

Ethical Business Conduct

Any failure of the Company to adhere to its policies, the law or ethical business practices could significantly affect its reputation and brands and could therefore negatively impact the Company's financial performance. The Company's framework for managing ethical business conduct includes the adoption of a Code of Business Conduct and Ethics which directors and employees of the Company are required to acknowledge and agree to on a regular basis and, as part of an independent audit and security function, maintenance of a whistle-blowing hotline.

Information Management

The integrity, reliability and security of information in all its forms is critical to the Company's daily and strategic operations. Inaccurate, incomplete or unavailable information and/or inappropriate access to information could lead to incorrect financial and/or operational reporting, poor decisions, privacy breaches and/or inappropriate disclosure or leaks of sensitive information.

Information management is identified as a risk in its own right, separate from the technology risk. The Company recognizes that information is a critical enterprise asset. Currently, the information management risk is being managed at the regional and national levels through the development of policies and procedures pertaining to security access, system development, change management and problem and incident management. With a view to enhancing and standardizing the controls to manage the information management risk, the Company is developing corporate operating policies which establish minimum standards for the usage, security and appropriate destruction of information. Furthermore, enterprise metrics are being identified to assist in monitoring significant information management risks.

Capital Allocation

It is important that capital allocation decisions result in an appropriate return on capital. The Company has a number of strong mitigation strategies in place regarding the allocation of capital, including the Board review of significant capital allocation decisions. The Company has established prudent hurdle rates for capital investments that are evaluated through a prudent due diligence process.

Access to Capital

Access to capital risk refers to Empire or its operating companies being unable to obtain required capital at reasonable terms, given the prevailing market conditions. There are several factors that impact the level of inherent risk: the state of the capital markets; the level of capital required; the credit rating assigned by the rating agencies; and the availability of credit from banks. Empire mitigates these risks by maintaining strong relationships with its banks and continuously monitors its credit ratings.

Economic Environment

Management continues to closely monitor economic conditions, including interest rates, inflation, employment rates and capital markets. Management believes that although a weakening economy has an impact on all businesses and industries, the Company has an operational and capital structure that is sufficient to meet its ongoing business requirements.

Dividend Practice

The Board of Directors of Empire reviews from time to time the adequacy of Empire's dividend practice with the objective of allowing sufficient financial flexibility to continue investing in our business while growing returns to shareholders. Under the current dividend practice, increases in the Non-Voting Class A and Class B common share dividends are directly linked to growth in Empire's adjusted net earnings. Empire's dividend practice and the declaration of dividends are subject to the discretion of Empire's Board of Directors and, consequently, there can be no guarantee that Empire's dividend practice will be maintained or that dividends will be declared.

Additional financial information relating to Empire, including the Company's Annual Information Form, can be found on the Company's website www.empireco.ca or on the SEDAR website for Canadian regulatory filings at www.sedar.com.

Management's statement of responsibility for financial reporting

Preparation of the consolidated financial statements accompanying this annual report and the presentation of all other information in the report is the responsibility of management. The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards or Generally Accepted Accounting Principles and reflect management's best estimates and judgments. All other financial information in the report is consistent with that contained in the consolidated financial statements.

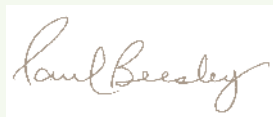

Management of the Company has established and maintains a system of internal control that provides reasonable assurance as to the integrity of the consolidated financial statements, the safeguarding of Company assets, and the prevention and detection of fraudulent financial reporting.

The Board of Directors, through its Audit Committee, oversees management in carrying out its responsibilities for financial reporting and systems of internal control. The Audit Committee, which is chaired by and composed solely of directors who are unrelated to, and independent of, the Company, meet regularly with financial management and external auditors to satisfy itself as to reliability and integrity of financial information and the safeguarding of assets. The Audit Committee reports its findings to the Board of Directors for consideration in approving the annual consolidated financial statements to be issued to shareholders.

The external auditors have full and free access to the Audit Committee.

Independent auditor's report

To the shareholders of Empire Company Limited

We have audited the accompanying consolidated financial statements of Empire Company Limited, which comprise the consolidated balance sheets as at May 4, 2013 and May 5, 2012 and the consolidated statements of earnings, comprehensive income, changes in shareholders' equity, and cash flows for the 52 week fiscal years then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of Empire Company Limited as at May 4, 2013 and May 5, 2012, and its consolidated financial performance and its consolidated cash flows for the 52 week fiscal years then ended, in accordance with International Financial Reporting Standards.

Notes to the consolidated financial statements

May 4, 2013

(in millions of Canadian dollars, except per share amounts)

1. REPORTING ENTITY

Empire Company Limited (“Empire” or the “Company”) is a diversified Canadian company whose key businesses include food retailing and corporate investment activities. The Company is incorporated in Canada and the address of its registered office of business is 115 King Street, Stellarton, Nova Scotia, B0K 1S0, Canada. The consolidated financial statements for the year ended May 4, 2013 include the accounts of Empire, all subsidiary companies, including 100 percent owned Sobeys Inc. (“Sobeys”), and certain enterprises considered special purpose entities (“SPEs”), where control is achieved on a basis other than through ownership of a majority of voting rights. Investments in which the Company has significant influence and investments in significant joint ventures are accounted for using the equity method. The Company’s fiscal year ends on the first Saturday in May. As a result, the fiscal year is usually 52 weeks but results in a duration of 53 weeks every five to six years.

2. BASIS OF PREPARATION

Statement of compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS” or “GAAP”) as issued by the International Accounting Standards Board (“IASB”).

The consolidated financial statements were authorized for issue by the Board of Directors on June 27, 2013.

Basis of measurement

The consolidated financial statements are prepared on the historical cost basis, except the following assets and liabilities which are stated at their fair value: derivative financial instruments, financial instruments classified as fair value through profit and loss, financial instruments classified as available for sale, and stock based compensation plans.

Use of estimates and judgments

The preparation of consolidated financial statements, in conformity with IFRS, requires management to make judgments, estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. The use of estimates, judgments and assumptions are all interrelated. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The Company has applied judgment in its assessment of the appropriateness of consolidation of SPEs, the appropriateness of equity accounting for its investments in associates and joint ventures, the classification of leases and financial instruments, the level of componentization of property and equipment, the determination of cash generating units, the identification of indicators of impairment for property and equipment, investment property and intangible assets, the allocation of purchase price adjustments on business combinations, and the recognition of provisions.

Estimates and assumptions that could have a significant impact on the amounts recognized in the consolidated financial statements are summarized below. Estimates are based on management’s best knowledge of current events and actions that the Company may undertake in the future. Actual results could differ from these estimates.

(a) Inventories

Inventories are valued at the lower of cost and estimated net realizable value. Significant estimation or judgement is required in the determination of (i) inventories valued at retail and adjusted to cost; (ii) estimated inventory provisions due to spoilage and shrinkage occurring between the last physical inventory count and the balance sheet dates; and (iii) estimated inventory provisions associated with vendor allowances and internal charges.

(b) Impairment

Management assesses impairment of non-financial assets such as goodwill, intangible assets, property and equipment, and investment property. In assessing impairment, management estimates the recoverable amount of each asset or cash-generating unit based on expected future cash flows. When measuring expected future cash flows, management makes assumptions about future growth of profits which relate to future events and circumstances. Actual results could vary from these estimated future cash flows. Estimation uncertainty relates to assumptions about future operating results and the application of an appropriate discount rate. Impairment losses and reversals are disclosed in the consolidated financial statements in Notes 8, 9, 10, and 11.

(c) Employee future benefits

Accounting for the costs of defined benefit pension plans and other post-employment benefits requires the use of a number of assumptions. Pension obligations are based on current market conditions and actuarial determined data such as medical cost trends, mortality rates, and future salary increases. Estimates are also made for the expected return on plan assets which are based on current market conditions, the asset portfolio mix, the active management of plan assets and historical returns. A sensitivity analysis and more detail of key assumptions used in measuring the pension obligation and post-employment benefit obligations are disclosed in Note 17.

(d) Income taxes

Assumptions are applied when management assesses the timing and reversal of temporary differences and estimates the Company's future earnings to determine the recognition of current and deferred income taxes. Judgments are also made by management when interpreting the tax rules in jurisdictions where the Company operates. Note 12 details the current and deferred income taxes and deferred tax assets and liabilities.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of consolidation

The financial statements for the Company include the accounts of the Company and all of its subsidiary undertakings drawn up to the reporting date. Subsidiaries, including SPEs, are all entities over which the Company has the power to control the financial and operating policies so as to benefit from its activities. All subsidiaries have a reporting date within five weeks of the Company's reporting date. Where necessary, adjustments have been made to reflect transactions between the reporting dates of the Company and its subsidiaries.

All intercompany transactions, balances, income, and expenses are eliminated in preparing the consolidated financial statements.

Earnings or losses and other comprehensive income of subsidiaries acquired or disposed of during the period are recognized from the effective date of acquisition, or up to the effective date of disposal, as applicable.

Non-controlling interest represents the portion of a subsidiary's earnings and losses and net assets that is not held by the Company. If losses in a subsidiary applicable to a non-controlling interest exceed the non-controlling interest in the subsidiary's equity, the excess is allocated to the non-controlling interest except to the extent that the majority has a binding obligation and is able to cover the losses.

(b) Business combinations

Business combinations are accounted for by applying the acquisition method. The acquisition method involves the recognition of the acquiree's identifiable assets and liabilities, including contingent liabilities, regardless of whether they were recorded in the financial statements prior to acquisition. The acquiree's identifiable assets, liabilities, and contingent liabilities that meet the conditions for recognition under IFRS 3, "Business Combinations", are recognized at their fair value at the acquisition date, except for: (i) deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements which are recognized and measured in accordance with IAS 12, "Income Taxes", and IAS 19, "Employee Benefits", respectively; and (ii) assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5, "Non-Current Assets Held for Sale and Discontinued Operations", which are measured and recognized at fair value less costs to sell. Goodwill arising on acquisition is recognized as an asset and represents the excess of acquisition cost over the fair value of the Company's share of the identifiable net assets of the acquiree at the date of the acquisition. Any excess of identifiable net assets over the acquisition cost is recognized in net earnings or loss immediately after acquisition. Transaction costs related to the acquisition are expensed as they are incurred.

In measuring the fair value of an acquiree's assets and liabilities management uses estimates about future cash flows and discount rates. Any measurement changes upon initial recognition would affect the measurement of goodwill, except for deferred taxes.

(c) Foreign currency translation

Assets and liabilities of foreign operations with a different functional currency than the Company are translated at exchange rates in effect at each reporting period end date. The revenues and expenses are translated at average exchange rates for the period. Cumulative gains and losses on translation are shown in accumulated other comprehensive income or loss.

Monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the foreign currency exchange rate in effect at each reporting period end date. Non-monetary items are translated at the historical exchange rate at the date of transaction. Exchange gains or losses arising from the translation of these balances denominated in foreign currencies are recognized in operating income. Revenues and expenses denominated in foreign currencies are translated into Canadian dollars at the average foreign currency exchange rate for the period.

(d) Cash and cash equivalents

Cash and cash equivalents are defined as cash, and guaranteed investments with a maturity less than 90 days at date of acquisition.

(e) Inventories

Warehouse inventories are valued at the lower of cost and net realizable value with cost being determined on a weighted average cost basis. Retail inventories are valued at the lower of cost and net realizable value. Cost is determined using a weighted average cost using either the standard cost method or retail method. The retail method uses the anticipated selling price less normal profit margins, on a weighted average cost basis. The cost of inventories is comprised of directly attributable costs and includes the purchase price plus other costs incurred in bringing the inventories to their present location and condition, such as freight. The cost is reduced by the value of rebates and allowances received from vendors. The Company estimates net realizable value as the amount that inventories are expected to be sold taking into consideration fluctuations of retail price due to seasonality less estimated costs necessary to make the sale. Inventories are written down to net realizable value when the cost of inventories is not estimated to be recoverable due to obsolescence, damage or permanent declines in selling prices. When circumstances that previously caused inventories to be written down below cost no longer exist or when there is clear evidence of an increase in retail selling price, the amount of the write-down previously recorded is reversed. Costs that do not contribute to bringing inventories to their present location and condition, such as storage and administrative overheads, are specifically excluded from the cost of inventories and are expensed in the period incurred.

(f) Income taxes

Tax expense recognized in net earnings or loss comprises the sum of deferred income tax and current income tax not recognized in other comprehensive income.

Current income tax assets and liabilities are comprised of obligations to, or claims from, fiscal authorities relating to the current or prior reporting periods, that are unpaid at the reporting date. Current tax is payable on taxable earnings, which differs from net earnings or loss in the consolidated financial statements. The calculation of current income tax is based on tax rates and tax laws that have been enacted or substantively enacted at the end of the reporting period.

Deferred income taxes are calculated using the asset and liability method on temporary differences between the carrying amounts of assets and liabilities and their related tax bases. However, deferred tax is not provided on the initial recognition of goodwill or on the initial recognition of an asset or liability unless the related transaction is a business combination or affects tax or accounting profit. The deferred tax assets and liabilities have been measured using substantively enacted tax rates that will be in effect when the amounts are expected to settle. Deferred tax assets are only recognized to the extent that it is probable that they will be able to be utilized against future taxable income. The assessment of the probability of future taxable income in which deferred tax assets can be utilized is based on the Company's latest approved forecast, which is adjusted for significant non-taxable income and expenses and specific limits to the use of any unused tax loss or credit. If a positive forecast of taxable income indicates the probable use of a deferred tax asset, especially when it can be used without a time limit, that deferred tax asset is usually recognized in full. The recognition of deferred tax assets that are subject to certain legal or economic limits or uncertainties are assessed individually by management based on the specific facts and circumstances.

Deferred tax assets and liabilities are offset only when the Company has a right and intention to offset current tax assets and liabilities from the same taxation authority. Changes in deferred tax assets or liabilities are recognized as a component of income or expense in net earnings or loss, except where they relate to items that are recognized in other comprehensive income (such as the unrealized gains and losses on cash flow hedges) or directly in equity.

(g) Assets held for sale

Certain land and buildings have been listed for sale and reclassified as assets held for sale on the consolidated balance sheets. These assets are expected to be sold within a twelve month period and are no longer productive assets with no intent to develop them for future use. Assets held for sale are valued at the lower of carrying amount and fair value less cost of disposal. Liabilities assumed upon sale of assets or debts to be repaid as part of a sale transaction are also classified as liabilities relating to assets held for sale.

(h) Investments in associates

Associates are those entities over which the Company is able to exert significant influence but which are neither subsidiaries nor interests in a joint venture. Investments in associates are initially recognized at cost and subsequently accounted for using the equity method.

Acquired investments in associates are also subject to the acquisition method as explained above. However, any goodwill or fair value adjustment attributable to the Company's share in the associate is included in the amount recognized as investments in associates.

All subsequent changes to the Company's share of interest in the equity of the associate are recognized in the carrying amount of the investment. Changes resulting from the earnings or losses generated by the associate are reported within share of earnings from investments, at equity on the Company's consolidated statements of earnings. These changes include subsequent depreciation, amortization or impairment of the fair value adjustments of assets and liabilities.

Changes resulting from earnings of the associate or items recognized directly in the associate's equity are recognized in earnings or equity of the Company, as applicable. However, when the Company's share of losses in an associate equals or exceeds its interest in the associate, including any unsecured receivables, the Company does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports earnings, the Company resumes recognizing its share of those earnings only after its share of the earnings exceeds the accumulated share of losses that had previously not been recognized.

Unrealized gains and losses on transactions between the Company and its associates are eliminated to the extent of the Company's interest in those entities. Where unrealized losses are eliminated, the underlying asset is also tested for impairment losses from a Company perspective.

At each reporting period end date, the Company assesses whether there are any indicators of impairment in its investment in associates. For investments in publicly traded entities, carrying value of the investment is compared to the current market value of the investment based on its quoted price at the balance sheet date. For entities which are not publicly traded, value-in-use of the investment is determined by estimating the Company's share of the present value of the estimated cash flow's expected to be generated by the investee. If impaired, the carrying value of the Company's investment is written down to its estimated recoverable amount, being the higher of fair value less cost to sell and value-in-use.

In the process of measuring future cash flows, management makes assumptions about future growth of profits. These assumptions relate to future events and circumstances. The actual results may vary and may cause significant adjustments to the Company's investments in associates in the subsequent financial years.

Each of the associates identified by the Company has a reporting year-end of December 31. For purposes of the Company's consolidated year-end financial statements, each of the associates results are included based on financial statements prepared as at March 31, with any changes occurring between March 31 and the Company's year-end that would materially affect the results being taken into account.

(i) Investments in joint ventures

The Company undertakes some business activities through joint ventures. Joint ventures are established through contractual arrangements that require the unanimous consent of each of the venturers regarding the strategic, financial and operating policies of the venture (joint control).

The Company's joint venture is classified as a jointly controlled entity:

A jointly controlled entity is a corporation, partnership or other entity in which each participant holds an interest. A jointly controlled entity operates in the same way as other entities, controlling the assets of the joint venture, generating its own earnings and incurring its own liabilities and expenses.

Interests in jointly controlled entities are accounted for using the equity method. Under the equity method, the investment in a jointly controlled entity is carried in the consolidated balance sheets at cost, plus post-acquisition changes in the Company's share of net assets of the jointly controlled entity, less distributions received and less any impairment in value of the investment. The share of jointly controlled entities' results is recognized in the Company's consolidated financial statements from the date that joint control commences until the date at which it ceases.

Unrealized gains and losses on transactions between the Company and joint ventures are eliminated to the extent of the Company's interest in those entities. Where unrealized losses are eliminated, the underlying asset is also tested for impairment losses from a Company perspective.

Each joint venture identified by the Company has a reporting year-end of December 31. For purposes of the Company's consolidated year-end financial statements, the results of the joint venture are included based on financial statements prepared as at March 31, with any changes occurring between March 31 and the Company's year-end that would materially affect the results being taken into account.

(j) Financial instruments

Financial instruments are recognized on the consolidated balance sheets when the Company becomes a party to the contractual provisions of a financial instrument. The Company is required to initially recognize all of its financial assets and liabilities, including derivatives and embedded derivatives in certain contracts, at fair value. Loans and receivables, held to maturity financial assets and other financial liabilities are subsequently measured at amortized cost. Derivatives and non-financial derivatives must be recorded at fair value on the consolidated balance sheets unless they are exempt from derivative treatment based upon expected purchase, sale or usage requirements.

The Company classifies financial assets and liabilities according to their characteristics and management's choices and intentions related thereto for the purpose of ongoing measurements. Classification choices for financial assets include: a) fair value through profit and loss ("FVTPL") – measured at fair value with changes in fair value recorded in net earnings; b) held to maturity – recorded at amortized cost with gains and losses recognized in net earnings in the period that the asset is derecognized or impaired; c) available for sale – measured at fair value with changes in fair value recognized in other comprehensive income for the current period until realized through disposal or impairment; and d) loans and receivables – recorded at amortized cost with gains and losses recognized in net earnings in the period that the asset is no longer recognized or impaired. Classification choices for financial liabilities include: a) FVTPL – measured at fair value with changes in fair value recorded in net earnings and b) other liabilities – measured at amortized cost with gains and losses recognized in net earnings in the period that the liability is derecognized.

The Company's financial assets and liabilities are generally classified and measured as follows:

Asset/Liability	Classification	Measurement
Cash and cash equivalents	Loans and receivables	Amortized cost
Receivables	Loans and receivables	Amortized cost
Loans and other receivables	Loans and receivables	Amortized cost
Investments – Current	FVTPL	Fair value
Investments	Available for sale	Fair value
Derivative financial liabilities	FVTPL	Fair value
Non-derivative other assets	FVTPL	Fair value
Bank indebtedness	Other liabilities	Amortized cost
Accounts payable and accrued liabilities	Other liabilities	Amortized cost
Long-term debt	Other liabilities	Amortized cost

All financial assets are reviewed for impairment at each reporting date, except those classified as FVTPL. Loans and receivables are reviewed for past due balances from independent accounts and based on an evaluation of recoverability net of security assigned for franchisee or affiliate locations.

Transaction costs other than those related to financial instruments classified as FVTPL, which are expensed as incurred, are added to or deducted from the fair value of the financial asset or financial liability, as appropriate, on initial recognition and amortized using the effective interest method.

Fair value measurements are classified within a hierarchy that prioritizes the inputs to fair value measurement. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are: level 1 – inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities; level 2 – inputs, other than quoted prices, that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active; or level 3 – inputs that are not based on observable market data. Inputs into the determination of the fair value require management judgment or estimation.

If different levels of inputs are used to measure a financial instrument's fair value, the classification within the hierarchy is based on the lowest level of input that is significant to the fair value measurement. Changes to valuation methods may result in transfers into or out of an investment's assigned level.

A financial asset is derecognized when the contractual rights to the cash flows from the financial asset expire or if the Company transfers the financial asset to another party without retaining control or substantially all the risks and rewards of ownership of the financial asset. A financial liability is derecognized when its contractual obligations are discharged, cancelled or expire.

(k) Hedges

The Company has cash flow hedges which are used to manage exposure to fluctuations in foreign currency exchange and variable interest rates. For cash flow hedges, the effective portion of the change in fair value of the hedging item is recorded in other comprehensive income. To the extent the change in fair value of the derivative is not completely offset by the change in fair value of the hedged item, the ineffective portion of the hedging relationship is recorded immediately in net earnings. Amounts accumulated in other comprehensive income are reclassified to net earnings when the hedged item is recognized in net earnings. When a hedging instrument in a cash flow hedge expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss in accumulated other comprehensive income relating to the hedge is carried forward until the hedged item is recognized in net earnings. When the hedged item ceases to exist as a result of its expiry or sale, or if an anticipated transaction is no longer expected to occur, the cumulative gain or loss in accumulated other comprehensive income is immediately reclassified to net earnings.

Financial derivatives assigned as part of a cash flow hedging relationship are classified as either an other asset or other long-term liability as required based on their fair value determination.

Significant derivatives include the following:

- (1) Foreign currency forward contracts and foreign currency swaps for the primary purpose of limiting exposure to exchange rate fluctuations relating to the purchase of goods or expenditures denominated in foreign currencies. Certain of these contracts are designated as hedging instruments for accounting purposes. Accordingly, the effective portion of the change in the fair value of the contracts are accumulated in other comprehensive income until the variability in cash flows being hedged is recognized in earnings in future accounting periods.
- (2) Interest rate swaps designated as cash flow hedges to manage variable interest rates associated with some of the Company's debt portfolio. Hedge accounting treatment results in interest expense on the related debt being reflected at hedged rates rather than variable interest rates. Accordingly, the effective portion of the change in the fair value of the contracts are accumulated in other comprehensive income until the variability in cash flows being hedged is recognized in earnings in future accounting periods.

(l) Property and equipment

Owner-occupied land, buildings, equipment, leasehold improvements, and assets under construction are carried at acquisition cost less accumulated depreciation and impairment losses.

Buildings that are leasehold property are also included in property and equipment if they are held under a finance lease. Such assets are depreciated over their expected useful lives (determined by reference to comparable owned assets) or over the term of the lease, if shorter.

Depreciation on real estate buildings is calculated using the straight-line method with reference to each property's carrying value, its estimated useful life (not exceeding 40 years), and its residual value. Deferred leasing costs are amortized over the terms of the related leases.

When significant parts of property and equipment have different useful lives, they are accounted for as separate components. Depreciation is recorded on a straight-line basis from the time the asset is available or when assets under construction become available for use over the estimated useful lives of the assets as follows:

Buildings	10 – 40 years
Equipment	3 – 20 years
Leasehold improvements	Lesser of lease term and 7 – 20 years

Depreciation has been included within selling and administrative expenses in the consolidated statements of earnings. Material residual value estimates and estimates of useful life are reviewed and updated as required, or annually at a minimum.

Gains or losses arising on the disposal of property and equipment are determined as the difference between the disposal proceeds and the carrying amount of the assets and are recognized in net earnings or loss within other income. If the sale is to a Company's investment, at equity, a portion of the gain would reduce the carrying value of the investment.

(m) Investment property

Investment properties are properties which are held either to earn rental income or for capital appreciation or for both, rather than for the principal purpose of the Company's operating activities. Investment properties are accounted for using the cost model. The depreciation policies for investment property are consistent with those described for property and equipment.

Any gain or loss arising from the sale of an investment property is immediately recognized in net earnings or loss, unless the sale is to an investment, at equity, in which case a portion of the gain would reduce the carrying value of the Company's investment. Rental income and operating expenses from investment property are reported within sales and selling and administrative expenses, respectively, in the consolidated statements of earnings.

(n) Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

(i) The Company as lessor

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

(ii) The Company as lessee

Assets held under finance leases are initially recognized as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated balance sheets as a finance lease obligation in long-term debt.

Lease payments are apportioned between finance charges and reduction of the lease obligation to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized in net earnings or loss immediately. Contingent rentals are recognized as expenses in the periods in which they are incurred.

Lease allowances and incentives are recognized as other long-term liabilities. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis over the term of the lease.

Real estate lease expense is amortized on a straight-line basis over the entire term of the lease.

(iii) Sale and leaseback transactions

A sale and leaseback transaction involves the sale of an asset and the leasing back of the same asset. If a sale and leaseback transaction results in a finance lease for the Company, any excess of sales proceeds over the carrying amount is recognized as deferred revenue and amortized over the term of the new lease. Any profit or loss in a sale and leaseback transaction resulting in an operating lease that is transacted at fair value is recognized immediately. If the sale price is above fair value, the excess over fair value is deferred and amortized over the term of the new lease.

(o) Intangibles

Intangibles arise on the purchase of a new business, existing franchises, software, and the acquisition of pharmacy prescription files. They are accounted for using the cost model whereby capitalized costs are amortized on a straight-line basis over their estimated useful lives, as these assets are considered finite. Useful lives are reviewed annually and intangibles are subject to impairment testing. The following useful lives are applied:

Deferred purchase agreements	5 – 10 years
Franchise rights/agreements	10 years
Lease rights	5 – 10 years
Patient files	15 years
Software	3 – 7 years
Other	5 – 10 years

Amortization has been included within selling and administrative expenses in the consolidated statements of earnings. Included in intangibles are brand names, loyalty programs, and private labels, the majority of which have indefinite useful lives. Subsequent expenditures made by the Company relating to intangible assets that do not meet the capitalization criteria are expensed in the period incurred.

(p) Goodwill

Goodwill represents the excess of the purchase price of the business acquired over the fair value of the underlying net tangible and intangible assets acquired at the date of acquisition.

(q) Impairment of non-financial assets

Goodwill and intangibles with indefinite useful lives are reviewed for impairment at least annually by assessing the recoverable amount of each cash generating unit or groups of cash generating units to which the goodwill or the indefinite life intangible relates. The recoverable amount is the higher of fair value less costs to sell and value in use. When the recoverable amount of the cash generating units is less than the carrying amount an impairment loss is recognized immediately as selling and administrative expenses. Impairment losses related to goodwill cannot be reversed.

Long-lived tangible and intangible assets are reviewed for impairment when events or changes in circumstances indicate that the carrying value of the assets may not be recoverable. If such an indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). The recoverable amount is the higher of fair value less costs to sell and value in use. Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash generating unit(s) to which the asset belongs. The Company has primarily determined a cash generating unit to be an individual store or theatre. Corporate assets such as head offices and distribution centres do not individually generate separate cash inflows and are therefore aggregated for testing with the locations they service. When the recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, the carrying amount (or cash generating unit) is reduced to the recoverable amount. An impairment loss is recognized as selling and administrative expenses immediately in net earnings or loss.

Where an impairment loss subsequently reverses, other than related to goodwill, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate, but is limited to the carrying amount that would have been determined if no impairment loss had been recognized in prior years. A reversal of impairment loss is recognized immediately in net earnings or loss.

In the process of measuring expected future cash flows, management makes assumptions about future growth of profits. These assumptions relate to future events and circumstances. The actual results may vary and may cause significant adjustments to the Company's assets in the subsequent financial years.

(r) Customer loyalty programs

A Club Sobeys loyalty card program (the "Program") was launched during fiscal 2009. The Program allows members to earn points on their purchases in certain Sobeys stores. As well, a Club Sobeys credit card entitles the customer to earn points for their purchases on the credit card. Members can redeem these points, in accordance with the Program rewards schedule, for discounts on future grocery purchases, purchase products or services, or elect to convert the points into Aeroplan miles which is a loyalty program run by a third party. During fiscal 2010, a loyalty card program, Club Thrifty Foods, was launched. It follows a similar point earning and redemption structure as the Club Sobeys loyalty card program. The fair value of loyalty points awarded is accounted for as a separate element of the sales transaction and recognition of revenue is deferred until the awards are

redeemed after adjustment for the number of points expected never to be redeemed based on the expected future activity. Fair value is determined by reference to the value for which the points can be redeemed. The program deferred revenue is included in accounts payable and accrued liabilities on the Company's consolidated balance sheets.

An AIR MILES® loyalty program is also used by the Company. AIR MILES® are earned by certain Sobeys customers based on purchases in stores. The Company pays a per point fee under the terms of the agreement with AIR MILES®.

(s) Provisions

Provisions are recognized when there is a present legal or constructive obligation as a result of a past event, for which it is probable that a transfer of economic benefits will be required to settle the obligation, and where a reliable estimate can be made of the amount of the obligation. Provisions are discounted using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the liability, if material. Where discounting is used, the increase in the provision due to passage of time ("unwinding of the discount") is recognized within finance costs in the consolidated statements of earnings.

(t) Borrowing costs

Borrowing costs primarily comprise interest on the Company's debts. Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as a component of the cost of the asset to which it is related. All other borrowing costs are expensed in the period in which they are incurred and are reported within finance costs.

(u) Deferred revenue

Deferred revenue consists of long-term supplier purchase agreements and gains on sale and leaseback transactions relating to certain finance leases. Deferred revenue is included in other long-term liabilities and is taken into income on a straight-line basis over the term of the related agreements.

(v) Employee benefits

(i) Short-term employment benefits

Short-term employee benefits include wages, salaries, compensated absences, profit-sharing and bonuses. Short-term employee benefits are measured on an undiscounted basis and are recorded as selling and administrative expenses as the related service is provided.

(ii) Post-employment benefits

The cost of the Company's pension benefits for defined contribution plans are expensed at the time active employees are compensated. The cost of defined benefit pension plans and other benefit plans is accrued based on actuarial valuations, which are determined using the projected unit credit method pro-rated on service and management's best estimate of the expected long-term rate of return on plan assets, salary escalation, retirement ages, and expected growth rate of health care costs.

Current market values are used to value benefit plan assets. The obligation related to employee future benefits is measured using current market interest rates, assuming a portfolio of Corporate AA bonds with terms to maturity that, on average, match the terms of the obligation.

The impact of plan amendments is recognized as an expense and amortized on a straight-line basis over the average period until the benefits are vested. To the extent that increases in the obligation related to past service have vested immediately following the changes in the original plan, the Company recognizes past service cost immediately.

In measuring its defined benefit liability the Company will recognize all of its actuarial gains and losses immediately into other comprehensive income.

(iii) Termination benefits

When the Company has committed to a formalized plan to either terminate employment prior to normal retirement or to provide termination benefits as a result of offers made from the rationalization of business processes, termination benefits are recognized as an expense.

(w) Revenue recognition

Sales are recognized at the point-of-sale. Sales include revenues from customers through corporate stores and theatres operated by the Company and consolidated SPEs, and revenue from sales to non-SPE franchised stores, affiliated stores and independent accounts. Revenue received from non-SPE franchised stores, affiliated stores and independent accounts is mainly derived from the sale of product. The Company also collects franchise fees under two types of arrangements. Franchise fees contractually due based on the dollar value of product shipped are recorded as revenue when the product is shipped. Franchise fees contractually due based on the franchisee's retail sales are recorded as revenue weekly upon invoicing based on the franchisee's retail sales.

(x) Vendor allowances

The Company receives allowances from certain vendors whose products are purchased for resale. Included in these vendor programs are allowances for volume purchases, exclusivity allowances, listing fees, and other allowances. The Company recognizes these allowances as a reduction of cost of sales and related inventories. Certain allowances are contingent on the Company achieving minimum purchase levels and these allowances are recognized when it is probable that the minimum purchase level will be met, and the amount of allowance can be estimated.

(y) Interest and dividend income

Interest income and expenses are reported on an accrual basis using the effective interest method. Dividend income is recognized when the right to receive payment has been established.

(z) Earnings per share

Basic earnings per share is calculated by dividing the earnings available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share is calculated by adjusting the weighted average number of common shares outstanding for the dilutive effect of employee stock options.

(aa) Stock-based compensation

The Company operates equity settled stock-based compensation plans for certain employees.

All goods and services received in exchange for the grant of any stock-based payments are measured at their fair values. Where employees are rewarded using stock-based payments, the fair values of employees' services are determined indirectly by reference to the fair value of the equity instruments granted (Note 27).

(bb) Accounting standards and policies adopted during fiscal 2013

(i) Financial instruments: disclosures

In October 2010, the IASB issued amendments to IFRS 7, "Financial Instruments: Disclosures", which require increased disclosure for transactions involving the transfer of financial assets. The amendments became effective in the Company's first quarter of fiscal 2013. No new disclosures were required for these consolidated financial statements as a result of implementing these amendments.

(ii) Deferred tax: recovery of underlying assets

In December 2010, the IASB issued amendments to IAS 12, "Income Taxes", which introduce an exception to the general measurement requirements of IAS 12 in respect of investment properties measured at fair value. The amendments became effective in the Company's first quarter of fiscal 2013. These amendments did not impact the Company as its investment properties are not measured at fair value.

(cc) Future accounting policies

(i) Financial instruments

In November 2009, the IASB issued IFRS 9, "Financial Instruments", which will ultimately replace IAS 39, "Financial Instruments: Recognition and Measurement". The replacement is a multi-phase project with the objective of improving and simplifying the reporting for financial instruments. The issuance of IFRS 9 is the first phase of the project, which provides guidance on the classification and measurement of financial assets and financial liabilities. IFRS 9 is effective for annual periods beginning on or after January 1, 2015.

(ii) Consolidated financial statements

In May 2011, the IASB issued IFRS 10, "Consolidated Financial Statements", which establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. The objective of IFRS 10 is to define principles of control and establish the basis of determining when and how an entity should be included within a set of consolidated financial statements. It replaces portions of IAS 27, "Consolidated and Separate Financial Statements", and supersedes Standing Interpretations Committee ("SIC") 12, "Consolidation – Special Purpose Entities", completely and is effective for annual periods beginning on or after January 1, 2013. The Company has evaluated the impact of this standard on its "Investments in associates" and has determined that while having significant influence on these investments, the criteria for control are not met and therefore equity accounting for these investments continues to be appropriate. Management has also evaluated the impact of this standard as it applies to SPE's, and does not expect it to have a significant impact.

(iii) Joint arrangements

In May 2011, the IASB issued IFRS 11, "Joint Arrangements", which establishes principles for financial reporting by entities that have an interest in a joint arrangement. IFRS 11 supersedes IAS 31, "Interest in Joint Ventures", and SIC 13, "Jointly Controlled Entities – Non Monetary Contributions by Venturers". Through an assessment of the rights and obligations in an arrangement, the IFRS establishes principles to determine the type of joint arrangement and guidance for financial reporting activities required by the entities that have an interest in arrangements that are jointly controlled and is effective for annual periods beginning on or after January 1, 2013. The adoption of this standard is not expected to have a significant impact on the Company's financial statements.

(iv) Disclosure of interests in other entities

In May 2011, the IASB issued IFRS 12, "Disclosure of Interests in Other Entities", which outlines disclosure requirements for an entity that has interests in a subsidiary, a joint arrangement, an associate and an unconsolidated structured entity. IFRS 12 requires an entity to disclose information that enables users of its financial statements to evaluate the nature of, and risks associated with, its interest in other entities and the effects of those interests on its financial position, financial performance and cash flows. It is effective for annual periods beginning on or after January 1, 2013. The adoption of this standard will result in additional financial statement note disclosures relating to the Company's investments in associates and joint ventures.

(v) Fair value measurement

In May 2011, the IASB issued IFRS 13, "Fair Value Measurement", which defines fair value, sets out in a single IFRS a framework for measuring fair value and identifies required disclosures about fair value measurements. This IFRS is effective for annual periods beginning on or after January 1, 2013.

(vi) Employee benefits

In June 2011, the IASB issued amendments to IAS 19, "Employee Benefits", which eliminate the option to defer the recognition of actuarial gains and losses, streamline the presentation of changes in assets and liabilities arising from defined benefit plans to be presented in other comprehensive income and enhance disclosure requirements around the characteristics of the defined benefit plans and risks associated with participation in those plans. The amendments are effective for annual periods beginning on or after January 1, 2013. The preliminary expected impact of the changes to this standard for the 52 weeks ended May 4, 2013 are a reduction in pre-tax earnings of \$7.1 and a pre-tax increase to other comprehensive income of \$6.4.

(vii) Presentation of financial statements

In May 2012, the IASB issued amendments to IAS 1, "Presentation of Financial Statements", clarifying the requirements for comparative information. The amendments are effective for annual periods beginning on or after January 1, 2013.

The Company is currently evaluating the impact of these new standards and amendments on its consolidated financial statements.

4. INVENTORIES

The cost of inventories recognized as an expense during the year was \$13,350.1 (2012 – \$12,159.7). The Company has recorded during the year \$8.6 (2012 – \$13.1) as an expense for the write-down of inventories below cost to net realizable value for inventories on hand as at May 4, 2013. There were no reversals of inventories written down previously (2012 – \$nil).

5. LOANS AND OTHER RECEIVABLES

	May 4, 2013	May 5, 2012
Loans and mortgages receivable	\$ 60.3	\$ 70.5
Notes receivable and other	59.7	31.1
	120.0	101.6
Less amount due within one year	66.2	41.0
	\$ 53.8	\$ 60.6

Loans and mortgages receivable represent long-term financing to certain retail associates. These loans and mortgages are primarily secured by inventory, fixtures and equipment, bear various interest rates, and have repayment terms up to 10 years. The carrying amount of the loans and mortgages receivable approximates fair value based on the variable interest rates charged on the loans.

Loans receivable from officers and employees of \$2.6 (2012 – \$2.7) under the Company's share purchase plan are classified as notes receivable and other. Loan repayments will result in a corresponding decrease in notes receivable and other. The loans are non-interest bearing and non-recourse, secured by 96,489 (2012 – 96,489) Non-Voting Class A shares. The market value of the shares at May 4, 2013 was \$6.6 (2012 – \$5.5).

6. INVESTMENTS, AT EQUITY

The carrying values of the investments, at equity are as follows:

	May 4, 2013	May 5, 2012
Investment in associates		
Crombie Real Estate Investment Trust ("Crombie REIT")	\$ 195.2	\$ 167.4
Canadian real estate partnerships	136.0	99.7
U.S. real estate partnerships	67.2	39.1
Investment in joint ventures		
Canadian Digital Cinema Partnership (Note 23)	9.2	7.2
Total	\$ 407.6	\$ 313.4

The fair values of the investments based on a stock exchange are as follows:

	May 4, 2013	May 5, 2012
Crombie REIT	\$ 622.7	\$ 520.7

The Canadian and U.S. real estate partnerships and Canadian Digital Cinema Partnership are not publicly listed on a stock exchange and hence published price quotes are not available.

The Company's carrying value of its investment in Crombie REIT is as follows:

	May 4, 2013	May 5, 2012
Balance, beginning of year	\$ 167.4	\$ 91.0
Equity earnings	13.7	19.7
Share of other comprehensive income	2.4	1.8
Distributions	(33.4)	(28.2)
Deferral of gains on sale of property	(11.4)	(10.3)
Interest acquired in Crombie REIT	38.3	83.0
Dilution gain (Note 19)	18.2	10.4
Balance, end of year	\$ 195.2	\$ 167.4

The Company's carrying value of its investment in Canadian real estate partnerships is as follows:

	May 4, 2013	May 5, 2012
Balance, beginning of year	\$ 99.7	\$ 88.0
Equity earnings	23.5	28.9
Distributions	(34.6)	(18.3)
Investment	45.8	1.1
Deferral of gains on sale of property to Sobeys	1.6	–
Balance, end of year	\$ 136.0	\$ 99.7

The Company's carrying value of its investment in U.S. real estate partnerships is as follows:

	May 4, 2013	May 5, 2012
Balance, beginning of year	\$ 39.1	\$ 33.1
Equity earnings	6.1	1.1
Distributions	(13.8)	(1.2)
Foreign currency translation adjustment	1.0	0.9
Investment	34.8	5.2
Balance, end of year	\$ 67.2	\$ 39.1

The Company's carrying value of its investment in Canadian Digital Cinema Partnership is as follows:

	May 4, 2013	May 5, 2012
Balance, beginning of year	\$ 7.2	\$ –
Transfer of equipment	–	7.7
Equity earnings	0.7	(0.4)
Share of other comprehensive income	(0.1)	(0.1)
Investment	1.4	–
Balance, end of year	\$ 9.2	\$ 7.2

The aggregate amounts of the investments, at equity can be summarized as follows:

Investment in Associates

	May 4, 2013	May 5, 2012
Assets		
Current	\$ 504.9	\$ 454.3
Non-current	2,268.1	1,720.3
Liabilities		
Current	\$ 225.3	\$ 156.6

Finance leases

The Company has various property leases for store locations that are held under finance leases with a net carrying value of \$4.3 as at May 4, 2013 (2012 – \$4.6). These leases are included in buildings.

The Company has equipment leases under finance leases with a net carrying value of \$22.1 as at May 4, 2013 (2012 – \$30.3). These leases are included in equipment.

Assets under construction

During the year the Company capitalized borrowing costs of \$6.0 (2012 – \$6.1) on indebtedness related to property and equipment under construction. The Company used capitalization rates from 3.5% to 6.0% (2012 – 5.8% to 7.0%).

Security

As at May 4, 2013 the net carrying value of property pledged as security for borrowings is \$111.3 (2012 – \$113.7).

Impairment of property and equipment

Property and equipment is reviewed each reporting period for events or changes in circumstances which indicate that the carrying value of the assets may not be recoverable. The review is performed by assessing the recoverable amount of each cash generating unit or groups of cash generating units to which the property and equipment relates. The recoverable amount is the higher of fair value less costs to sell and value in use. When the recoverable amount of the cash generating units is less than the carrying amount an impairment loss is recognized.

Recoverable amounts are based on value in use calculations, determined using three year cash flow projections from the Company's latest internal forecasts as presented to the Board of Directors. Key assumptions used in determining value in use include those regarding discount rates, growth rates, and expected changes in cash flows. Management estimates discount rates using pre-tax rates that reflect current market assessments of the time value of money and risks specific to the cash generating units.

Forecasts are projected beyond three years based on long-term growth rates ranging from 3.0 to 5.0 percent. Discount rates are calculated on a pre-tax basis and range from 8.0 to 15.0 percent.

Impairment losses arise when the carrying amount of the assets is higher than the greater of the present value of cash flows of a cash generating unit and its fair value less costs to sell. Impairment losses of \$10.0 were recorded in the year ended May 4, 2013 (2012 – \$4.6).

Impairment reversals of \$3.5 were recorded in the year ended May 4, 2013 (2012 – \$1.3).

9. INVESTMENT PROPERTY

Investment property is comprised primarily of commercial properties owned by the Company held for income generating purposes, rather than for the principal purpose of the Company's operating activities.

	May 4, 2013	May 5, 2012
Cost		
Opening balance	\$ 102.2	\$ 90.2
Additions	10.7	13.8
Transfers	4.6	18.7

Disposals	(1.4)	(19.3)
Closing balance	\$ 112.1	\$ 102.2
Accumulated depreciation and impairment losses		
Opening balance	\$ 15.3	\$ 16.4
Depreciation	0.6	0.7
Impairment losses	0.4	–
Disposals	(1.1)	(1.8)
Closing balance	\$ 15.2	\$ 15.3
Net carrying value	\$ 96.9	\$ 86.9
Fair value	\$ 136.9	\$ 131.0

An external, independent valuation company, having appropriate recognized professional qualifications and experience assisted in determining the fair value of investment property at May 4, 2013 and at May 5, 2012. Additions to investment property through acquisition are transacted at fair value and therefore carrying value equals fair value. Properties reclassified from property and equipment are valued for disclosure purposes using comparable market information, internal valuation methodologies, or the use of an external independent valuation company.

Rental income from investment property included in the consolidated statements of earnings amounted to \$3.8 for the year ended May 4, 2013 (2012 – \$4.1).

Direct operating expenses (including repairs and maintenance but excluding depreciation expense) arising from investment property that generated rental income amounted to \$2.2 for the year ended May 4, 2013 (2012 – \$1.5). Direct operating expenses (including repairs and maintenance but excluding depreciation expense) arising from non-income producing investment property amounted to \$1.4 for the year ended May 4, 2013 (2012 – \$1.7). All direct operating expenses for investment properties are included in selling and administrative expenses on the consolidated statements of earnings.

Impairment of investment property follows the same methodology as property and equipment (Note 8). For the year ended May 4, 2013 impairment losses of \$0.4 (2012 – \$nil) and reversals of \$nil (2012 – \$nil) were recorded.

In addition to development costs capitalized related to software, the Company included in selling and administrative expenses \$6.7 of research and development costs (2012 – \$4.7).

Impairment of intangibles follows the same methodology as property and equipment (Note 8). For the year ended May 4, 2013 impairment losses of \$nil (2012 – \$1.9) and reversals of \$nil (2012 – \$nil) were recorded.

Included in intangibles as at May 4, 2013, and May 5, 2012 are the following amounts with indefinite useful lives: Brand names – \$172.8; Loyalty programs \$11.4; and Private labels \$59.5 all of which relate to the food retailing segment. Impairment of these intangibles is assessed annually on the same basis as goodwill as noted in Note 11 below.

11. GOODWILL

	May 4, 2013	May 5, 2012
Opening balance	\$ 1,302.1	\$ 1,220.0
Additions from business acquisitions	8.3	82.1
Closing balance	\$ 1,310.4	\$ 1,302.1

Goodwill arising from business combinations is allocated at the lowest level within the organization at which it is monitored by management to make business decisions and should not be larger than an operating segment before aggregation. Therefore, goodwill has been allocated to the following operating segments:

	May 4, 2013	May 5, 2012
Food retailing	\$ 1,268.7	\$ 1,260.9
Investments and other operations	41.7	41.2
Total	\$ 1,310.4	\$ 1,302.1

Impairment of goodwill

Goodwill is subject to impairment testing on an annual basis. However, if indicators of impairment are present, the Company will review goodwill for impairment when such indicators arise. The Company performs an annual review during its first quarter and no impairment was recorded (2012 – \$nil). In performing the review, the Company determined the recoverable amount of goodwill based on fair value less any costs that would be incurred should the Company sell a cash generating unit to which goodwill would be apportioned from the operating segment. The key assumption used by management to determine the fair value of the cash generating unit includes industry earnings multiples in a range from 7.0 to 12.5.

12. INCOME TAXES

Income tax expense varies from the amount that would be computed by applying the combined federal and provincial statutory tax rate as a result of the following:

	May 4, 2013	May 5, 2012
Earnings before income taxes	\$ 534.0	\$ 474.4
Effective combined statutory income tax rate	26.9%	27.6%
Income tax expense according to combined statutory income tax rate	143.7	130.9
Income taxes resulting from:		
Non-deductible items	1.3	1.2
Capital items	(3.1)	(3.2)
Non-taxable items	(1.2)	(0.5)
Change in tax rates	1.2	–
Other	(1.8)	(6.1)
Total income taxes, combined effective tax rate of 26.2% (2012 – 25.8%)	\$ 140.1	\$ 122.3

Current year income tax expense attributable to net earnings consists of:

	May 4, 2013	May 5, 2012
Current tax expense	\$ 156.8	\$ 102.0
Deferred tax expense:		
Origination and reversal of temporary differences	(17.9)	20.3
Change in tax rates	1.2	–
Total	\$ 140.1	\$ 122.3

Deferred taxes arising from temporary differences and unused tax losses can be summarized as follows:

May 4, 2013	Recognized in:			Closing Balance
	Opening Balance	Other Comprehensive Income	Net Earnings

Deferred tax liabilities	\$ (177.0)	\$ 14.0	\$ (27.0)	\$ (190.0)

All deferred tax assets (including tax losses and other tax credits) have been recognized in the consolidated balance sheets. The amount of deferred tax assets and deferred tax liabilities that are expected to be settled beyond the next 12 months is \$117.5.

13. BANK INDEBTEDNESS

As security for certain bank loans, the Company has provided an assignment of certain marketable securities and, in certain subsidiaries and joint ventures, general assignments of receivables and leases, first floating charge debentures on assets and the assignment of proceeds of fire insurance policies. The interest rate at May 4, 2013 was 3.9% (2012 – 4.7%).

14. PROVISIONS

The provisions carrying amounts are comprised of the following:

May 4, 2013	Lease Contracts	Legal	Environmental	Other	Total

Lease contracts

Lease contract provisions are recorded when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the obligations under the contract. The Company records onerous contract provisions for closed store and theatre locations where it has entered into a lease contract. The provision is measured at the lower of the expected cost to terminate the lease and the expected net cost of continuing the contract. The net cost is derived by considering both the lease payment and sub-lease income received. Once the store or theatre is closed, a liability is recorded to reflect the present value of the expected liability associated with any lease contract and other contractually obligated costs. Discounting of provisions resulting from lease contracts has been calculated using pre-tax discount rates ranging between 7.0 and 9.0 percent.

Legal costs

Legal provisions relate to claims of \$5.6 that are outstanding as at May 4, 2013 (2012 – \$6.9) that arose in the ordinary course of business.

Environmental costs

In accordance with legal and environmental policy requirements the Company has recorded provisions for locations requiring environmental restoration. These provisions primarily relate to decommissioning liabilities recorded for gas station locations owned by the Company at the net present value of the estimated future remediation costs. Discounting of environmental related provisions has been calculated using pre-tax discount rates ranging between 4.0 and 15.0 percent.

Other costs

The Company continues to complete the rationalization of administration functions and has incurred costs associated with the development of a new distribution centre in Terrebonne, Québec. These provisions relate mainly to severance costs.

The Company has obligations to provide various forms of support to Crombie REIT pursuant to various agreements between the parties. These amounts are included in other provisions.

15. LONG-TERM DEBT

	May 4, 2013	May 5, 2012
First mortgage loans, weighted average interest rate 7.87%, due 2013 – 2021	\$ 41.9	\$ 44.4
Medium term notes, Series C, interest rate 7.16%, due February 26, 2018	100.0	100.0
Medium term notes, Series D, interest rate 6.06%, due October 29, 2035	175.0	175.0
Medium term notes, Series E, interest rate 5.79%, due October 6, 2036	125.0	125.0
Medium term notes, Series F, interest rate 6.64%, due June 7, 2040	150.0	150.0
Sinking fund debentures, weighted average interest rate 9.33%, due 2013 – 2016	28.3	31.4
Notes payable and other debt primarily at interest rates fluctuating with the prime rate	125.9	133.6
Credit facility, due July 23, 2012, floating interest rate tied to bankers' acceptance rates	–	200.0
Credit facility, due June 30, 2015, floating interest rate tied to bankers' acceptance rates	181.0	129.0
	927.1	1,088.4
Unamortized transaction costs	(2.3)	(2.7)
Finance lease obligations, weighted average interest rate 5.84%, due 2013 – 2040	38.7	40.7
	963.5	1,126.4
Less amount due within one year	47.6	237.3
Balance, end of year	\$ 915.9	\$ 889.1

First mortgage loans are secured by land, buildings and specific charges on certain assets. Finance lease obligations are secured by the related finance lease asset. Medium term notes are unsecured.

Sobeys Group Inc., an indirect subsidiary of Sobeys, has provided its debenture holders with a floating charge over all its assets, subject to permitted encumbrances, a general assignment of book debts, and the assignment of proceeds of insurance policies.

Sinking fund debenture payments are required on an annual basis. The proportionate share of related debt is retired with these repayments.

On July 23, 2007, Sobeys established a new unsecured revolving term credit facility maturing July 23, 2012. Under the terms of the credit agreement entered into between Sobeys and a banking syndicate, a revolving term credit facility of \$300.0 was established and increased by an additional \$300.0, resulting in a total authorized credit facility of \$600.0. On February 14, 2012, Sobeys entered into an amended and restated credit agreement. The agreement provides for an unsecured revolving term credit facility of \$450.0, and a \$200.0 unsecured non-revolving term credit facility resulting in total authorized credit facilities of \$650.0. The revolving term credit facility matures on February 14, 2017, and the non-revolving term credit facility matured and was repaid on July 23, 2012. Interest payable on the revolving term credit facility fluctuates with changes in the bankers' acceptance rate, Canadian prime rate or London InterBank Offered Rate ("LIBOR"). Sobeys had also issued \$80.6 in letters of credit against the facility at May 4, 2013 (2012 – \$52.7).

On June 4, 2010, the Company renewed its credit facilities which were reduced from \$650.0 to \$450.0. On August 22, 2011, the Company extended the term of its credit facilities to a maturity date of June 30, 2014. On September 26, 2012, the Company further extended the term of its credit facilities to a maturity date of June 30, 2015. At May 4, 2013, the credit facilities had a balance outstanding of \$181.0 (May 5, 2012 – \$129.0). The credit facilities are subject to certain financial covenants. Interest on the debt varies based on the designation of the loan (bankers' acceptances ("BA") rate loans, Canadian prime rate loans, U.S. base rate loans or LIBOR loans), fluctuations in the underlying rates, and in the case of the BA rate loans or LIBOR loans, the margin applicable to the financial covenants.

Principal debt retirement in each of the next five fiscal years is as follows:

2014	\$ 37.0
2015	41.0
2016	199.2
2017	10.0
2018	105.7
Thereafter	534.2

Finance lease liabilities

Finance lease liabilities are payable as follows:

	Future Minimum Lease Payments	Interest	Present Value of Minimum Lease Payments
2014	\$ 12.3	\$ 1.7	\$ 10.6
2015	8.0	1.2	6.8
2016	6.2	1.0	5.2
2017	6.1	0.7	5.4
2018	4.0	0.5	3.5
Thereafter	9.6	2.4	7.2
Total	\$ 46.2	\$ 7.5	\$ 38.7

During fiscal 2013 the Company increased its finance lease obligation by \$8.8 (2012 – \$4.2) with a similar increase in assets under finance leases. These additions are non-cash in nature, therefore have been excluded from the statements of cash flows.

16. OTHER LONG-TERM LIABILITIES

	May 4, 2013	May 5, 2012
Deferred lease obligation	\$ 104.0	\$ 99.8
Accrued benefit liability (Note 17)	61.3	69.1
Employee future benefits (Note 17)	133.9	143.3
Deferred revenue	5.3	7.0
Other	3.5	5.4
Total	\$ 308.0	\$ 324.6

17. EMPLOYEE FUTURE BENEFITS

The Company has a number of defined benefit and defined contribution plans providing pension and other post-retirement benefits to most of its employees.

Defined contribution pension plans

The contributions required by the employee and the employer are specified. The employee's pension depends on what level of retirement income (for example, annuity purchase) that can be achieved with the combined total of employee and employer contributions and investment income over the period of plan membership, and the annuity purchase rates at the time of the employee's retirement.

Other benefit plans

The Company also offers certain employee post-retirement and post-employment benefit plans which are not funded and include health care, life insurance, and dental benefits.

Defined benefit pension plans

The ultimate retirement benefit is defined by a formula that provides a unit of benefit for each year of service. Employee contributions, if required, pay for part of the cost of the benefit, but the employer contributions fund the balance. The employer contributions are not specified or defined within the plan text, they are based on the result of actuarial valuations which determine the level of funding required to meet the total obligation as estimated at the time of the valuation.

The Company uses April 30 as an actuarial valuation date and May 1 as a measurement date for accounting purposes, for its defined benefit pension plans.

	Most Recent Valuation Date	Next Required Valuation Date
Retirement Pension Plan	May 1, 2011	May 1, 2014
Senior Management Pension Plan	May 1, 2011	May 1, 2014
Other Benefit Plans	May 1, 2012	May 1, 2015

Defined contribution plans

The total expense, and cash contributions, for the Company's defined contribution plans was \$25.2 for the year ended May 4, 2013 (2012 – \$25.3).

Defined benefit plans

Information about the Company's defined benefit plans, in aggregate, is as follows:

	Pension Benefit Plans		Other Benefit Plans	
	May 4, 2013	May 5, 2012	May 4, 2013	May 5, 2012
Accrued benefit obligation				
Balance, beginning of year	\$ 301.0	\$ 268.4	\$ 143.3	\$ 122.3
Current service cost, net of employee contributions	1.7	1.7	1.4	1.8
Interest cost	12.3	13.6	5.4	6.3
Employee contributions	0.1	0.1	–	–
Benefits paid	(22.4)	(19.7)	(4.3)	(4.5)
Past service costs	1.0	–	–	–
Actuarial losses (gains) included in other comprehensive income	16.9	36.9	(11.9)	17.4
Balance, end of year	\$ 310.6	\$ 301.0	\$ 133.9	\$ 143.3
Plan assets				
Market value, beginning of year	\$ 230.9	\$ 234.4	\$ –	\$ –
Expected return on plan assets	15.8	16.1	–	–
Employer contributions	9.6	10.7	4.3	4.5
Employee contributions	0.1	0.1	–	–
Benefits paid	(22.4)	(19.7)	(4.3)	(4.5)
Actuarial gains (losses) included in other comprehensive income	13.6	(10.7)	–	–
Market value, end of year	\$ 247.6	\$ 230.9	\$ –	\$ –

	Pension Benefit Plans		Other Benefit Plans	
	May 4, 2013	May 5, 2012	May 4, 2013	May 5, 2012
Funded status				
Total market value of plan assets	\$ 247.6	\$ 230.9	\$ –	\$ –
Present value of unfunded obligations	(46.1)	(42.7)	(133.9)	(143.3)
Present value of partially funded obligations	(264.5)	(258.2)	–	–
Deficit	(63.0)	(70.0)	(133.9)	(143.3)
Unamortized past service cost	1.7	0.9	–	–
Accrued benefit liabilities	\$ (61.3)	\$ (69.1)	\$ (133.9)	\$ (143.3)

Accrued benefit liabilities have been recognized within other long-term liabilities on the consolidated balance sheets.

	Pension Benefit Plans		Other Benefit Plans	
	May 4, 2013	May 5, 2012	May 4, 2013	May 5, 2012
Expenses				
Current service cost, net of employee contributions	\$ 1.7	\$ 1.7	\$ 1.4	\$ 1.8
Interest cost	12.3	13.6	5.4	6.3
Expected return on plan assets	(15.8)	(16.1)	–	–
Actuarial loss (gain) recognized	–	–	0.1	(0.4)
Past service costs	0.3	0.1	–	–
(Income) expense before adjustments	\$ (1.5)	\$ (0.7)	\$ 6.9	\$ 7.7

Current and past service costs have been recognized within selling and administrative expenses, whereas interest costs and expected return on plan assets have been recognized within finance costs, net in the consolidated statements of earnings.

Actuarial gains and losses recognized directly in equity:

Actuarial gain (losses) recognized directly in other comprehensive income	May 4, 2013	May 5, 2012
Cumulative amount, beginning of year	\$ (63.4)	\$ 1.9
Recognized during the year	8.8	(65.3)
Cumulative amount, end of year	\$ (54.6)	\$ (63.4)

The significant actuarial assumptions adopted in measuring the Company's accrued benefit obligations are as follows (weighted average assumptions as of May 4, 2013):

	Pension Benefit Plans		Other Benefit Plans	
	May 4, 2013	May 5, 2012	May 4, 2013	May 5, 2012
Discount rate	3.75%	4.25%	4.00%	4.25%
Expected long-term rate of return on plan assets	7.00%	7.00%		
Rate of compensation increase	4.00%	4.00%		

For measurement purposes, an 8.00 percent fiscal 2013 annual rate of increase in the per capita cost of covered health care benefits was assumed (2012 – 8.50 percent). The cumulative rate expectation to 2019 is 5.00 percent.

These assumptions were developed by management under consideration of expert advice provided by independent actuarial appraisers. These assumptions have led to the amounts determined as the Company's accrued benefit obligations and should be regarded as management's best estimate. However, the actual outcome may vary. Estimation uncertainties exist especially in regards to medical cost trends, which may vary significantly in future appraisals of the Company's defined benefit and other benefit obligations.

Expected returns on plan assets is based on a weighted average of expected returns of the various assets in the plan and include an analysis of historical returns and predictions about future returns. The expected long-term rate of return is based on the portfolio as a whole and not the sum of the individual asset categories. Expected returns on plan assets are estimated by the independent actuaries in close co-ordination with plan administrators.

The table below outlines the sensitivity of the fiscal 2013 key economic assumptions used in measuring the accrued benefit plan obligations and related expenses of the Company's pension and other benefit plans. The sensitivity of each key assumption has been calculated independently. Changes to more than one assumption simultaneously may amplify or reduce the impact on the accrued benefit obligations or benefit plan expenses.

	Pension Benefit Plans		Other Benefit Plans	
	Benefit Obligations	Benefit Cost ⁽¹⁾	Benefit Obligations	Benefit Cost ⁽¹⁾
Expected long-term rate of return on plan assets		7.00%		
Impact of: 1% increase		\$ (2.2)		
Impact of: 1% decrease		\$ 2.2		
Discount rate ⁽²⁾	3.75%	3.75%	4.00%	4.00%
Impact of: 1% increase	\$ (35.6)	\$ 0.9	\$ (18.5)	\$ 0.1
Impact of: 1% decrease	\$ 40.3	\$ (1.4)	\$ 23.1	\$ (0.1)
Growth rate of health care costs ⁽³⁾			8.00%	8.00%
Impact of: 1% increase			\$ 18.2	\$ 1.0
Impact of: 1% decrease			\$ (14.9)	\$ (0.8)

(1) Reflects the impact on the current service cost, interest cost, and expected return on assets.

(2) 3.75 percent for the Senior Management Plan, Oshawa Sobeys Employee Pension Plan, and Post-Retirement Benefits and 3.50 percent for the Post-Employment Benefits Plan.

(3) Gradually decreasing to 5.00 percent in 2019 and remaining at that level thereafter.

The asset mix of the defined benefit pension plans as at year end is as follows:

	May 4, 2013	May 5, 2012
Debt securities, cash and cash equivalents	25.0%	25.0%
Equity securities	75.0%	75.0%
Total investments	100.0%	100.0%

Within these securities are investments in Empire Non-Voting Class A shares. The market value of these shares at year end is as follows:

	May 4, 2013	% of Plan Assets	May 5, 2012	% of Plan Assets
Empire Company Limited Non-Voting Class A shares	\$ 102.8	8.6%	\$ 87.2	8.2%

The actual return on plan assets was \$29.3 for the year ended May 4, 2013 (2012 – \$5.4).

The historical movement and history of experience gains and losses in the defined benefit pension plans and other benefit plans are as follows:

	May 4, 2013	May 5, 2012
Market value of plan assets	\$ 247.6	\$ 230.9
Present value of accrued benefit obligations	(444.5)	(444.2)
Plan deficit	\$ (196.9)	\$ (213.3)
Experience adjustments arising on plan assets	\$ 13.6	\$ (10.7)
Experience adjustments arising on plan liabilities	\$ 15.8	\$ 0.6

Management's best estimate of contributions expected to be paid to the defined benefit plans during the annual period beginning on May 5, 2013 and ending on May 3, 2014 is \$8.4.

18. CAPITAL STOCK

Authorized	Number of Shares	
	May 4, 2013	May 5, 2012
2002 Preferred shares, par value of \$25 each, issuable in series	991,980,000	991,980,000
Non-Voting Class A shares, without par value	257,044,056	258,593,856
Class B common share, without par value, voting	40,800,000	40,800,000

Issued and outstanding	Number of Shares	Number of Shares	
		May 4, 2013	May 5, 2012
Preferred shares, Series 2		\$ -	\$ -
Non-Voting Class A	33,687,747	311.7	311.7
Class B common	34,260,763	7.6	7.6
Total		\$ 319.3	\$ 319.3

The Series 2 Preferred shares were redeemable at par. During fiscal 2012, the Company redeemed all of its Preferred shares, Series 2 at a cost of \$4.1.

Under certain circumstances, where an offer (as defined in the share conditions) is made to purchase Class B common shares, the holders of the Non-Voting Class A shares shall be entitled to receive a follow-up offer at the highest price per share paid, pursuant to such offer to purchase Class B common shares.

During fiscal 2013, the Company paid preferred dividends of \$nil (2012 – \$0.1) and common dividends of \$65.2 (2012 – \$61.1) to its equity holders. This represents a payment of \$0.42 per share in 2012 for preference share holders, and \$0.96 per share (2012 – \$0.90 per share) for common share holders.

19. OTHER INCOME

	May 4, 2013	May 5, 2012
Gain on disposal of assets	\$ 29.0	\$ 22.2
Dilution gains	18.2	10.4
Investment income	9.6	1.2
Total	\$ 56.8	\$ 33.8

20. EMPLOYEE BENEFITS EXPENSE

	May 4, 2013	May 5, 2012
Wages, salaries and other short-term employment benefits	\$ 2,012.5	\$ 1,946.4
Post-employment benefits	28.7	28.4
Termination benefits	10.2	5.9
Total	\$ 2,051.4	\$ 1,980.7

21. FINANCE COSTS, NET

Finance income and finance costs are reported on a net basis in the consolidated statements of earnings.

	May 4, 2013	May 5, 2012
Finance income		
Interest income from cash and cash equivalents	\$ 3.0	\$ 3.8
Fair value gain on cash flow hedges	0.2	–
Fair value gains on other financial assets	1.6	1.1
Total finance income	4.8	4.9
Finance costs		
Interest expense on financial liabilities measured at amortized cost	51.2	53.4
Fair value losses on forward contracts	0.8	–
Losses on cash flow hedges reclassified from other comprehensive income	1.7	7.6
Net pension finance costs	1.9	3.8
Total finance costs	55.6	64.8
Finance costs, net	\$ 50.8	\$ 59.9

22. EARNINGS PER SHARE

Earnings applicable to common shares are comprised of the following:

	May 4, 2013	May 5, 2012
Net earnings	\$ 384.8	\$ 339.4
Preferred share dividend	–	(0.1)
Earnings applicable to common shares	\$ 384.8	\$ 339.3

Earnings per share is comprised of the following:

	May 4, 2013	May 5, 2012
Basic earnings per share	\$ 5.66	\$ 4.99
Diluted earnings per share	\$ 5.65	\$ 4.99

The weighted average number of outstanding shares as at May 4, 2013 used for basic earnings per share amounted to 67,948,510 (2012 – 67,948,510) shares.

The weighted average number of shares for the purpose of diluted earnings per share can be reconciled to the weighted average number of ordinary shares used in the calculation of basic earnings per share as follows:

	May 4, 2013	May 5, 2012
Weighted average number of shares used in basic earnings per share	67,948,510	67,948,510
Shares deemed to be issued for no consideration in respect of stock-based payments	134,746	111,477
Weighted average number of shares used in diluted earnings per share	68,083,256	68,059,987

23. BUSINESS ACQUISITIONS AND FORMATIONS

The Company acquired franchise and non-franchise stores, retail gas locations, prescription files and theatres. The results of these acquisitions have been included in the consolidated financial results of the Company since their acquisition dates, and were accounted for through the use of the acquisition method. Goodwill recorded on the acquisitions of franchise and non-franchise stores and retail gas locations relate to the acquired work force and customer base of the existing store location, along with the synergies expected from combining the efforts of the acquired stores with existing stores.

The following table represents the amounts of identifiable assets from resulting acquisitions for the respective periods:

	May 4, 2013	May 5, 2012
Stores, retail gas locations and theatres		
Inventories	\$ 1.7	\$ 11.6
Property and equipment	10.1	147.9
Intangibles	–	23.1
Goodwill	8.3	82.1
Provisions	(1.2)	(22.6)
Other assets and liabilities	(1.2)	5.0
	\$ 17.7	\$ 247.1
Prescription files		
Intangibles	\$ 0.2	\$ 0.6
Cash consideration	\$ 17.9	\$ 247.7

The businesses acquired contributed sales of \$33.8 and earnings of \$1.9 for the year ended May 4, 2013.

Shell acquisition

During fiscal 2013, management finalized the purchase price allocation related to the March 2012 acquisition of 236 retail gas locations and related convenience store operations in Québec and Atlantic Canada from Shell Canada. As a result, the consolidated balance sheet as at May 4, 2013 was adjusted by an increase to land of \$1.7, a decrease to equipment of \$3.4, and increase to provisions of \$0.6, and goodwill increased \$2.3.

Canadian Digital Cinema Partnership

During fiscal 2012, the Company formed Canadian Digital Cinema Partnership (“CDCP”), a joint venture with Cineplex Inc. (“Cineplex”). The costs of implementing digital projection systems in the venturers’ theatres will be funded by CDCP, through a separate credit facility, which is non-recourse to the venturers, and the collection of virtual print fees from distributors.

Empire transferred digital projectors valued at \$7.6 in exchange for a 21.8 percent interest in CDCP. Cineplex and Empire each have 50 percent of the voting rights of CDCP. Empire accounts for its investment in CDCP using the equity method.

The digital projection systems leased from CDCP will replace most of Empire’s remaining 35 millimeter projection systems and allow Empire to add additional 3D screens to the circuit.

24. GUARANTEES, COMMITMENTS, AND CONTINGENT LIABILITIES

Guarantees

Franchise affiliates

Sobeys has a guarantee contract under the terms of which, should franchise affiliates be unable to fulfill their lease obligations, Sobeys would be required to fund the greater of \$7.0 or 9.9 percent (2012 – \$7.0 or 9.9 percent) of the authorized and outstanding obligation. The terms of the guarantee contract are reviewed annually each August. As at May 4, 2013, the amount of the guarantee was \$7.0 (2012 – \$7.0).

Sobeys has guaranteed certain equipment leases of its franchise affiliates. Under the terms of the guarantee should franchise affiliates be unable to fulfill their lease obligations, Sobeys would be required to fund the difference of the lease commitments up to a maximum of \$70.0 on a cumulative basis. Sobeys approves each of the contracts.

During fiscal 2009, Sobeys entered into an additional credit enhancement contract in the form of a standby letter of credit for certain independent franchisees for the purchase and installation of equipment. Under the terms of the contract should franchisee affiliates be unable to fulfill their lease obligations or other remedy, Sobeys would be required to fund the greater of \$6.0 or 10.0 percent (2012 – \$6.0 or 10.0 percent) of the authorized and outstanding obligation annually. Under the terms of the contract, Sobeys is required to obtain a letter of credit in the amount of the outstanding guarantee, to be revisited each calendar year. This credit enhancement allows Sobeys to provide favourable financing terms to certain independent franchisees. The contract terms have been reviewed and Sobeys determined that there were no material implications with respect to the consolidation of SPEs. As at May 4, 2013 the amount of the guarantee was \$6.0 (2012 – \$6.0).

The aggregate, annual, minimum rent payable under the guaranteed operating equipment leases for fiscal 2014 is approximately \$15.8. The guaranteed lease commitments over the next five fiscal years are:

	Third Parties
2014	\$ 15.8
2015	0.5
2016	0.3
2017	–
2018	–
Thereafter	–

Other

At May 4, 2013, the Company was contingently liable for letters of credit issued in the aggregate amount of \$97.8 (2012 – \$69.6).

Upon entering into the lease of its new Mississauga distribution centre, in March 2000, Sobeys guaranteed to the landlord the performance, by SERCA Foodservice Inc., of all of its obligations under the lease. The remaining term of the lease is 7 years with an aggregate obligation of \$22.6 (2012 – \$25.6). At the time of the sale of assets of SERCA Foodservice Inc. to Sysco Corp., the lease of the Mississauga distribution centre was assigned to and assumed by the purchaser, and Sysco Corp. agreed to indemnify and hold Sobeys harmless from any liability it may incur pursuant to its guarantee.

Commitments

Operating leases, as lessee

The Company leases various retail stores, distribution centres, theatres, offices, and equipment under non-cancellable operating leases. These leases have varying terms, escalation clauses, renewal options, and basis on which contingent rent is payable.

The total net, future minimum rent payable under the Company's operating leases as of May 4, 2013 is approximately \$2,748.9. This reflects a gross lease obligation of \$3,730.1 reduced by expected sub-lease income of \$981.2. The net commitments over the next five fiscal years are:

	Third Parties		Related Parties	
	Net Lease Obligation	Gross Lease Obligation	Net Lease Obligation	Gross Lease Obligation
2014	\$ 228.8	\$ 338.6	\$ 65.8	\$ 65.8
2015	214.4	315.6	65.7	65.7
2016	198.6	293.6	64.8	64.8
2017	180.8	266.2	58.0	58.0
2018	163.3	237.1	57.2	57.2
Thereafter	888.1	1,404.1	563.4	563.4

The Company recorded \$440.0 (2012 – \$411.6) as an expense for minimum lease payments for the year ended May 4, 2013 in the consolidated statements of earnings. The expense was offset by sub-lease income of \$129.9 (2012 – \$118.3), and a further \$9.2 (2012 – \$4.5) of expense was recognized for contingent rent.

Operating leases, as lessor

The Company also leases most investment properties, under operating leases. These leases have varying terms, escalation clauses, renewal options and basis on which contingent rent is receivable.

Rental income for the year ended May 4, 2013 was \$59.2 (2012 – \$41.7) and was included in sales in the consolidated statements of earnings. In addition, the Company recognized \$1.0 of contingent rent for the year ended May 4, 2013 (2012 – \$1.5).

The lease payments expected to be received over the next five fiscal years are:

	Third Parties
2014	\$ 7.1
2015	5.9
2016	5.5
2017	5.2
2018	4.4
Thereafter	24.6

Contingent liabilities

On June 21, 2005, Sobeys received a notice of reassessment from Canada Revenue Agency (“CRA”) for fiscal years 1999 and 2000 related to the Goods and Service Tax (“GST”). CRA asserts that Sobeys was obliged to collect GST on sales of tobacco products to status Indians. The total tax, interest and penalties in the reassessment was \$13.6. Sobeys has reviewed this matter, has received legal advice, and believes it was not required to collect GST. During the second quarter of fiscal 2006, Sobeys filed a Notice of Objection with CRA. Accordingly, Sobeys has not recorded in its statements of earnings any of the tax, interest or penalties in the notice of reassessment. Sobeys has deposited with CRA funds to cover the total tax, interest and penalties in the reassessment and has recorded this amount as an other long-term receivable from CRA pending resolution of the matter.

There are various claims and litigation, which the Company is involved with, arising out of the ordinary course of business operations. The Company’s management does not consider the exposure to such litigation to be material, although this cannot be predicted with certainty.

In the ordinary course of business, the Company is subject to ongoing audits by tax authorities. While the Company believes that its tax filing positions are appropriate and supportable, from time to time certain matters are reviewed and challenged by the tax authorities.

25. FINANCIAL INSTRUMENTS**Credit risk**

Credit risk is the risk of an unexpected loss if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company’s financial instruments that are exposed to concentrations of credit risk are primarily cash and cash equivalents, receivables, loans and other receivables, asset-backed commercial paper, derivative contracts and guarantees.

The Company’s maximum exposure to credit risk corresponds to the carrying amount for all cash and cash equivalents, loans and receivables, the carrying value of asset-backed commercial paper (Note 7) and guarantee contracts for franchise affiliates (Note 24).

The Company mitigates credit risk associated with its trade receivables, mortgage and loans receivables through established credit approvals, limits and a regular monitoring process. The Company generally considers the credit quality of its financial assets that are neither past due or impaired to be solid. The Company regularly monitors collection performance and pledged security for all of its receivables and loans and other receivables to ensure adequate payments are being received and adequate security is available. Pledged security can vary by agreement, but generally includes inventory, fixed assets including land and/or building, as well as personal guarantees. Credit risk is further mitigated due to the large number of customers and their dispersion across geographic areas. The Company only enters into derivative contracts with counterparties that are dual rated and have a credit rating of “A” or better to minimize credit risk.

Receivables are substantially comprised of balances due from independent accounts, franchisee or affiliate locations as well as rebates and allowances from vendors. The due date of these amounts can vary by agreement but in general balances over 30 days are considered past due. The aging of the receivables is as follows:

	May 4, 2013	May 5, 2012
0 – 30 days	\$ 320.5	\$ 315.4
31 – 90 days	36.3	28.7
Greater than 90 days	44.1	39.7
Total receivables before allowance for credit losses	400.9	383.8
Less: allowance for credit losses	(19.2)	(21.8)
Receivables	\$ 381.7	\$ 362.0

Interest earned on past due accounts is recorded as a reduction to selling and administrative expenses in the consolidated statements of earnings. Receivables are all current as of May 4, 2013.

Allowance for credit losses is reviewed at each balance sheet date. An allowance is taken on receivables from independent accounts, as well as receivables, loans and other receivables from franchise or affiliate locations and is recorded as a reduction to its respective receivable account on the consolidated balance sheets. The Company updates its estimate for credit losses based on past due balances from independent accounts and based on an evaluation of recoverability net of security assigned for franchise or affiliate locations. Current and long-term receivables, loans and other receivables are reviewed on a regular basis and are written-off when collection is considered unlikely. The change in allowance for credit losses is recorded as selling and administrative expenses in the consolidated statements of earnings and is presented as follows:

	May 4, 2013	May 5, 2012
Allowance, beginning of year	\$ 21.8	\$ 13.1
Provision for losses	2.7	14.4
Recoveries	(1.1)	(1.1)
Write-offs	(4.2)	(4.6)
Allowance, end of year	\$ 19.2	\$ 21.8

Liquidity risk

Liquidity risk is the risk that the Company may not have cash available to satisfy financial liabilities as they come due. The Company actively maintains a committed credit facility to ensure that it has sufficient available funds to meet current and foreseeable future financial requirements at a reasonable cost.

The Company monitors capital markets and the related conditions, and monitors its cash flows in order to assist in optimizing its cash position and evaluate longer term cash and funding requirements. Market conditions allowing, the Company will access debt capital markets for various long-term debt maturities and as other liabilities come due or as assessed to be appropriate in order to minimize risk and optimize pricing.

The following table summarizes the amount and the contractual maturities of both the interest and principal portion of significant financial liabilities on an undiscounted basis as at May 4, 2013:

	2014	2015	2016	2017	2018	Thereafter	Total
Derivative financial liabilities							
Foreign currency swaps	\$ 1.3	\$ 1.3	\$ 1.4	\$ 1.5	\$ 1.4	\$ –	\$ 6.9
Non-derivative financial liabilities							
Bank indebtedness	6.0	–	–	–	–	–	6.0
Accounts payable and accrued liabilities	1,765.8	–	–	–	–	–	1,765.8
Long-term debt	97.6	94.9	245.8	54.4	147.6	1,100.5	1,740.8
Total	\$ 1,870.7	\$ 96.2	\$ 247.2	\$ 55.9	\$ 149.0	\$ 1,100.5	\$ 3,519.5

Fair value of financial instruments

The fair value of a financial instrument is the estimated amount that the Company would receive or pay to settle the financial assets and financial liabilities as at the reporting date.

The book value of cash and cash equivalents, receivables, loans and other receivables, and accounts payable and accrued liabilities approximate fair values at the balance sheet dates due to the short term maturity of these instruments.

The book value of the long-term portion of loans and other receivables, investments and financial assets included in other assets classified as FVTPL approximate fair values at the balance sheet dates due to the current market rates associated with these instruments.

The fair value of the variable rate long-term debt is assumed to approximate its carrying amount. The fair value of long-term debt has been estimated by discounting future cash flows at a rate offered for borrowings of similar maturities and credit quality.

The fair value of derivative financial liabilities are estimated using valuation models that utilize market based observable inputs.

The following table summarizes the classification of the Company's financial instruments, as well as their carrying amounts and fair values:

May 4, 2013	FVTPL	Available for Sale	Loans and Receivables	Other Financial Liabilities	Total Carrying Amount	Fair Value
Financial Assets						
Cash and cash equivalents	\$ -	\$ -	\$ 455.2	\$ -	\$ 455.2	\$ 455.2

Fair value level 3	–	–	–	–	–	–
	\$ (2.8)	\$ –	–	–	–	\$ (2.8)

(1) The total carrying value of financial assets included in other assets is \$46.8.

(2) Derivative financial liabilities are included in other long-term liabilities on the consolidated balance sheets.

Derivative financial instruments

Derivative financial instruments are recorded on the consolidated balance sheets at fair value unless the derivative instrument is a contract to buy or sell a non-financial item in accordance with the Company's expected purchase, sale or usage requirements, referred to as a "normal purchase" or "normal sale". Changes in the fair values of derivative financial instruments are recognized in net earnings or loss unless it qualifies and is designated as an effective cash flow hedge or a normal purchase or normal sale. Normal purchases and normal sales are exempt from the application of the standard and are accounted for as executory contracts. Changes in fair value of a derivative financial instrument designated as a cash flow hedge are recorded in other assets and other long-term liabilities with the effective portion recorded in other comprehensive income.

Cash flow hedges

The Company's cash flow hedges consists principally of interest rate swaps, foreign currency forward contracts, and foreign currency swaps. Interest rate swaps are used to protect against exposure to variability in future interest cash flows on non-trading assets and liabilities which bear interest at variable rates. Foreign exchange contracts are used to hedge future purchases or expenditures of foreign currency denominated goods or services. Gains and losses are initially recognized directly in equity and are transferred to net earnings or loss when the forecast cash flows affect income or expense for the year.

As of May 4, 2013, the fair values of the outstanding derivatives designated as cash flow hedges of forecast transactions were assets of \$nil (2012 – \$nil) and liabilities of \$0.2 (2012 – \$2.8).

Cash flows from cash flow hedges are expected to flow over the next five years until fiscal 2018, and are expected to be recognized in net earnings over this period, and, in the case of foreign currency swaps, over the life of the related assets in which a portion of the initial cost is being hedged.

The gains and losses on ineffective portions of such derivatives are recognized immediately in net earnings for the year. During the year, the Company recognized \$nil (2012 – \$nil) directly into net earnings as a result of ineffective hedging contracts.

Interest rate risk

Interest rate risk is the potential for financial loss arising from changes in interest rates. Financial instruments that potentially subject the Company to interest rate risk include financial liabilities with floating interest rates.

The Company manages interest rate risk by monitoring market conditions and the impact of interest rate fluctuations on its debt. The Company utilizes interest rate swaps designated as cash flow hedges to manage variable interest rates associated with some of the Company's long-term debt. Hedge accounting treatment resulted in interest expense on the related borrowings being reflected at hedged rates rather than at variable interest rates.

The majority of the Company's long-term debt is at fixed interest rates or hedged with interest rate swaps. Bank indebtedness and approximately 31.4 percent (2012 – 22.9 percent) of the Company's long-term debt is exposed to interest rate risk due to floating rates.

Net earnings is sensitive to the impact of a change in interest rates on the average balance of interest bearing financial liabilities during the year. For the year ending May 4, 2013, the Company's average outstanding unhedged floating rate debt was \$312.6 (2012 – \$241.1). An increase (decrease) of 25 basis points would have impacted net earnings by \$0.5 (\$0.5) (2012 – \$0.4 (\$0.4)) and other comprehensive income by \$nil (\$nil) (2012 – \$0.1 (\$0.1)) as a result of the Company's exposure to interest rate fluctuations on its hedged and unhedged floating rate debt.

Foreign currency exchange risk

The Company conducts the vast majority of its business in Canadian dollars. The Company's foreign currency exchange risk principally relates to purchases made in U.S. dollars. In addition, the Company also uses forward contracts to fix the exchange rate on some of its expected requirements for Euros and U.S. dollars. Amounts received or paid related to instruments used to hedge foreign exchange, including any gains and losses, are recognized in the cost of purchases. The Company does not consider its exposure to foreign currency exchange risk to be material.

The Company has entered into foreign currency forward contracts and foreign currency swaps for the primary purpose of limiting exposure to exchange rate fluctuations relating to expenditures denominated in foreign currencies. These contracts are designated as hedging instruments for accounting purposes. Accordingly, the effective portion of the change in the fair value of the forward contracts are accumulated in other comprehensive income until the variability in cash flows being hedged is recognized in net earnings in future accounting periods.

The Company estimates that a 10 percent increase (decrease) in applicable foreign currency exchange rates would impact net earnings by \$nil (\$nil) (2012 – \$0.9 (\$0.9)) and other comprehensive income by \$0.4 (\$0.4) (2012 – \$1.2 (\$1.2)) for foreign currency derivatives in place at year end.

Market risk

Market risk is the risk that the fair value of investments will fluctuate as a result of changes in the price of the investment. The Company estimates that a 10 percent change in the market value of its investments that trade on a recognized stock exchange would impact net earnings by \$1.2 (2012 – \$nil) and other comprehensive income by \$2.1 (2012 – \$1.1).

26. SEGMENTED INFORMATION

The Board of Directors has determined that the primary segmental reporting format is by business segment, based on the Company's management and internal reporting structure. The Company operates principally in two business segments: food retailing and investments and other operations. The food segment consists of distribution of food products in Canada. Inter-segment transactions are carried out at market prices.

Segment results and assets include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

Each of these operating segments is managed separately as each of these segments requires different technologies and other resources as well as marketing approaches. All inter-segment transfers are carried out at arm's length prices. The measurement policies the Company uses for segment reporting under IFRS 8, "Operating Segments", are the same as those used in its consolidated financial statements.

No asymmetrical allocations have been applied between segments.

The sales and operating income generated by each of the group's business segments are summarized as follows:

	May 4, 2013	May 5, 2012
Segmented sales		
Food retailing	\$ 17,402.7	\$ 16,055.5
Investments and other operations	221.7	204.6
	17,624.4	16,260.1
Elimination of inter-segment	11.7	11.0
Total	\$ 17,612.7	\$ 16,249.1

	May 4, 2013	May 5, 2012
Segmented operating income		
Food retailing	\$ 515.3	\$ 475.8
Investments and other operations		
Crombie REIT	13.7	19.7
Real estate partnerships	29.6	30.0
Other operations, net of corporate expenses	26.2	8.8
	69.5	58.5
Total	\$ 584.8	\$ 534.3

	May 4, 2013	May 5, 2012
Total assets by segment		
Food retailing	\$ 6,440.1	\$ 6,327.7
Investments and other operations	700.0	585.4
Total	\$ 7,140.1	\$ 6,913.1

Segment operating income can be reconciled to group profit as follows:

	May 4, 2013	May 5, 2012
Total operating income	\$ 584.8	\$ 534.3
Finance costs, net	50.8	59.9
Total	\$ 534.0	\$ 474.4

The investments and other operations consists of the investments, at equity in Crombie REIT, real estate partnerships, and various other corporate operations.

27. STOCK-BASED COMPENSATION

Deferred stock units

Members of the Board of Directors may elect to receive all or any portion of their fees in deferred stock units ("DSUs") in lieu of cash. The number of DSUs received is determined by the market value of the Company's Non-Voting Class A shares on each directors' fee payment date. Additional DSUs are received as dividend equivalents. DSUs cannot be redeemed for cash until the holder is no longer a director of the Company. The redemption value of a DSU equals the market value of an Empire Non-Voting Class A share at the time of redemption. On an ongoing basis, the Company values the DSU obligation at the current market value of a corresponding number of Non-Voting Class A shares and records any increase or decrease in the DSU obligation as selling and administrative expenses on the consolidated statements of earnings. At May 4, 2013 there were 131,175 (2012 – 120,093) DSUs outstanding. During the 52 weeks ended May 4, 2013, the compensation expense was \$2.6 (2012 – \$1.4).

Performance share unit plan

Commencing in fiscal 2012, the Company awarded certain employees a target number of performance share units (“PSUs”) that track the Company’s Non-Voting Class A share prices over a three-year period. The number of PSUs that vest under an award is dependent on time and the achievement of specific performance measures. On the vesting date, each employee is entitled to receive a cash payout amount equal to the number of their vested PSUs multiplied by the market value of the Non-Voting Class A shares. At May 4, 2013, there were 41,461 (2012 – 18,311) PSUs outstanding. During the 52 weeks ended May 4, 2013, the compensation expense was \$0.9 (2012 – \$0.6).

The total carrying amount of liability for DSUs and PSUs at May 4, 2013 was \$10.5 (2012 – \$7.5).

Stock option plan

During fiscal 2013, the Company granted an additional 45,310 options under the stock option plan for employees of the Company whereby options are granted to purchase Non-Voting Class A shares. The weighted average fair value of \$8.23 per option (2012 – \$9.76 per option) was determined using the Black Scholes model with the following weighted average assumptions:

Share price	\$	53.93
Expected life		5.25 years
Risk-free interest rate		1.40%
Expected volatility (based on recent 5-year history)		19.4%
Dividend yield		1.78%

The compensation cost relating to the 52 weeks ended May 4, 2013 was \$0.6 (2012 – \$1.4) with amortization of the cost over the vesting period of four years. The total increase in contributed surplus in relation to the stock option compensation cost was \$0.6 (2012 – \$1.4).

The outstanding options at May 4, 2013 were granted at prices between \$40.26 and \$54.40 and expire between June 2015 and June 2020. Stock option transactions during fiscal 2013 and 2012 were as follows:

	2013		2012	
	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
Balance, beginning of year	638,818	\$ 46.57	565,571	\$ 45.55
Granted	45,310	53.93	73,247	54.40
Balance, end of year	684,128	\$ 47.06	638,818	\$ 46.57
Stock options exercisable, end of year	468,450		329,050	

The following table summarizes information about stock options outstanding at May 4, 2013:

Year Granted	Options Outstanding			Options Exercisable	
	Number of Outstanding Options	Weighted Average Remaining Contractual Life ⁽¹⁾	Weighted Average Exercise Price	Number Exercisable at May 4, 2013	Weighted Average Exercise Price
2008	81,218	2.17	\$ 43.96	81,218	\$ 43.96
2009	173,086	3.17	40.26	173,086	40.26
2010	160,803	4.17	46.04	120,602	46.04
2011	150,464	5.17	51.99	75,232	51.99
2012	73,247	6.17	54.40	18,312	54.40
2013	45,310	7.17	53.93	–	–
Total	684,128	4.31	\$ 47.06	468,450	\$ 44.83

(1) Weighted average remaining contractual life is expressed in years.

Share Purchase Plan

The Company has a share purchase plan for employees of the Company whereby loans are granted to purchase Non-Voting Class A shares.

The Company's current practice is to use only the performance share unit plan and the stock option plan to provide medium-term and long-term incentive for employees. As a result, outstanding loans under the share purchase plan will be repaid at the employees' option, but no later than the expiry date of the loans which were originally set for 10 years.

28. RELATED PARTY TRANSACTIONS

The Company has related party transactions with various associates and key management personnel. The Company holds a 42.8 percent ownership interest in Crombie REIT and accounts for its investment using the equity method.

As a result of the Company's subscription of Class B units and the conversion of Crombie REIT debentures during the current fiscal year, the Company's interest in Crombie REIT decreased from 44.3 to 42.8 percent.

On October 20, 2011, Crombie REIT closed a bought-deal public offering of units at a price of \$12.85 per unit. In satisfaction of its pre-emptive right with respect to the public offering, the Company subscribed for \$30.0 of Class B units (which are convertible on a one-for-one basis into units of Crombie REIT). On March 29, 2012, Crombie REIT closed an additional bought-deal public offering of units at a price of \$14.50 per unit. Concurrent with this public offering, the Company subscribed for approximately \$53.0 of Class B units.

On July 3, 2012, the Company purchased \$24.0 of convertible unsecured subordinated debentures (the "Debentures") from Crombie REIT, pursuant to a bought-deal prospectus offering for a total of \$60.0. The Debentures have a maturity date of September 30, 2019. The Debentures have a coupon of 5.00% per annum and each \$1,000 principal amount of Debenture is convertible into approximately 49.7512 units of Crombie REIT, at any time, at the option of the holder, based on a conversion price of \$20.10 per unit.

On September 25, 2012, the Company converted convertible unsecured subordinated debentures with a face value of \$10.0 into 909,090 units of Crombie REIT. The units were recorded at the exchange amount of \$13.8, resulting in a pre-tax gain of \$3.8.

On December 14, 2012, Crombie REIT closed a bought-deal public offering of units at a price of \$14.75 per unit. Concurrent with the public offering, the Company subscribed for \$24.5 of Class B units (which are convertible on a one-for-one basis into units of Crombie REIT).

During the year, the Company sold eight (2012 – nine) properties to Crombie REIT, seven (2012 – seven) of which were leased back. Cash consideration received for the properties was recorded at the exchange amount of \$106.0 (2012 – \$123.9), resulting in a pre-tax gain of \$15.0 (2012 – \$12.4), which has been recognized in the consolidated statements of earnings. During fiscal 2012, the Company acquired a property from Crombie REIT for \$5.0, which is equal to the fair market value of the property. As the property was leased by the Company from Crombie REIT, an additional \$2.0 was paid for the cancellation of the lease and recognized in the consolidated statements of earnings, with total cash consideration paid of \$7.0.

The Company rents premises from Crombie REIT, at amounts in management's opinion which approximate fair market value. Management has determined these amounts to be fair value due to the significant number of leases negotiated with third parties in each market it operates. During fiscal year 2013, the aggregate net payments under these leases, which are measured at exchange amounts, were \$80.6 (2012 – \$75.1).

In addition, Crombie REIT provides administrative and management services to the Company. The charges incurred for administrative and management services are on a cost recovery basis.

At May 4, 2013, investments included \$24.8 (2012 – \$12.8) of Crombie REIT convertible unsecured subordinated debentures. During fiscal 2012, fixed rate secured mortgages provided to Crombie REIT in the amount of \$5.6 were repaid in their entirety. The Company received interest from Crombie REIT of \$1.2 for the year ended May 4, 2013 (2012 – \$0.8). These amounts are included in other income in the consolidated statements of earnings.

During the quarter ended November 3, 2012, the Company acquired a parcel of land from an associate in which the Company holds a 40.7 percent interest. Cash consideration paid for the land was \$7.6. The gain realized of \$1.6 was eliminated from property and equipment.

Key management personnel compensation

Key management personnel include the Board of Directors and members of the Company's executive team that have authority and responsibility for planning, directing and controlling the activities of the Company.

Key management personnel compensation was as follows:

	May 4, 2013	May 5, 2012
Salary, bonus and other short-term employee benefits	\$ 17.8	\$ 16.5
Post-employment benefits	3.8	1.3
Termination benefits	–	1.0
Share-based payments	1.8	1.9
Total	\$ 23.4	\$ 20.7

Indemnities

The Company has agreed to indemnify its directors, officers and particular employees in accordance with the Company's policies. The Company maintains insurance policies that may provide coverage against certain claims.

29. CAPITAL MANAGEMENT

The Company's objectives when managing capital are: (i) ensure sufficient liquidity to support its financial obligations and execute its operating and strategic plans; (ii) to minimize the cost of capital while taking into consideration current and future industry, market and economic risks and conditions; (iii) to maintain an optimal capital structure that provides necessary financial flexibility while also ensuring compliance with any financial covenants; and (iv) to maintain an investment grade credit rating with each rating agency that assesses the credit worthiness of the Company.

The Company monitors and makes adjustments to its capital structure, when necessary, in light of changes in economic conditions, the objectives of its shareholders, the cash requirements of the business and the condition of capital markets.

The Company considers its total capitalization to include all interest bearing debt, including bank loans, long-term debt (including the current portion thereof) and shareholders' equity, net of cash and cash equivalents. The calculation is set out in the following table:

	May 4, 2013	May 5, 2012
Bank indebtedness	\$ 6.0	\$ 4.4
Long-term debt due within one year	47.6	237.3
Long-term debt	915.9	889.1
Funded debt	969.5	1,130.8
Less: cash and cash equivalents	(455.2)	(510.2)
Net funded debt	514.3	620.6
Shareholders' equity, net of non-controlling interest	3,726.2	3,396.3
Capital under management	\$ 4,240.5	\$ 4,016.9

Although the Company does not include operating leases in its definition of capital, the Company does give consideration to its obligations under operating leases when assessing its total capitalization.

The primary investments undertaken by the Company include additions to the selling square footage of its store network via the construction of new, relocated and expanded stores, including related leasehold improvements and features and the purchase of land bank sites for future store construction. The Company makes capital investments in information technology and its distribution capabilities to support an expanding store network. In addition, the Company makes capital expenditures in support of its investments and other operations. The Company largely relies on its cash flow from operations to fund its capital investment program and dividend distributions to its shareholders. The cash flow is supplemented, when necessary, through the borrowing of additional debt or the issuance of additional capital stock. No changes were made to these objectives in the current year.

Management monitors certain key ratios to effectively manage capital:

	May 4, 2013	May 5, 2012
Funded debt to total capital ⁽¹⁾	20.6%	25.0%
Funded debt to EBITDA ⁽²⁾	1.0x	1.3x
EBITDA to interest expense ⁽²⁾	17.8x	14.4x

(1) Total capital is funded debt plus shareholders' equity, net of non-controlling interest.

(2) EBITDA and interest expense are comprised of EBITDA and interest expense for each of the 52 week periods then ended. EBITDA (operating income plus depreciation and amortization of intangibles) and interest expense (interest expense on financial liabilities measured at amortized cost plus losses on cash flow hedges reclassified from other comprehensive income) are non-GAAP financial measures. Non-GAAP financial measures do not have standardized meanings prescribed by GAAP and therefore may not be comparable to similar measures presented by other reporting issuers.

As part of existing debt agreements, two financial covenants are monitored and communicated, as required by the terms of credit agreements, on a quarterly basis by management to ensure compliance with the agreements. The covenants are: (i) adjusted total debt/EBITDA – calculated as net funded debt plus letters of credit, guarantees and commitments divided by EBITDA (as defined by the credit agreements and for the previous 52 weeks); and (ii) debt service coverage ratio – calculated as EBITDA divided by interest expense plus repayments of long-term debt (all amounts are based on the previous 52 weeks). The Company was in compliance with these covenants during the year.

30. SUBSEQUENT EVENTS

On June 12, 2013, the Company entered into an Asset Purchase Agreement with Safeway Inc. and its subsidiaries to purchase assets and select liabilities of Canada Safeway for cash consideration of \$5,800.0. The agreement provides for the purchase of 213 full service grocery stores under the Safeway banner in Western Canada, 199 in-store pharmacies, 62 co-located fuel stations, 10 liquor stores, 4 primary distribution centres and 12 manufacturing facilities plus the assumption of certain liabilities. The Company's and Sobeys' announcement included their intention that financing for the acquisition will come from a combination of the following: (i) a planned \$1,500.0 Empire equity offering; (ii) a planned \$1,000.0 sale-leaseback of acquired real estate assets; (iii) a \$1,825.0 term loan; (iv) the issuance of \$800.0 in unsecured notes by Sobeys; (v) other real estate and non-core asset sales; and (vi) available cash on hand. As some of these transactions may not be completed by the time of closing, Scotiabank has provided Empire and Sobeys with fully committed credit facilities for the full purchase price plus transaction expenses required to close the transaction. Crombie REIT has a right of first offer in respect of any real estate sales undertaken by Sobeys. The closing of the acquisition is expected during the company's second quarter, and is subject to the fulfillment or waiver of certain customary closing conditions as well as the receipt of required regulatory approvals, including that of the Competition Bureau.

Acquisition costs of \$5.0 relating to external legal, consulting, due diligence and other closing costs incurred to May 4, 2013 have been included in selling and administrative expenses in the consolidated statements of earnings.

On June 27, 2013, the Company announced that Empire Theatres has reached a definitive agreement with Cineplex Inc. for the sale of 24 theatres in Atlantic Canada and 2 theatres in Ontario. Empire Theatres has also reached a separate definitive agreement with Landmark Cinemas for the sale of 20 theatres in Ontario and Western Canada.

The purchase price for the Cineplex transaction is \$200.0 to be paid in cash, subject to certain adjustments to be made at closing.

The purchase price for the Landmark transaction is approximately \$55.0 subject to certain adjustments to be made at closing, with the purchase price to be paid as follows: \$31.0 in cash on closing; \$19.0 in equity; and an earn out right which management estimates has a potential value of approximately \$5.0. Upon closing, the assets will be held by a new entity with Empire Theatres' equity being the controlling interest. The new entity will be consolidated into the Company's financial statements, including \$30.0 of debt in the new entity. Landmark will manage the business and have a right to buy out Empire Theatres' equity interest for \$19.0 in cash until December 31, 2013, following which Empire Theatres can agree to sell its equity interest in the entity and require Landmark to sell on the same terms.

Closing of the transactions is subject to satisfaction of customary conditions and relevant regulatory approvals, which includes approval from the Competition Bureau. Closing of each transaction is expected to occur by late summer of 2013. Empire Theatres is not obligated to close either transaction without closing the other.
