Empire Company Limited
Notes to the Unaudited Interim Condensed Consolidated Financial Statements
October 30, 2021
(in millions of Canadian dollars, except share and per share amounts)

1. Reporting entity

Empire Company Limited (“Empire” or the “Company”) is a Canadian company whose key businesses are food retailing and related real estate. The Company is incorporated in Canada and the address of its registered office of business is 115 King Street, Stellarton, Nova Scotia, B0K 1S0, Canada. The unaudited interim condensed consolidated financial statements for the period ended October 30, 2021 include the accounts of Empire, all subsidiary companies, including 100% owned Sobeys Inc. (“Sobeys”), and certain enterprises considered structured entities where control is achieved on a basis other than through ownership of a majority of voting rights. Investments in which the Company has significant influence and its joint ventures are accounted for using the equity method. As at October 30, 2021, the Company’s business operations were conducted through its two reportable segments: Food retailing and Investments and other operations, as further described in Note 12, Segmented information. The Company’s Food retailing business is affected by seasonality and the timing of holidays. The Company’s fiscal year ends on the first Saturday in May.

2. Basis of preparation

Statement of compliance

The unaudited interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34, “Interim Financial Reporting”, as issued by the International Accounting Standards Board (“IASB”). Accordingly, certain information and note disclosures normally included in the annual consolidated financial statements have been omitted or condensed. The unaudited interim condensed consolidated financial statements should be read in conjunction with the Company’s annual consolidated financial statements for the year ended May 1, 2021, which have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the IASB.

The unaudited interim condensed consolidated financial statements were authorized for issue by the Board of Directors on December 8, 2021.

Basis of measurement

The unaudited interim condensed consolidated financial statements are prepared on the historical cost basis, except the following assets and liabilities which are stated at their fair value: certain financial instruments (including derivatives) at fair value through profit and loss and cash settled stock-based compensation plans. Assets held for sale are stated at the lower of their carrying amount and fair value less costs to sell.

Use of estimates, judgments and assumptions

The preparation of the unaudited interim condensed consolidated financial statements requires management to make estimates, judgments and assumptions that affect the amounts reported on the condensed consolidated financial statements and accompanying notes. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Estimates, judgments and assumptions that could have a significant impact on the amounts recognized on the unaudited interim condensed consolidated financial statements are summarized in the Company’s annual consolidated financial statements for the year ended May 1, 2021 and remain unchanged for the period ended October 30, 2021.

Since the fourth quarter of fiscal 2020, the novel coronavirus pandemic has had a significant impact on the Company. As pandemic related restrictions decrease, the Company’s financial results reflect fluctuations in sales compared to the consistently high level of sales last year. While the pandemic related restrictions have eased, it is uncertain whether the Company will face further restrictive measures due to possible future waves of infection. The full economic impact the pandemic will have on the Company, including the long-term shopping patterns of customers, remains uncertain and is dependent on the duration of the virus and related public health measures.

3. Summary of significant accounting policies

These unaudited interim condensed consolidated financial statements were prepared using the same accounting policies as disclosed in the Company's annual consolidated financial statements for the year ended May 1, 2021.

Standards, amendments and interpretations issued but not yet adopted

In May 2021, the IASB issued amendments to IAS 12, "Income Taxes". The amendments require deferred tax assets and liabilities to be recognized for transactions that result in both deductible and taxable temporary differences of the same amount at initial recognition. These amendments are effective for annual reporting periods beginning on or after January 1, 2023, with early adoption permitted. The Company is assessing the potential impact of these targeted amendments.

In May 2020, the IASB issued a package of narrow-scope amendments to three standards (IFRS 3, "Business Combinations"; IAS 16, "Property, Plant and Equipment"; and IAS 37, "Provisions, Contingent Liabilities and Contingent Assets") as well as the IASB's Annual Improvements to IFRS Standards 2018 - 2020. These amendments to existing IFRS standards are to clarify guidance and wording, or to correct for relatively minor unintended consequences, conflicts or oversights. These amendments are effective for annual periods beginning on or after January 1, 2022. The Company is assessing the potential impact of these narrow-scope amendments.

In January 2020, the IASB issued Classification of Liabilities as Current or Non-Current (Amendments to IAS 1, "Presentation of Financial Statements"). The narrow-scope amendment affects only the presentation of liabilities in the statement of financial position and not the amount or timing of recognition. Specifically, it clarifies:

- the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period and align the wording in all affected paragraphs to refer to the "right" to defer settlement by at least 12 months and make explicit that only rights in place "at the end of the reporting period" should affect the classification of a liability;
- classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability; and
- that "settlement" refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

These amendments are effective for annual periods beginning on or after January 1, 2023, with early adoption permitted. The Company is assessing the potential impact of this narrow-scope amendment.

4. Inventories

The cost of inventories recognized as an expense during the period and year-to-date ended October 30, 2021 was \$5,467.5 and \$11,181.3 respectively (October 31, 2020 - \$5,224.3 and \$10,729.9). The Company recorded an expense for the year-to-date ended October 30, 2021 of \$2.1 (October 31, 2020 - \$2.1) for write-down of inventories below cost to net realizable value for inventories on hand.

(in millions of Canadian dollars, except share and per share amounts)

The preliminary estimated fair value of identifiable assets acquired, liabilities assumed and non-controlling interest as at May 10, 2021 are as follows:

Receivables		10.8
Inventories		47.3
Prepaid expenses		7.1
Income tax receivable		0.2
Property and equipment		71.9
Right-of-use assets		262.4
Intangibles		261.3
Goodwill		450.4
Accounts payable and accrued liabilities		(73.4)
Lease liabilities		(262.4)
Long-term debt		(34.3)
Other assets and liabilities		(23.7)
Deferred tax liabilities		(57.6)
Non-controlling interest		(323.7)
Total consideration	\$	336.9

These amounts have been determined provisionally and are subject to adjustment pending the finalization of valuations and related accounting.

From the date of acquisition, Longo's contributed sales of \$252.0 and \$496.2 and net earnings of \$3.4 and \$6.5 for the period and year-to-date ended October 30, 2021 respectively.

Goodwill of \$450.4 was recognized as the excess of the acquisition cost over the fair value of net identifiable assets at the date of acquisition. The goodwill recognized is attributable mainly to the workforce acquired and expected customer base of the acquired retail store locations and e-commerce business. The goodwill recognized is not expected to be deductible for tax purposes. Intangibles of \$261.3 are related to the fair value of the Longo's brand name, loyalty program and software.

After the fifth anniversary of the transaction, the Longo's 49% non-controlling shareholders have an option to sell up to a 12.25% per annum interest in Longo's to Sobeys, at a multiple applied to the last 12 months earnings before interest, taxes, depreciation and amortization. The multiple will vary depending on achievement of certain business results. If Longo's non-controlling shareholders exercise an option to sell, Sobeys will have a corresponding call option for the same percentage in the following year. After the tenth anniversary of the transaction, both Sobeys and Longo's have mutual put and call options for any remaining minority shares outstanding.

A financial liability of \$239.7 has been recognized at the date of acquisition based on the present value of the amount payable on exercise of the non-controlling interest put liability in accordance with IFRS 9, "Financial Instruments" ("IFRS 9"). The non-controlling interest put liability is calculated based on the amount payable upon exercise based on management's best estimate of future earnings of Longo's at a predetermined date. The initial and subsequent fair value measurement of the put liability is classified as Level 3 within the three-level hierarchy of IFRS 13, "Fair Value Measurement" ("IFRS 13") and is included in other long-term liabilities. The Company's accounting policy is to recognize subsequent revaluation gains or losses through retained earnings.

Other acquisitions

During the year-to-date ended October 30, 2021, the Company completed the acquisition of several franchise and non-franchise stores and other businesses. The results of these acquisitions have been included in the financial results of the Company since their acquisition dates and were accounted for through the use of the acquisition method.

Prepaid expenses		0.3
Property, equipment and investment property		8.0
Right-of-use assets		3.2
Intangibles		11.1
Goodwill		30.7
Accounts payable and accrued liabilities		(3.3)
Lease liabilities		(3.2)
Long-term debt		(1.5)
Other assets and liabilities		(3.3)
Deferred tax liabilities		(3.7)
Non-controlling interest		(9.6)
Total consideration	\$	34.3

From the date of acquisition, the businesses acquired contributed sales of \$10.7 and \$16.0 and net earnings (losses) of \$0.3 and \$(0.4) for the period and year-to-date ended October 30, 2021 respectively.

On August 2, 2021, concurrent with the Company's 75% acquisition of a business, Sobeys and the non-controlling shareholders entered into put and call options such that non-controlling shareholders have an option to sell and Sobeys has the ability to purchase the remaining 25% interest in the business either five or seven years subsequent to the acquisition. A financial liability of \$6.9 has been recognized at the date of acquisition based on the present value of the amount payable on exercise of the non-controlling interest put liability in accordance with IFRS 9.

Goodwill recorded on the acquisitions of franchise and non-franchise stores and other businesses relates to the acquired work force and customer base of the existing store location, along with the synergies expected from combining the efforts of the acquired stores with existing stores. The estimated fair value of identifiable net assets and goodwill acquired have been determined provisionally and are subject to adjustment pending the finalization of the valuations and related accounting.

14. Financial instruments

The carrying amount of the Company's financial instruments approximates their fair values with the following exception:

Long-term debt	October 30 2021	May 1 2021	October 31 2020
Total carrying amount	\$ 1,160.9	\$ 1,225.3	\$ 1,341.3
Total fair value	\$ 1,322.4	\$ 1,406.7	\$ 1,565.3

The fair value of the non-controlling interest put liabilities associated with the acquisitions of Farm Boy and other acquisitions is equivalent to the present value of the non-controlling interest buyout price which is based on the estimated future earnings of these entities at a predetermined date. The fair value of the non-controlling interest put liability associated with the acquisition of Longo's was determined through a statistical simulation, which is based on the estimated future earnings of Longo's at a predetermined date. The fair value of these options is classified as Level 3 within the three-level hierarchy of IFRS 13.

During the year-to-date ended October 30, 2021, the Company granted 272,313 PSUs (October 31, 2020 - 211,838). The weighted average fair value of \$37.70 per PSU issued during the year-to-date ended October 30, 2021 was determined using the Black-Scholes model with the following weighted average assumptions:

Share price	\$39.14
Expected life	2.85 years
Risk-free interest rate	0.58%
Expected volatility	31.30%
Dividend yield	1.31%

At October 30, 2021, there were 619,489 (October 31, 2020 - 289,109) PSUs outstanding. The compensation expense for the period and year-to-date ended October 30, 2021 related to PSUs was \$1.7 and \$2.1 respectively (October 31, 2020 - \$0.8 and \$1.9).

The weighted average fair value of \$10.09 per option issued during the year-to-date ended October 30, 2021 was determined using the Black-Scholes model with the following weighted average assumptions:

Share price	\$42.12
Expected life	4.70 years
Risk-free interest rate	0.91%
Expected volatility	30.79%
Dividend yield	1.31%

The compensation expense for the period and year-to-date ended October 30, 2021 related to the issuance of options was \$1.4 and \$3.1 respectively (October 31, 2020 - \$1.6 and \$3.0).

Deferred stock unit plans

Deferred stock units (“DSU”) issued to employees under the Executive DSU Plan, vest dependent on time and the achievement of specific performance measures. During the year-to-date ended October 30, 2021, the Company granted 87,474 DSUs (October 31, 2020 - 200,585). At October 30, 2021, there were 1,751,104 (October 31, 2020 - 1,514,272) DSUs outstanding and the total carrying amount of the liability was \$56.2 (October 31, 2020 - \$40.1). Members of the Board of Directors may elect to receive all or any portion of their fees in DSUs in lieu of cash. The number of DSUs received is determined by the market value of the Company’s Non-Voting Class A shares on each directors’ or employees’ fee payment date. During the year-to-date ended October 30, 2021, the Company granted 25,801 DSUs (October 31, 2020 - 45,153). At October 30, 2021, there were 393,180 (October 31, 2020 - 336,102) DSUs outstanding and the total carrying amount of the liability was \$14.5 (October 31, 2020 - \$12.2). During the period and year-to-date ended October 30, 2021, the compensation (income) expense recorded was \$(1.0) and \$0.4 respectively (October 31, 2020 - \$1.2 and \$2.8).

Under both DSU plans, vested DSUs cannot be redeemed until the employee has left the Company or the holder is no longer a director of the Company. The redemption value of a DSU equals the market value of an Empire Non-Voting Class A share at the time of redemption. On an ongoing basis, the Company values the DSU obligation at the current market value of a corresponding number of Non-Voting Class A shares and records any increase or decrease in the DSU obligation as selling and administrative expenses.
