Non-GAAP Financial Measures & Financial Metrics

There are measures and metrics included in this investor presentation that do not have a standardized meaning under generally accepted accounting principles ("GAAP") and therefore may not be comparable to similarly titled measures and metrics presented by other publicly traded companies. The Company includes these measures and metrics because it believes certain investors use these measures and metrics as a means of assessing financial performance.

In addition, management adjusts measures and metrics, including operating income, EBITDA and net earnings in an effort to provide investors and analysts with a more comparable year-over-year performance metric than the basic measure by excluding certain items. These items may impact the analysis of trends in performance and affect the comparability of the Company's core financial results. By excluding these items, management is not implying they are non-recurring.

For a more complete description of Empire's non-GAAP measures and metrics, please see Empire's Management's Discussion and Analysis for the third quarter ended February 3, 2024.
