 | 585.9 | 89.5 | 195.0 | 64.7 | 1,476.6 | 2,631.4 |
| Total | \$ 2,452.3 | \$ 588.3 | \$ 102.4 | \$ 195.0 | \$ 64.7 | \$ 1,476.6 | \$ 4,879.3 |

Fair value of financial instruments

The fair value of a financial instrument is the estimated amount that the Company would receive to sell financial assets or pay to transfer financial liabilities in an orderly transaction between market participants at the measurement date.

The book value of cash and cash equivalents, receivables, current portion of loans and other receivables, and accounts payable and accrued liabilities approximate fair values at the balance sheet dates due to the short term maturity of these instruments.

The book value of the long-term portion of loans and other receivables, and investments approximate fair values at the balance sheet dates due to the current market rates associated with these instruments.

The fair value of the variable rate long-term debt is assumed to approximate its carrying amount based on current market rates and consistency of credit spread. The fair value of long-term debt has been estimated by discounting future cash flows at a rate offered for borrowings of similar maturities and credit quality.

The fair value of derivative financial assets and liabilities, classified as Level 2, is estimated using valuation models that utilize market based observable inputs. Management believes that its valuation technique is appropriate.

There were no transfers between classes of the fair value hierarchy during the year ended May 6, 2017.

The carrying amount of the Company's financial instruments approximates their fair values with the following exception:

| Long-term debt | May 6, 2017 | May 7, 2016 |
|-----------------------|--------------------|--------------------|
| Total carrying amount | \$ 1,870.8 | \$ 2,367.4 |
| Total fair value | \$ 1,893.0 | \$ 2,489.4 |

As at May 6, 2017, the fair value hierarchy includes financial assets at fair value through profit or loss of \$ nil, \$1.1, and \$ nil for Levels 1, 2 and 3 respectively (2016 - \$ nil, \$2.1, and \$ nil).

As at May 6, 2017, the fair value hierarchy includes financial assets at available for sale of \$25.1 in Level 1 (2016 - \$24.7).

As at May 6, 2017, the fair value hierarchy includes financial liabilities at fair value through profit or loss of \$ nil, \$0.9, and \$ nil for Levels 1, 2 and 3 respectively (2016 - \$ nil, \$0.9, and \$ nil).

Derivative financial instruments

Derivative financial instruments are recorded on the consolidated balance sheets at fair value unless the derivative instrument is a contract to buy or sell a non-financial item in accordance with the Company's expected purchase, sale or usage requirements, referred to as a "normal purchase" or "normal sale". Changes in the fair values of derivative financial instruments are recognized in net earnings or loss unless it qualifies and is designated as an effective cash flow hedge or a normal purchase or normal sale. Normal purchases and normal sales are exempt from the application of the standard and are accounted for as executory contracts. Changes in fair value of a derivative financial instrument designated as a cash flow hedge are recorded in other assets and other long-term liabilities with the effective portion recorded in other comprehensive income or loss.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

Cash flow hedges

The Company's cash flow hedges consist principally of foreign currency swaps and electricity sales agreements. Foreign exchange contracts are used to hedge future purchases or expenditures of foreign currency denominated goods or services. Electricity sales agreements are used to mitigate the risk of changes in market prices of electricity. Gains and losses are initially recognized directly in other comprehensive income or loss and are transferred to net earnings or loss when the forecast cash flows affect income or expense for the year.

As of May 6, 2017, the fair values of the outstanding derivatives designated as cash flow hedges of forecast transactions were assets of \$1.1 (2016 - \$2.1) and liabilities of \$0.9 (2016 - \$0.9).

Cash flows from cash flow hedges are expected to flow over the next three years until fiscal 2020, and are expected to be recognized in net earnings or loss over this period, and, in the case of foreign currency swaps, over the life of the related debt in which a portion of the initial cost is being hedged.

Interest rate risk

Interest rate risk is the potential for financial loss arising from changes in interest rates. Financial instruments that potentially subject the Company to interest rate risk include financial liabilities with floating interest rates.

The Company manages interest rate risk by monitoring market conditions and the impact of interest rate fluctuations on its debt. The majority of the Company's long-term debt is at fixed interest rates. Approximately 23.1 percent (2016 - 29.5 percent) of the Company's long-term debt is exposed to interest rate risk due to floating rates.

Net earnings or loss is sensitive to the impact of a change in interest rates on the average balance of interest bearing financial liabilities during the year. For the year ending May 6, 2017, the Company's average outstanding unhedged floating rate debt was \$493.1 (2016 - \$689.1). An increase (decrease) of 25 basis points would have impacted net earnings (loss) by \$0.9 (\$0.9) (2016 - \$1.2 (\$1.2)) as a result of the Company's exposure to interest rate fluctuations on its unhedged floating rate debt.

Foreign currency exchange risk

The Company conducts the vast majority of its business in Canadian dollars. The Company's foreign currency exchange risk principally relates to purchases made in U.S. dollars. In addition, the Company also uses forward contracts to fix the exchange rate on some of its expected requirements for foreign currencies. Amounts received or paid related to instruments used to hedge foreign exchange, including any gains and losses, are recognized in the cost of purchases. The Company does not consider its exposure to foreign currency exchange risk to be material.

The Company has entered into foreign currency forward contracts and foreign currency swaps for the primary purpose of limiting exposure to exchange rate fluctuations relating to expenditures denominated in foreign currencies. These contracts are designated as hedging instruments for accounting purposes. Accordingly, the effective portion of the change in the fair value of the forward contracts are accumulated in other comprehensive income or loss until the variability in cash flows being hedged is recognized in net earnings or loss in future accounting periods.

The Company estimates that a 10 percent increase (decrease) in applicable foreign currency exchange rates would impact net earnings (loss) by \$ nil (\$ nil) (2016 - \$ nil (\$ nil)) and other comprehensive (loss) income by \$1.3 (\$1.3) (2016 - \$6.0 (\$6.0)) for foreign currency derivatives in place at year end.

During the year ended May 7, 2016, Sobeys entered into seven Euro/Canadian dollar forward contracts at an approximate Canadian dollar value at inception of \$68.6. The forward contracts were entered into to hedge and limit exposure to exchange rate fluctuations relating to future expenditures in Euros. The forward contracts matured on March 1, 2017.

Market risk

Market risk is the risk that the fair value of investments will fluctuate as a result of changes in the price of the investment. The Company estimates that a 10 percent change in the market value of its investments that trade on a recognized stock exchange would impact net earnings (loss) by \$ nil (2016 - \$ nil) and other comprehensive (loss) income by \$2.2 (2016 - \$2.1).

26. Segmented information

The Company's reportable segments are Food retailing and Investments and other operations, which is based on the Company's management and internal reporting structure. The Food retailing segment is comprised of five operating segments: Sobeys West, Sobeys Ontario, Sobeys Quebec, Sobeys Atlantic, and Sobeys Pharmacy Group. These operating segments have been aggregated into one reportable segment, "Food retailing", as they all share similar economic characteristics such as: product offerings, customer base and distribution methods. The Investments and other operations segment principally consists of investments, at equity, in Crombie REIT, real estate partnerships, and various other corporate operations.

Segment results and assets include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

Each of these operating segments is managed separately as each of these segments requires different technologies and other resources as well as marketing approaches. All inter-segment transfers are carried out at arm's length prices. The measurement policies the Company uses for segment reporting under IFRS 8, "Operating Segments", are the same as those used in its consolidated financial statements.

No asymmetrical allocations of income, expense or assets have been applied between segments.

All sales are generated by the Food retailing segment. Operating income (loss) generated by each of the Company's business segments is summarized as follows:

| | May 6, 2017 | May 7, 2016 |
|---|--------------------|---------------------|
| Segmented operating income (loss) | | |
| Food retailing | \$ 259.3 | \$ (2,509.2) |
| Investments and other operations | | |
| Crombie REIT | 41.5 | 38.9 |
| Real estate partnerships | 35.1 | 46.7 |
| Other operations, net of corporate expenses | (2.9) | 5.1 |
| | 73.7 | 90.7 |
| Total | \$ 333.0 | \$ (2,418.5) |

Segment operating income (loss) can be reconciled to the Company's earnings (loss) before income taxes as follows:

| | May 6, 2017 | May 7, 2016 |
|-------------------------------|--------------------|---------------------|
| Total operating income (loss) | \$ 333.0 | \$ (2,418.5) |
| Finance costs, net | 118.0 | 137.4 |
| Total | \$ 215.0 | \$ (2,555.9) |

| | May 6, 2017 | May 7, 2016 |
|----------------------------------|--------------------|--------------------|
| Total assets by segment | | |
| Food retailing | \$ 7,949.9 | \$ 8,463.3 |
| Investments and other operations | 745.6 | 675.2 |
| Total | \$ 8,695.5 | \$ 9,138.5 |

Empire Company Limited

27. Stock-based compensation

Performance share unit plan

The Company awarded certain employees a target number of performance share units (“PSUs”) that track the Company’s Non-Voting Class A share prices over a three-year period. The number of PSUs that vest under an award, for the most part, is dependent on time and the achievement of specific performance measures. Upon vesting, each employee is entitled to receive Non-Voting Class A shares equal to the number of their vested PSUs. The weighted average fair value of \$19.23 per PSU issued in the current year was determined using the Black Scholes model with the following weighted average assumptions:

| | |
|-------------------------|------------|
| Share price | \$20.16 |
| Expected life | 2.27 years |
| Risk-free interest rate | 0.73% |
| Expected volatility | 19.48% |
| Dividend yield | 2.07% |

At May 6, 2017, there were 861,933 (2016 - 939,555) PSUs outstanding. The compensation expense for the year ended May 6, 2017 was \$ nil (2016 - \$1.2).

Stock option plan

During fiscal 2017, the Company granted 1,642,700 options under the stock option plan for employees of the Company whereby options are granted to purchase Non-Voting Class A shares. On September 28, 2015, the Company completed a three-for-one share split. The number of outstanding options, weighted average fair value of options, and share price have been restated to reflect the three-for-one share split. The weighted average fair value of \$2.92 per option issued during the year was determined using the Black Scholes model with the following weighted average assumptions:

| | |
|-------------------------|------------|
| Share price | \$20.40 |
| Expected life | 7.92 years |
| Risk-free interest rate | 0.68% |
| Expected volatility | 19.17% |
| Dividend yield | 2.02% |

The compensation cost for the year ended May 6, 2017 was \$3.3 (2016 - \$3.6) with amortization of the cost over the vesting period of four years. The total increase in contributed surplus in relation to the stock option compensation cost was \$3.3 (2016 - \$3.6).

The outstanding options at May 6, 2017 were granted at prices between \$15.60 and \$30.87 and expire between May 2018 and June 2024 with a weighted average remaining contractual life of 5.46 years. Stock option transactions during fiscal 2017 and 2016 were as follows:

| | 2017 | | 2016 | |
|--|-------------------|---------------------------------|-------------------|---------------------------------|
| | Number of Options | Weighted Average Exercise Price | Number of Options | Weighted Average Exercise Price |
| Balance, beginning of year | 3,655,322 | \$ 25.94 | 3,364,995 | \$ 24.86 |
| Granted | 1,642,700 | 20.40 | 753,845 | 30.13 |
| Exercised | - | - | (135,712) | 20.09 |
| Forfeited | (348,159) | 23.51 | (327,806) | 26.90 |
| Balance, end of year | 4,949,863 | \$ 24.27 | 3,655,322 | \$ 25.94 |
| Stock options exercisable, end of year | 3,334,369 | | 2,206,342 | |

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

The following table summarizes information about stock options outstanding at May 6, 2017:

| Year Granted | Options Outstanding | | | Options Exercisable | |
|--------------|-------------------------------|--|---------------------------------|-----------------------------------|---------------------------------|
| | Number of Outstanding Options | Weighted Average Remaining Contractual Life ⁽¹⁾ | Weighted Average Exercise Price | Number Exercisable at May 6, 2017 | Weighted Average Exercise Price |
| 2011 | 14,418 | 1.15 | \$ 17.33 | 14,418 | \$ 17.33 |
| 2012 | 10,392 | 2.16 | 18.13 | 10,392 | 18.13 |
| 2013 | 14,262 | 3.16 | 17.98 | 14,262 | 17.98 |
| 2014 | 1,992,568 | 4.16 | 26.30 | 1,992,568 | 26.30 |
| 2015 | 844,957 | 5.17 | 22.43 | 633,717 | 22.43 |
| 2016 | 602,778 | 6.17 | 30.10 | 301,390 | 30.10 |
| 2017 | 1,470,488 | 7.18 | 20.36 | 367,622 | 20.36 |
| Total | 4,949,863 | 5.46 | \$ 24.27 | 3,334,369 | \$ 25.15 |

⁽¹⁾ Weighted average remaining contractual life is expressed in years.

Deferred stock unit plan

In the first quarter of fiscal 2017, the Company implemented a new employee deferred stock unit (“DSU”) plan. The number of DSUs that vest is dependent on time and the achievement of specific performance measures. At May 6, 2017 there were 578,444 (2016 - nil) DSUs outstanding related to this plan and the total carrying amount of the liability was \$1.9 (2016 - \$ nil). The compensation expense during the year ended May 6, 2017 was \$1.9 (2016 - \$ nil) with the amortization of the cost over the vesting period of three years.

Members of the Board of Directors may elect to receive all or any portion of their fees in DSUs in lieu of cash. The number of DSUs received is determined by the market value of the Company’s Non-Voting Class A shares on each directors’ fee payment date. Additional DSUs are received as dividend equivalents. At May 6, 2017 there were 263,199 (2016 - 426,792) DSUs outstanding and the total carrying amount of the liability was \$5.7 (2016 - \$9.0). During the year ended May 6, 2017, the compensation expense (reversal) was \$1.5 (2016 - \$(2.1)).

Under both plans, vested DSUs cannot be redeemed until the holder is no longer a director of the Company or the employee has retired or leaves the Company. The redemption value of a DSU equals the market value of an Empire Non-Voting Class A share at the time of redemption. On an ongoing basis, the Company values the DSU obligation at the current market value of a corresponding number of Non-Voting Class A shares and records any increase or decrease in the DSU obligation as selling and administrative expenses on the consolidated statements of earnings (loss).

Phantom performance option plan

Prior to fiscal 2014, Sobeys’ executives participated in the Sobeys phantom performance option plan (“PPOP”) which provided for the issuance of phantom performance options (“PPOs”). The PPOs are subject to a performance period or term of five years. Sobeys PPOs were granted to officers and senior management of Sobeys as approved by the Human Resource (“HR”) Committee. Grants vest over a four-year period at a rate of 25 percent per year. The PPOP contains a liquidity provision which allows for partial payouts of the ‘in-the-money’ position during the performance period. During fiscal 2014, the plan was converted to a cash settled share based payment with the growth calculation based on the five day average Empire Non-Voting Class A share value following the announcement of the Company’s fiscal financial performance compared to the five day average following the announcement of the Company’s fiscal financial performance of the preceding year. At May 6, 2017, there were 683,652 options (2016 - 1,497,393) outstanding and the carrying amount of the liability associated with these options was \$ nil (2016 - \$ nil).

Share Purchase Plan

The Company has a share purchase plan for employees of the Company whereby loans may be granted to purchase Non-Voting Class A shares. The Company’s current practice is to use only the performance share unit plan and the stock option plan to provide medium-term and long-term incentive for employees. At May 6, 2017, the outstanding loan balance was \$ nil (2016 - \$0.5).

28. Related party transactions

The Company has related party transactions with Crombie REIT and key management personnel. The Company holds a 41.5 percent ownership interest in Crombie REIT and accounts for its investment using the equity method.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

The Company leased certain real property from Crombie REIT during the year at amounts which in management's opinion approximate fair market value that would be incurred if leased from a third party. Management has determined these amounts to be fair value based on the significant number of leases negotiated with third parties in each market it operates. The aggregate net payments under these leases, which are measured at exchange amounts, totaled approximately \$195.8 (2016 - \$164.9).

Crombie REIT provides administrative and management services to the Company on a fee for service basis pursuant to a Management Agreement effective January 1, 2016. The Management Agreement replaces the previous arrangement where charges incurred were on a cost recovery basis.

At May 6, 2017, investments included \$25.1 (2016 - \$24.7) of Crombie REIT convertible unsecured subordinated debentures. The Company received interest from Crombie REIT of \$1.2 for the year ended May 6, 2017 (2016 - \$1.2). These amounts are included in finance costs, net in the consolidated statements of earnings (loss).

On June 29, 2016, Sobeys and its wholly-owned subsidiaries closed an agreement with Crombie REIT to sell and leaseback a portfolio of 19 retail properties and a 50 percent interest in each of its three automated distribution centres, as well as the sale of two parcels of development land which were previously owned by Empire. Crombie REIT also invested approximately \$58.8 in renovations or expansions of ten Sobeys retail locations already in Crombie REIT's portfolio. In addition to cash, Crombie REIT issued to a subsidiary of Sobeys \$93.4 in value of Class B LP units and attached special voting units of Crombie REIT at a price of \$14.70 per unit. The subsidiary of Sobeys subsequently sold its Class B LP units to Empire on a tax deferred basis. Total net cash proceeds to the Company and its wholly-owned subsidiaries from these transactions with Crombie REIT were \$323.8, resulting in a pre-tax loss of \$0.8 which has been recognized in the consolidated statements of earnings (loss). Proceeds from the transactions were used to repay the senior unsecured notes.

On July 29, 2016, Sobeys, through a wholly-owned subsidiary, sold and leased back an additional property from Crombie REIT for cash consideration of \$26.4. This resulted in a pre-tax gain of \$2.1, which has been recognized in the consolidated statements of earnings (loss). Sobeys also purchased one property from Crombie REIT for \$9.1.

During fiscal 2014, Sobeys entered into a loan agreement with Crombie REIT to partially finance Sobeys' acquisition of a property in British Columbia. The \$11.9 loan bore interest at a rate of 6.0 percent and had no principal repayments. On May 5, 2017, the Company sold the property to Crombie REIT for cash consideration of \$31.1, resulting in a pre-tax gain of \$1.0, which has been recognized in the consolidated statements of earnings (loss). Proceeds from the transaction were used to repay the loan.

During the year ended May 7, 2016, Crombie REIT and a wholly-owned subsidiary of the Company negotiated an extension of a rental income guarantee and put option on a property Crombie REIT acquired from the Company's subsidiary in 2006. The rental income guarantee and put option were originally scheduled to mature in March 2016 and have been extended for a period of five years with either party having the ability to terminate the agreements with written notice.

During the year ended May 7, 2016, Sobeys through its wholly-owned subsidiaries, sold and leased back six properties from Crombie REIT. Cash consideration received for the properties sold was \$60.7, resulting in a pre-tax gain of \$6.5, which has been recognized in the consolidated statements of earnings (loss).

Key management personnel compensation

Key management personnel include the Board of Directors and members of the Company's executive team that have authority and responsibility for planning, directing and controlling the activities of the Company.

Key management personnel compensation is comprised of:

| | May 6, 2017 | May 7, 2016 |
|--|--------------------|--------------------|
| Salary, bonus and other short-term employee benefits | \$ 9.7 | \$ 9.6 |
| Post-employment benefits | 1.6 | 1.9 |
| Termination benefits | 8.7 | 1.5 |
| Share-based payments | 14.8 | 6.1 |
| Total | \$ 34.8 | \$ 19.1 |

Indemnities

The Company has agreed to indemnify its directors, officers and particular employees in accordance with the Company's policies. The Company maintains insurance policies that may provide coverage against certain claims.

Empire Company Limited
Notes to the Consolidated Financial Statements
May 6, 2017
(in millions of Canadian dollars, except share and per share amounts)

29. Capital management

The Company's objectives when managing capital are: i) ensure sufficient liquidity to support its financial obligations and execute its operating and strategic plans; ii) to minimize the cost of capital while taking into consideration current and future industry, market and economic risks and conditions; iii) to maintain an optimal capital structure that provides necessary financial flexibility while also ensuring compliance with any financial covenants; and iv) to maintain an investment grade credit rating with each rating agency that assesses the credit worthiness of the Company. There have been no changes to the Company's objectives during the year ended May 6, 2017.

The Company monitors and makes adjustments to its capital structure, when necessary, in light of changes in economic conditions, the objectives of its shareholders, the cash requirements of the business and the condition of capital markets.

The Company considers its total capitalization to include all interest bearing debt, including bank loans, long-term debt (including the current portion thereof) and shareholders' equity, net of cash and cash equivalents. The calculation is set out in the following table:

| | May 6, 2017 | May 7, 2016 |
|---|--------------------|--------------------|
| Long-term debt due within one year | \$ 134.0 | \$ 350.4 |
| Long-term debt | 1,736.8 | 2,017.0 |
| Funded debt | 1,870.8 | 2,367.4 |
| Less cash and cash equivalents | (207.3) | (264.7) |
| Net funded debt | 1,663.5 | 2,102.7 |
| Shareholders' equity, net of non-controlling interest | 3,644.2 | 3,623.9 |
| Capital under management | \$ 5,307.7 | \$ 5,726.6 |

Although the Company does not include operating leases in its definition of capital, the Company does give consideration to its obligations under operating leases when assessing its total capitalization.

The primary investments undertaken by the Company include additions to the selling square footage of its store network via the construction of new, relocated and expanded stores, including related leasehold improvements and the purchase of land bank sites for future store construction. The Company makes capital investments in information technology and its distribution capabilities to support an expanding store network. In addition, the Company makes capital expenditures in support of its investments and other operations. The Company largely relies on its cash flow from operations to fund its capital investment program and dividend distributions to its shareholders. The cash flow is supplemented, when necessary, through the incurrence of additional debt or the issuance of additional capital stock. No changes were made to these objectives in the current year.

Management monitors certain key ratios to effectively manage capital:

| | May 6, 2017 | May 7, 2016 |
|---|--------------------|--------------------|
| Funded debt to total capital ⁽¹⁾ | 33.9% | 39.5% |
| Funded debt to EBITDA ⁽²⁾ | 2.4 x | (1.2)x |
| EBITDA to interest expense ⁽²⁾ | 7.5 x | (17.1)x |

⁽¹⁾ Total capital is funded debt plus shareholders' equity, net of non-controlling interest.

⁽²⁾ EBITDA and interest expense are comprised of EBITDA and interest expense for each of the 52 and 53 week periods then ended. EBITDA consists of operating income plus depreciation and amortization of intangibles, while interest expense consists of interest expense on financial liabilities measured at amortized cost plus losses on cash flow hedges reclassified from other comprehensive income or loss.

Under the terms of existing debt agreements, three financial covenants are monitored and communicated on a quarterly basis by management to ensure compliance with the agreements. The covenants are: i) adjusted total debt/EBITDA - calculated as net funded debt plus letters of credit, guarantees and commitments divided by EBITDA (as defined by the credit agreements and for the previous 52 and 53 weeks); ii) lease adjusted debt/EBITDAR - calculated as adjusted total debt plus eight times rent divided by EBITDAR (as defined by the credit agreements and for the previous 52 and 53 weeks); and iii) debt service coverage ratio - calculated as EBITDA divided by interest expense plus repayments of long-term debt (as defined by the credit agreements and for the previous 52 and 53 weeks). The Company was in compliance with these covenants during the year.

30. Subsequent events

On May 11, 2017, the unitholders of Crombie REIT approved a tax reorganization that will eliminate wholly-owned corporate subsidiaries being subject to corporate income taxes. This tax reorganization is not expected to have a significant impact on the financial position of the Company.

On June 2, 2017, Sobeys entered a new, senior, unsecured non-revolving credit facility for \$500.0. The facility bears floating interest tied to Canadian prime rate or bankers' acceptance rates. The financing is intended to be used to repay long-term debt due in calendar 2018.

On June 2, 2017, Crombie REIT announced that it had exercised its right to redeem its 5.00% Series D Convertible Unsecured Subordinated Debentures. The redemption will be effective on July 4, 2017. Upon redemption, Crombie REIT will pay to the holders of debentures the redemption price equal to the outstanding principal amount and all accrued and unpaid interest. Empire currently holds a \$25.1 investment in the Series D convertible debentures.
